**King's Gate: A High Fantasy Harem** Daniel Pierce

**What would you do if you woke up in another world?**

That's exactly the problem facing Alex Burke, a recently employed security guard who accidentally finds himself falling through an ancient teleportation gate. When he opens his eyes, he discovers a world of magic, elves, monsters, and demons, not all of which are eager to meet him.

**With no idea how to get home, he'll need to adapt, grow, and kill to survive.**

But Alex is a stranger in a strange land, which means he's bound to draw interest. Whether that's from his enemies or the many beautiful women he encounters remains to be seen, but he'll need every ounce of wit, strength, and charm to conquer both.

**Warning: This story contains adult situations, coarse language, and other fun things. Read at your own risk.**

## **From Reader Review King's Gate: A High Fantasy Harem for online ebook**

### **Willy Turner says**

#### **Excellent story**

I loved this story and its characters, it was very detailed and the plot kept me hooked until the end, I can't wait to read the next book in this series.

---

### **Dan says**

#### **Good story annoying main chracter**

I enjoyed the overall concept of the book but just couldnt get over the whiney main character i intend to read the next one but pray the mc grows up a lot

---

### **Doug says**

#### **Didn't like it much.**

I bought this novel because it was in the Amazon recommendations for me, and didn't go into it with high expectations. And shouldn't have gone in with any.

Pros: not many spelling or grammatical errors

Cons: obvious plot holes, one dimensional characters, poor scene setting, character reactions weren't believable. Definitely a work that should have gone to an editor first.

I would recommending purchasing this book as a gift for your enemies.

---

### **Terry Bean says**

#### **Good start**

This is a ok start, I hope that it develops into series worth reading. The second book needs to better to continue reading this series.

---

### **James says**

### **A good start to a series.**

This book was enjoyable to read and it had some good moments in the book where you can see the characters developed. The characters are interesting and varied I enjoyed the use of the gates to make it possible for the author to develop the story in unique ways.

---

### **Kelley says**

I would give this 3 1/2 stars if I could. Good story but it has some plot wholes.

---

### **Drew says**

#### **High fantasy**

Not for me. There seemed to be a mismatch between the stakes (saving the entire world) and the level of conflict faced by the characters (discomfort disclosing uncomfortable pasts)

This kind of drains the tension in the story. If we're told that a character is a future King of the World, then he's almost certain to live through fights with low-level mooks.

It also makes interpersonal drama weird. If the fate of the world hangs on Some Guy getting to a city, then conflicts with an ex shouldn't be a big deal

---

### **Iori says**

#### **Awesome**

Well that was a nice début, it was actually better than the jumbled mess called "forever young" and the female love interest are interesting and not bothersome shrew. I liked how the magic was instinctive and the clear goal of the story.

---

### **Drew says**

#### **I enjoyed it**

Certainly better than some of the reviews would have you believe. Mind you the cover art is nonsense, how about drawing the actual characters!!!

Overall I thought it well written and the characters seem pretty authentic for what they are, looking forward to more.

---

## **Alan Kisbee says**

### **Magic with brute force**

A great adventure begins with this book. Likeable characters, a great evil to defeat, what more could a story about a small band of misfits need? Thoroughly enjoyed, it even had a couple of steamy sex scenes which adds to the complexity of the relationships between the characters.

---

## **Robert says**

### **Made it to 45%**

I am sure this story made sense in the author's head but something was off when he typed it in. Every single scene was confusing. As if there were entire paragraphs missing. This story gave me a headache just trying to keep straight where characters were and what they were doing. Their emotions and dialog were jumping around faster than a cartoon character in a washer.

---

## **Michael Burnett says**

### **Good first book**

Good first book can't wait for the next in the series Daniel Pierce is a great writer I like a lot of his work

---

## **Curtis says**

### **A Gem That Needs More Polishing**

The first thing: this is a good story, and I want to see more from this author. The story, world, characters, and magic are all new and interesting, and draw you in. The spell-checking and general editing is well done too. Nice. So having said all that, here's why the very best I can give it is 3/5: Discontinuity.

Maybe it's just me, but the MC's emotions and postures are all over the place: I simply can't get a feel for the guy. One minute he's strong and dedicated, the next he's waffling, then he's taking a jerky hard line. Bizarre. The first couple of times it happened it was so jarring I re-read the text a few times, sure that I missed a scene, then sure one got dropped in rewrites. It's like the first sex scene: it happens, but we (I?) really don't understand why it happens. It's technically well written too, but you kind of scratch your head over it.

Multiply that by the dozens, then add in similarly inconsistent behavior by the other characters, and you're left saying "Wait, what?" so many times that the story is lost. That's a real shame, because like I said first thing, this book is good: as blueprinted, anyway. If it's updated, with some transition scenes (hell, even

sentences!) added, and character behavior solidified, then you will have a solid winner here. As it stands though, as much as I want to like it — and I DO want to like it — I just can't recommend it right now.

---

### **Andrew Gring says**

#### **Fun**

This was a great start. I loved the characters. The action was great. I love harem books. Great sex scenes. Keep them coming.

---

### **Sara says**

I have enjoyed all of Daniel Pierce's books but I must say King's Gate is my favorite!

Alex, our main character whose world is turned upside down when he's thrown into a different realm. He's a lovable character who makes you laugh. I had many laugh out loud moments reading this book. Emely, Mathus, Riley, Nia and Celeste make up the rest of Alex's band of misfits.

King's Gate will suck you in from the beginning and you'll be sad when you finish, like you've lost a dear friend. You'll laugh and cheer for the good guys!

A must read.
