When a massive snowstorm prevents Hope from her usual holiday tradition — unwrapping presents at an idyllic mountain cabin with her sisters and their families — she faces a bleak Christmas Eve alone.

Then the three hot guys who live upstairs invite Hope over for dinner. And cocoa by the Christmas tree. And foot rubs. All the pleasure a woman could ever want — and more. Hope's wishes for a sensual Christmas miracle might just come true.

NOTE: This is a holiday tale involving a sexy doctor, a hot fireman, and an alpha cop. Women who fantasize about stretching out near a roaring fire with no responsibilities other than to gaze at three muscular dudes will love this novella.

There's a lot of jingle in these bells. Merry Christmas.

Read this book in 2 hours it was that amazing. There is so much to be said about this book. All completely amazing things. There was nothing bad or wrong with this book that I found anyway. I loved it. You meet Hope who is just like any of us. She's hardworking, jealous of her sister and their families because she wants one as well, and has such a kind heart that you don't see much anymore. She doesn't understand why she can't find someone to love her. Then enter Ethan, Pax, and Ty. Best friends and family. Ethan is caring, there for everything that Hope might possibly need, and a little unsure of himself and where he belongs. Also a cop. There's Pax who is shy, passionate, and just wants true love like his parents had. He's a fireman. And lastly, there's Ty who is demanding, cocky, and just wants something real. He's a surgeon. All three of them bring a puzzle piece that she is missing in her relationships previously. You get to watch her grow and realize it all as well as watch the men come to trust her and share what they want. There are lots of really steamy scenes as well as the heartwarming and truthful sides as well. I definitely recommend this book 100%! Will be reading more books from this author for sure. 5 ??'s just isn't enough but it's all I can give. Absolutely love!!

A sexy & cute holiday-themed reverse harem read!

The three guys were my favorite part of the story. Sweet, charming, smart, oh-so handsome... they made for the perfect package for the leading lady, Hope. I must say though, Pax, was top dog for me. \*le sigh\*

Must read for anyone looking to add a little spice to their evening! :)

Who doesn't wish they could be loved? Who doesn't wish they could be the object of desire and affection by multiple men? Mia Moon has captured those desires and wishes in this book. Three very sexy, very hot, professional men. Ethan, Pax, and Ty, one a police officer, one a surgeon, and one a fireman, take it upon themselves to welcome Hope into their penthouse on Christmas Eve after she is stranded at home during a snowstorm. What follows is nothing short of extremely steamy.

This is a reverse harem story so yes there are a lot of scenes in which sex is involved; and I do mean a lot. I don't know how one person can take on so much at one time and be able to function as Hope does in this story. It is not the sex that captivated me about the story but the people that make up the story as a whole. That is what really caught my heart in this story.

Hope is snowed in her apartment building for Christmas. Usually her and her sisters spend their Christmas at their parents' old cabin; it was their tradition and one that Hope loved. However her sister's had decided that they had wanted to make their own traditions with their families. Hope being the eldest was also the only one to not be married and have a family of her own so to speak. Now being snowed in, in a new city made her feel that much more alone. She came to this city a few months ago and started up a new shelter for abused women and children to come to in hopes to start a new life and heal. She hadn't decorated her apartment because she thought that she would be going to the cabin. Instead she was sitting on her couch in her barren looking apartment feeling lost. That is until there is a knock on her door,

Ethan and Pax were going to apartment to apartment doing wellness checks on everyone. Ethan is a police officer that will occasionally go by the shelter just as Hope is leaving. Pax is a fireman and she has met him several times and spoken to him as the both had gotten their mail. When that two men saw that she was alone and didn't even have anything for Christmas took it upon themselves to invite her to stay and spend Christmas with them in the penthouse. Not want to be alone she agreed to go with them. It was later that she met Ty he is a surgeon and the penthouse was totally decorated to the max with lights and garland. It is Pax that is the holiday crazy and goes all out with the decorations. Evan loved to cook and is brilliant at doing it.

Ty is the talker of the group in a way. Each person has their own special needs and their own story to tell about their lives and how they each find what they are looking for through Hope, as Hope find what she is looking for through them. The deeper meaning of this story is fantastic and on that I think should be shared.

#### **Great read**

I think out of all the books in this series this one is my favorite. All of her books are good, but this one just has something extra that tugged at my heart strings. All of the characters are so well developed, and each bring something different and wonderful to the story. From Ty, to Pax, to Ethan, and finally Hope each character was just amazing. Great back stories for each one. I absolutely loved the emotion that was there from the start. Of course there was crazy attraction, but the heart was always there. Along with the emotion was some serious sexiness. All of the scenes were wonderfully written, and steamy to boot. LOVED this book.

Hope is home alone on Christmas Eve when she is invited up to penthouse to share Christmas with 3 hot guys. A wonderful story of lonely people finding each other and a rare need to share their lives. A really erotic story of a reverse harem

#### **Thoroughly Enjoyable**

Loved the story. Beautiful ending. Some grammatical errors but did not detract from the story. Need to use a proofreader.

#### **A lot of promise**

This is a short, sexy, instalove reverse harem story that has the potential. The character development is there; if the relationships were slowed down and developed over time, it could have been so much more.

#### **More than sweet, more than hot**

This story has to be one of the best and most touching stories that I have read in a long time that wasn't sad. Mia Moon has just become one of my new favorite authors.

Sexy, hot, cute holiday read. Who doesn't love a sexy fireman, cop and surgeon. Not only was it hot and steamy but it was a bit emotional as you got each of the characters back story.

I really enjoyed the story line and I loved the characters.
