# Lumber Jacked

*Chance Carter*

**Lumber Jacked** Chance Carter

**This Lumberjack's Wood is Long, Hard, and way too Hot to Handle!**

Grady Cole is as rugged as he is sexy. He lives in a remote cabin in the woods with his baby daughter. The last thing he expects is a beautiful, innocent girl, lost and alone, to fall into his life.

But that's exactly what happens.

Out hunting, he finds a girl unconscious in the snow.

Autumn Lane is nineteen and out on her own for the first time. She's homesick, vulnerable, and completely alone. When Grady brings her back to his cabin she feels things she never knew she could. She's attracted to the strong man who has offered her warmth and safety. She wants to feel the touch of his coarse hands on her smooth skin. She wants him to be her first.

Grady craves Autumn like the mountain wolves crave their prey. He knows it's wrong. She's nineteen and he's thirty. She came to him for protection. She trusts him. But he can't help it. He's been cold and lonely too long and needs her to keep him warm at night. He wants to devour her, to possess her, to make her cry out his name and beg him to keep going.

Is she the one who can heal his wounds, bring his heart back to life, and give his baby the love and care she so desperately needs?

*Lumber Jacked is a hot and steamy romance about a man who craves a woman's soft touch, and a woman who yearns for the strength and grit of the man on the mountain. It is intended for adults and contains a very satisfying, happy ending!*

## **From Reader Review Lumber Jacked for online ebook**

### **Shatire says**

#### **Not what I expected...**

I liked the story, but it could've been better. This book is technically part of the Brotherhood series. There's an appearance from those characters and continues where Book 5 left off, just in case you want more on what happened between Grady and Raveena. Lumber didn't have the action like the Brotherhood books, it was more an emotional read on finding strength and family.

More backstory on the Hildegarde's would've been beneficial in understanding their actions. They added a special kind of creep factor to the book, it was good but didn't seem to fit into the story.

Book 4 of the Brotherhood series is included for a limited time, which means two books for one.

---

### **sandy says**

I am so embarrassed to even write a review for this book because then there is proof that I read it. If I could have given it less than one star I would have. The master and mistress were vile and disgusting. The aunt was a crazy wench. The mother was even a bit creepy. You can tell it was written by a man; milk for a 6 month old....no mention of pain or discomfort after her virginity is taken. This is just the tip of the iceberg. Needless to say, this is my first and last by this author. A skimmer for sure. Thankfully it was a Kindle unlimited.

---

### **iamGamz says**

I will refer to the other reviews on this book cause I have no words to describe this f\*#kery. I can only say I will never get the time I spent back. What a waste.

---

### **Toni says**

I REALLY liked Lumber Jacked by Chance Carter. It is a story about an older tattooed single dad and a much younger innocent woman. Grady moves to out of the way Destiny, Montana to start over. He is thirty and has just been notified that he needs to come pick up his "thought to be dead" 6 month old daughter Destiny.

Autumn is nineteen and has moved across the country to take a job at a hotel to help pay for her mother's medical care. She meets Grady when he checks in to the hotel and there is an immediate attraction. Although being treated badly by the owner of the hotel and his wife she tries to keep a positive attitude but one day they go too far and she quits, leaving the hotel with only the clothes she is wearing during a winter storm and is found by Grady.

This is a satisfying, sweet and intensely, sexy read with a little bit of creepy thrown in. I liked both Grady and Autumn and I loved their chemistry, it's super hot. The setting of the hotel is perfectly gloomy and really sets the stage for that part of book. As always, Mr. Carter's writing style is so smooth and draws you in right from the start and keeps you hooked to the end.

---

### **Iris says**

I feel bad even saying this, but WTF did I just read? I've read books by this author before and I was confused from the very beginning. Typically when picking up a book by this author I'm guaranteed one hell of a steamy story filled with bad boys who secretly are just craving a family, a damsel in distress (usually a virgin - So over the whole virgin thing by the way), and loads of sex. First I want to say this does not fit any of the above.

