Loving Hart Ella Fox

This is an alternate cover edition of ISBN13: 9781301534357

Destiny gave them each other...

From the moment he saw her, Spencer Cross knew that Delilah Hart was special. Understanding that she needed him to be strong for her, Spencer endured a childhood filled with secrets, lies and abuse. Delilah gave him a reason to live as she protected his heart and kept him from going off the rails.

Delilah knew that fate had delivered the love of her life to her at a very early age. Spencer was her anchor and the reason she believed in true love. She'd never doubted that they were meant to be together forever.

Until chance threatened to rip them apart...

Will Delilah be able to convince Spencer to let go of his demons, or will she be forced to walk away with only the memories?

This is an erotic romance.

edzkie♥§*.*§♥ says

“I love you more than anything Spence. I'd die without you here. You'll never ever leave me, right Spence?”

My answer never changes. “No silly. Love you best, always going to need my other half.”

Spencer grew up as part of the Hart's family. Having fucked up parents brought them all together. Together with Dante and Damien, they raised the twins, Dominique & Delilah. Since birth, Delilah was more attach to him than Dominique. She cried every time his not around, and when she's hurt the only Spencer was the only one that can comfort him.

If I didn't have Delilah to keep me on track, I'd probably be doing some pretty bad stuff right now. Sometimes, when she's holding my hand and staring at me, I wonder if she knows what he does to me, if she can see or feel it somehow. Scary the way she knows when I need silence. Always knows when I need a hug. I always feel better when I'm holding her little hand. It's a feeling like nothing bad will happen if we've got each other. As much as I love Dante, Damien and Dominique, Delilah is different. She's the one person in the world I feel most like myself with. Don't know why that is, but that's how I feel.

The year I graduated sixth grade, my teacher asked all of the kids questions for the yearbook. The question she asked me was an easy one. What did I want to be when I grew up? My answer was, "Mrs. Spencer Cross."

Delilah knew since she was a kid that she will only love Spencer. She's willing to wait for him to be ready and she wanted him to be her first in everything. But with Spencer traumatic past, even if he loved Delilah too much, his not willing to give her what she wanted the most. Delilah need to choose between Spencer and her baby.

Dominique adores Spencer, but to her, he's another brother. I don't feel like that toward him at all, and I never have. Dominique has slipped a million times and introduced Spencer as her brother, but I've never even done it once. He isn't my brother, he's my destiny. I know that we go together, that we were born to complete each other.

This is my favorite from the three book. It give you better understanding of Hart & Cross past. Why Dante, Damien & Spencer vow to never have their family of their own. And how much they love each other, especially the twins, more than anything. Spencer & Delilah story was heart melting sweet. Love it from start to finish. The smexy was still as steammmy as the first two. (Ella's expert on that part!hush!) Scourching

HOT!!!!Ms. Ella fox !!!

Mirjana **DTR - Down to Read says**

****3.5 stars****

Spencer and Delilah's story definitely has the most emotion of the series so far. These two had a connection from the moment they set eyes on each other....and I don't mean as young adults, or as teens or even as prepubescent kids....I'm talking about a 4 year old and a toddler. I love that Ella Fox started their story at the VERY beginning through Spencer's 4 year old eyes. From the innocence of their friendship for the first dozen or so years of Delilah's life, and then her transformation into a woman and Spencer's realization of how deep his feelings for her ran.

It's clearly felt from the very beginning that Spencer and Delilah are deeply connected, very much in love and destined to be together. And boy, once these two get on the same page....WHOA!

They were like crazy, horny jackrabbits and I enjoyed every minute of it.

What didn't get this book to 4 stars for me was the constant back and forth. It was never the "right" time for anything. And when it was, you get the "let's talk about it later." UGH Communication people! Solves a lot of problems!

Also, the constant need to reassure one another drove me up the wall at times. I get it, I get it. You love each other. Always. Forever. Until the end of time. For eternity. No matter what. Until your last breath. Until your heart stops beating. Roger that...I 100% got the message.

Overall, the book was a quick read that started off stronger than it finished but definitely held my attention all the way through.

Awilk -never sleeps- says

I really have very little to say about this. I had a hard time finishing this, and I really cant say why. I have read the first two in this series, and enjoyed them much more. The repetitive style of writing from both POV

really annoyed me, and both of these characters just left me uninterested and uncaring.

The only problem left facing me now is if I care enough to be bothered reading any more of these books. The new characters mentioned toward the end of this one have piqued my interest, but I am not sure if it was enough to make me keep reading. Probably will, but I will wait a while until I can forget just how much I disliked this one.

