Lost Yesterday was WOW when it started, but the ending was even more of a WOW factor! The entire book was just WOW!

Marin is thrust back in time after a horrible accident. Here she is 120 years in the past falling in love with a ghost she had seen before her accident. During the course of the book she fights between her worlds to choose where she really belongs.

This book was written so well. I fell in love on the first page. I loved the characters. I loved the history. I loved the time travel. Honestly, I loved it all! The ending is a big shock though. But, one the readers will (you guessed it) LOVE!

Great book from the very first page to the very last. I can not wait to read more from such a talented author!...Stormi

Time travel books can go in many different directions. This is one of those books. Beginning with seeing a ghost, Marin is determined to find out who he was. Because she curates the Pierce house, finding things is a lot easier. Losing her first husband, meeting a dashing ghost, having a wreck, and to top it off she's not in Kansas anymore! The only thing I did not like was the fact that she went back in time yet her dress, speech patterns, and mannerisms never seemed to be addressed. However, the end of the book will clear that up for you quite nicely. An easy read but I find it much better than a third grade level. If you like ghosts, grouchy old mothers, crazy pets, handsome leading man and a demure leading lady, try this book. It's not the best I have ever read and it's not the worst.

Lost Yesterday by Jenny Lykins

This has to be a five stars book. It's different main character was not like other time travel books. Only they should have extended the ending more. Good book!

Intriguing, lovely, forever, love story

I loved the ending. The story was well written and very imaginative. This was a different and plausible take on time travel. I really liked it and Jenny Lykins writing style. This book is well worth reading.

*** "Lost Yesterday", by Jenny Lykins, sends Marin back to 1876 Memphis in another body. She already was falling for Hunter, a ghost from old photos who kept appearing in her historical mansion workplace. An Irish fiance, a lonely orphan tot, a disagreeable mother, and other complications involve humor and easy conflict. The happy ever after transcends time and bodies via an ending that is a tad too tricky. [Spoiler. (Do not read more unless you want to know the ending.) Visions of hospital and coma from vehicle crash include her beloved late husband, Ryan. When Hunter was revived from a childhood illness with complete amnesia, he had become Ryan.]

Awesome!

What does every love story have? Conviction of love personalized with devotion and of course lust, that turns to love. It is possible to have more than one love. Mari and her two loves managed to complete the triangle and with a moppet and mother in law you have a LOVE STORY that reminds us how to love. Well done ms. Lykins!!!!!!

3.5 stars! I especially loved the ending. It was just the perfect way to conclude the story.

Carolyn Bond says

I liked the firey personality of Marin. Felt bad for Nils. The ghost of Hunter is intriguing. The plot of weaving present and past was alluring. Loved Mamie. Liked seeing the change in Lucille but it seemed flat. It was hard to see the change actually happening in her rather than being told it happened.

It bothered me that Hunter was constantly fighting his urge to love his wife. Honestly if I were Marin, I would have thrown up my hands and returned to the present time because he was hot and cold to her. I wish there was more about why the ghost of Hunter was pursuing her.

Spoiler alert*****

Another reviewer said that Hunter was actually Ryan but I missed that completely. The ending happened so fast in the last paragraph that I had to read it twice to understand. I would have like a little more dialog at the end to understand. I worry that I missed something. If Ryan is Hunter then how did that happen exactly?

The book seemed to linger forever in the middle. The ending was a bit abrupt for me. Anyhow, I like this author and really liked Waiting for Yesterday. I plan to read more of this author's work.

[Hunter didn't have a child suddenly dropped on his doorstep, his mother stayed true to her character, and told Marin that he believed she was telling the truth before they got married. I felt that him having a d

I loved this time travel love story. Well written and flowed so smoothly from the present to the past and back again. I had tears in my eyes at times when reading. I was hoping for a happy ending but wasn't sure which choice she would make. I have to go find the other books in this series to read next.

Lost Yesterday

Time travel and ghosts. I really enjoyed the story though at times the author got a little long winded and "cheesy" in the romance department. I also could have done very nicely without the little girl in the story call her grandmother "Gwandma" and the heroine "Mawin" instead of Marin. It was irritating and a little too reminiscent of Elmer Fudd. All in all it was good story with a great ending that I didn't see coming.

Jina Howell-Forbes says

This is a time travel story with ghosts, so I should have liked it. But it was written like a third grader. It sounds like a strange thing to say about that kind of story, but it just wasn't believable. Many time travel stories appear as if they really could have happened, but not this one.