I couldn't figure out the time frame. What year is it?! A naive virgin goes off to the wilds of Montana (mind you, not Alaska... Montana) where apparently there's no cell service. Not that she has a cell (who the hell doesn't have a cell?) She becomes an indentured servant (again... what year is it?) to a strange couple and she's excited to have hot water for baths. ummm... what?! She acts like that's a strange thing to expect. Then, of course, the hot single father who keeps thinking of himself as being old enough to be her father. Someone needs to freshen up on their math. Because unless he became a father at 11, there's no way a 30 yr old could be a 19 yr old's father. While we're at it... what kind of parent thinks it's a good idea to buy a cabin in the woods when it has no hot water... hell, no bathtub at all? And he's ok with that because they can bath in the river? Seriously? Dude, you've got a 6 month old!

There were just so many things wrong with this book that if not for my OCD, I would not have been able to finish it. As it is, I'm picking myself for doing so, seriously considering the millions of things I would have enjoyed doing more than reading this book... including cleaning up the yard after all four of my massive dogs have had a go at it. I am so surprised that this came Chance Carter. It's not at all what I have come to expect from him

### **Maureen Nicholson says**

3.5 Stars.

---

### **Ri The Ravenous Reader says**

What in the actual hell did I just attempt to read?

It's like the author grabbed a bunch of darts, pegged it at a dart board and decided to write every genre that they managed to hit.

We had action, we had possible paranormal, we had a scandalous age difference (not really), we had BDSM erotica, we had splashes of virgin romance, with a dash of single Daddies. There was creepy old ladies who perved in holes at men and masturbated, wicked witch Aunties, we had creepy old men with spanking fetishes, we had people with cancer who can't afford treatments, yearning for pussy's, lots and lots of wooded forests and references to wolves every five minutes.

And he's conveniently rich.

You're confused? Me too.

Autumn is a too fragile for this world mousey virginal girl. In otherwords: TOO DUMB TO LIVE. How she made it alive to see her 19th birthday is beyond me. How can anyone be so damn clueless? Honestly she had the personality and survival skills of a plank of wood.

I call Autumn a girl because she is. She is DEFINATELY not mature enough to be a woman.

No woman in her right mind would stay in a job where she is forced by threat of spanking to wash her employer's cum soaked panties after watching her boss masturbate to the guy she has a crush on through a peep hole.

That's fifty shades of fucked up people.

Grady's the big bad saviour who is a tortured soul of the Mr Rochester type. Proud, moody, cynical, with defiance on his brow, and misery in his heart, a scornor of his kind, implacable in revenge, yet capable of deep and strong affection.

A cardboard cookie cutter cut out of every other brooding bad ass I've read about in the last two years. Seriously can anyone write a H who isn't a sad nut case that needs the saving of a good woman anymore?

The main characters had no connection at all. Autumn was about 12 years old mentally and Grady needs therapy.

Actually I need therapy as this has REALLY put me off going to any Bed and Breakfast hotels in the future in case some creepy woman is looking through a peep hole at me in the shower while rubbing herself.

No, just no.

To

This

Whole

Book...

## Hot Reading Mom says

This is the first book that I have read by this author. The story left a lot of unanswered questions. Why is this nineteen year old girl so sheltered? The aunt is a real pill and never gets punished. The two hotel owners just weird. What's up with the wolves? I'm confused.

---

## Aneesah says

I've got a few books by Chance Carter on my shelf but this was the first I've actually read. I was not impressed. Very unrealistic situations and dialogue which I can tolerate in some authors but his writing just fell flat for me for some reason. I doubt I'll be reading the others.

---

## Sarah says

I really did enjoy this book. I actually read it, then went back and reread the entire series. This book was good on the first read through. But it was actually better on the second after being able to reread what happened in Princess and the Beast. While I do wish there was a little more to the story, I found myself fully immersed in the story, as I have with every Chance Carter book. I was a little confused as to some parts of the story such as the couple who own the hotel and the aunt. I also expected a little more.... suspense or action that is found in the other books in this series. But even without it, I entered this story and was immediately drawn in. I hope to see more of the Brotherhood in future books. What happens to them? What exactly were Hunter and Grant talking about and what's the story behind their tattoos? Granted this took place in the previous book, but it was never cleared up and it kind of bothers me. My five star review is simply because I was drawn so far into the story. I felt that I knew the characters. I felt that I could see their environment. While there were a few character issues, I loved the descriptions!