Trish Mint says

If its possible to give ten stars I would. This Book is also amazing bc the books that came before it bring it all together. The author writes so well. The Hart families back story is just so sad and she really does a good job giving each character their own identity.

The sex is out of this world. Ella fox writes a damn good blow job among many other things. The love between Spencer and Delilah is so believable and their bond is breathtaking. I didn't want this book to end. Totally downloading the next and starting it ASAP. A must read ladies.

Alla says

Will write my review and rate it when I have finished the whole box set. I want to review and rate them all together since for me each book is a part of the other and if you read the first one, you have to read them all to get the whole story for all the characters.

Jamie says

5 GLORIOUS STARS.. YET AGAIN FOR ELLA FOX

I'm almost sorry I've gone through the first 3 of this series so quickly.. but they have all been such complete page turners.... Delilah and Spencer have loved each other since they were children, always being there for each other but have never taken the next step since Spencer grew up with Delilah's family and he always felt like it would be wrong. Delilah however had no problems seeing them together in every since of the word... and man did they get together.. whew!

Love the Hart family.... this is a series you need to read.. its extreemly hot and extreemly , extreemmmmmlllly steamy. But in addition to the super hot sex, are stories of true love with some angst thrown in..... Excellent Excellent series!

Monica says

I'm overflowing with happiness right now!

Spencer and Delilah are such a cute couple, my God!

This new Hart Family book had everything that keeps me hooked:

DRAMA

LOVE

SEX

AND A HAPPILY EVER AFTER

A few things which I didn't like (as always):

1)Ok, so we all know that Spencer is a man whore (just like the Hart brothers were before they found "the one"). And you know what? We are all (kind of) ok with that. We understand that men have needs and blah,blah,blah. But Spencer,sweetie, after you said this:

“Delilah... no one holds a candle to you. They didn't before and they sure as shit can't ever hope to now that I know what it's like to feel. They're just bodies. It isn't real because it isn't you. We just have to get through these two years. Once you've graduated, I'm coming for you. No matter what happens between now and then, I will always belong to you baby.”

Do you really expect **ME** to be ok, while you continue fucking everything that (apparently) resembles a woman?

I won't. You're damn lucky that the one you're in love with is actually someone...(I really wanna call her stupid) understandable. Because if I were her I would totaly do this to you:

2)Delilah being "fine" (she's **SO** not fine) about him sleeping with other women...

This is just beyond me. Why would you be at home, waiting for **TWO YEARS** for the love of your life to man the fuck up, while he's out there **FUCKING.SOMEONE.ELSE?** No positive answer, right? Right.

Well besides all of that, it was very nice to see more of the previous characters in this book.

One of the most amazing things about this book, is that Spencer and Delilah have their own chapter to narrate. It's very nice to read how both sides feel about the same thing.

P.S.I highly recomend you to have your AC on when reading this baby.Believe me, it's for your own safety. Enjoy!

Kristina says

- 10 STARS

I forgot I read this, must have blocked it out because I was so DISGUSTED by the cheating pig.

They're in love and together (in secret) with an end plan after 2 years to come out in the open as a couple and be together forever.

She's faithful, but this FUCKING BASTARD tells her straight out that he loves her only her, only wants her but during those 2 years he will continue to have constant sex with other women. But of course, they mean nothing to him? WHAT THE FUCKING HELL IS THIS RUBBISH!

Are you fucking kidding me? This is disgusting BULLSHIT! I honestly could NOT believe what I was reading in that scene. What utter rubbish.

Frankly, I'm repulsed with how anyone can cheer for this rat bastard. So if the h gets sick, he'll just fuckaround on her again, because no one not even his one true love can stand in the way of him and his dick getting laid.

Uggh, rubbish.

Charmaine Stephens says

This book was such a good combination of a story with substance & heart. Yet it still was hot! And so far out of the Hart Family series I have previously read, I think this one "**Loving Hart**" was my favorite! I just loved Spencer & Delilah together. I thought they were such a sweet couple. And their background story of how they grew up together just touched my heart and felt like their were so bonded & meant to be right from the start.

This one actually made me get choked up and cry concerning Spencer remembering all the sad memories of his childhood. Him and the hart kids hiding in the shed away from their parents wild parties. So heartbreaking reading those scenes, because no child should grow up experiencing or seeing that. The Harts along with Spencer had the most evil parents! Especially the scene with what Dante & damien's father does when dante calls for help for delilah when they were kids.

