Nathan Eilers says

A great collection of Pope's best works. Here are *The Rape of the Lock*, *Essay on Criticism*, *The Dunciad*, et al. You've got to like heroic couplets and sarcasm to enjoy Pope; I'm fine with the former and love the latter. *Essay on Criticism*, which is a poem, is magnificent: witty, profound, and on point throughout. Some of his other poems bring the overall book to three stars.

A worthy read, especially for 18th century fans and lit nerds.

Poetry And Prose Of Alexander Pope (Riverside Editions) by Alexander Pope (1969)

Elizabeth says

Pope is difficult, but really rewarding. I read this book in one of the harder classes I took in college and I was surprised to learn that I thought about this author long after the final exam.