## Chan says

?#@&^%\*()@!<":

### WHAT WAS THIS BOOK ABOUT?

Autumn is a naïve virgin off on her own for the first time to make money to take care of her mom.

She works at this weird hotel and meets Grady the quintessential alpha male.

Her bosses the hotel owners were all like

Grady is like

Oh, I almost forgot there's a

There's a lot of this

Then this

Let's throw in some

Oh and some of this

ARE YOU CONFUSED YET?! WELL, WELCOME TO THE FRICKIN CLUB!

Chance Carter, the author wrote that he is "A Bad Boy who writes about Bad Boys. Who wouldn't want to read that?"

However, Chance Carter himself is quite the cutie!!!

---

### **GypsyBelle says**

What in the world did I just read? It was the strangest story line, strangest characters, and just plain out strange. It didn't flow, it didn't mash, and it didn't make any sense. The Aunt Shirley alone was the most messed up, vindictive, wishy washy character. She made no sense, and honestly she shouldn't have been in the book. You could have just chalked up to perverted old man. I keep trying with Chance Carter books, but once again I am let down. And I do hate to say this will be my last Chance Carter book.

Reviewed by GypsyBelle

\* I own a personal copy of this book \*

### **Donna Vitarelli says**

A great heartwarming ?? romance from author Chance Carter. Fitting way to close out the Naughty Boy series. I always wondered what happened to Grady of the Brotherhood and this story ties up things with a great HEA. Lumber Jacked answers all my questions about where did Grady go?

Autumn needed a family and Grady became her saviour then so much more. Touching but very hot story of love & mutual need. Yes, I cried but this was one of those stories you just hate to finish. Well written, great characters, three villains to watch for karma to smack down. ?♥?

---

## Jennifer says

This was awful. It probably should have been a did not finish but I was waiting for something to happen the entire book and then it was over. It was weird and usually that is fine but this was like strange, creepy weird and all the characters seemed to be fine with it, like it was normal. A lot of it didn't make sense, at a point I thought maybe I missed a book before it but from what I could find I didn't. And the sex, please I didn't get it, the movements made no sense to me, and what could have been a steamy scene was vastly downplayed and thoroughly disappointing.

---

## Stéphanie says

This was pretty awful. The writing was sloppy. The author had good intentions when it came to plot but it wasn't well executed. The timing behind everything felt off. The choice the characters made were awful and unrealistic. Most characters were unidimensional, other were just crazy and absurd.

I almost didn't finish it, but I had a little hope things would improve. They didn't. I will list a few things that are unrealistic, but keep in mind, these are just a few of the many things that don't make sense. First, Grady Cole finds out he's a father of a six month old daughter, and he didn't even know it! He thought his unborn daughter had died in a car accident along with her mother, so neglected to follow up with the hospital after the fact. I mean, he didn't bother to go to the hospital? No one bothered to find him? Second, when he picked up his 'new' daughter, he got a car seat, but didn't bother with diapers? Come on!

And when it came to Autumn, the author kept giving the impression she was smart but she turned out to be so naive (and stupid) to trust a crazy couple like that. Apparently, the couple owned an inn and needed someone to help with the cleaning and the cooking. They promised to send her wages to Autumn's mother, but after months of working there, they never did send the money. Honestly, I don't think anyone would be that stupid. And to find a job so far away from your dying mother? The economy isn't that bad. She probably would have done better working at a Taco Bell. The couple was abusive and ridiculously amoral. Come to think of it, Autumn's aunt was also crazy and really didn't make sense. So many things didn't make sense.

On another note, you would think the romance between Autumn and Grady would save the book, but the sex scenes added very little to the overall quality. Too random, too frequent, badly executed.

I'm done. The book doesn't need to be analyzed any more than that. **Just don't buy it. Don't read it.**