They went through so many ups & downs that felt like a roller-coaster! One day their so in love, the next they have to hide everything from the family finding out, then their in love again, then they break up! And then add in both of them jumping to the wrong conclusions sometimes without confirming to the other about it. It was a lot of twists in turns.

But yet I think this is a fairly easy read. Doesn't make you want to bash your head in like others book do sometimes. There's certainly angst but its tolerable angst. I love how through everything they never gave on each other or let go of the strong bond & love they share.

And as always I think Ella fox writes some of the sexiest sex scenes. Each time was always so hot! And memorable ;) You literally felt so much heart, passion & love between these two.

I'm glad through it all its a HEA for them. For a sec there it was a close call towards the ending! Looking forward to Book #4 Next! 5 STARS!

Jamie *Gypsy Smut-a-teer* says

I just love this family and this series!!

This is the story of Spencer and Delilah. The reader gets to live some of the heartbreaking backstory in this book that all of the Hart/Cross family lived. And let me tell you it completely broke my heart. It made you love these characters even more for all they had endured as kids. It's so romantic that Spencer got to look over Delilah her whole life. I loved that he was her first everything.

When Spencer and Delilah were together everything was perfect. From everything from their first kiss to the first time they went to Malibu. I hated their time apart and all of the miscommunications they had. I felt like they were under estimating Dante and Damien and gave up way too easy. There is no way the man I want to be with is going to admit to me that there is a possibility that he might be with other women and I'm going to be okay with it. I believed that he loved her, but if they agreed to wait out the two years then I believe if one has to be faithful they both should. Spencer really pissed me off here, but being in his mind did help. The time Delilah saw Spencer in the bar with the little slutty girl setting on his lap, instead of running I thought she should have went all "crazy ex-girlfriend" on him.

I'm so glad Spencer warmed to being a daddy. I was so worried with the way Broken Hart ended and then all of the agony we endured in this book that he was not going to accept it for a while and this agony would transfer over to the next book. He and the Hart kids deserve any happiness that comes to them and more with the past they had. It seems baby fever has taken over, lol!!

I loved the little twist in the end. It totally threw me for a loop. I can't wait for all to come with the new family members. I also am so excited to see Spence's parents get exactly what they deserve. They are

horrible horrible people.

I am sooo looking forward to more stories in this series. I just read the next is Dillion's story and also Dante and Sabrina 2.0 is being written. SOOO EXCITING!!!!

StellaR says

Spencer and Delilah's story brought many emotions out of me. It's a beautiful story on its own, I think it's my favorite of the series. It gives a better understanding about the past of the Hart family.

5 stars for the story, 5 ++++++ stars for the scorching HAWT scenes :D

Bwmurf says

Least Fave of Series so Far

I had expected this one to be my favorite in the series but it was my least favorite. The H/h had a bond almost since birth and he couldn't be celibate for two years while they waited to be together but of course she was. Hate that the other heroes did much better than this one.

Jenni Fields-Hatfield says

"I love you Delilah, and that's forever."

DAMN IT! Where do I get myself a Hart family member, a cousin, heck at this point I'll take an old ass uncle.

So far this is what I have looked like reading the Hart Family series.

A little bit of blushing...

and little bit of "oh you did not just say that"....

and a whole lot of...

I love this freaking love family and I am only on book 3!

I love how each book talks about each family member. For example, in the first two books Broken Hart & Shattered Hart you get a glimpse into what Delilah and Spencer are going through. But it's not until you read Loving Hart that you put together why they were acting a certain way. It's almost as if it allows you to feel even more for what they are going through, if that's even possible.

Pat yourself on the back - Ella Fox you have done an outstanding job with this series!! I love that Picture Perfect (Renegade Saints) ties right in to the Hart Family. Makes me eager to read EVERYTHING you write!

Seriously, The best book family of Series I have ever read! If you haven't read it your totally missing out!!

Jane Stewart says

Not my kind of story. It's written for sex. Not enough character and plot. Did not finish.

The beginning was interesting, young children being abused and raising each other. But the story about their grown up love lives - no.

The sex scenes are detailed and some very long. For some readers that's good. But I couldn't get into them. I skimmed them. I like books with sex, so that's not the problem.

At 62% I couldn't make myself read anymore, so I skipped to the last chapter and was done.

One part of the plot was unpleasantly unbelievable. (view spoiler)

Then we have "the big misunderstanding" which made me furious. This is one of those: if one person would say one honest sentence there would be no misunderstanding. (view spoiler)

DATA:

Narrative mode: 1st person switching between Spencer and Delilah. Kindle count length: 4,026 (407 KB) 232 pages. Swearing language: strong including religious swear words. Sexual language: strong.
