Prey and Magic RaShelle Workman

EVERY THOUSAND YEARS THE VAMPIRE QUEEN SELECTS A NEW BODY, ALWAYS THE FAIREST IN THE LAND, AND THIS TIME SHE'S CHOSEN SNOW WHITE.

"Lips red as rubies, hair dark as night. Drink your true love's blood, become the Vampire, Snow White."

When blood is all you crave, is there even a choice?

Teiamarie says

Once again RaShelle Workman does not disappoint!

Snow is a bit of a mess in the beginning of the 5th volume of the Blood and Snow series after killing one of her best friends and the guy she loved, Gabe. She has learned to control her urges which has resulted in no other deaths but with Gabe's she has lost a little bit of herself.

At the end of the last story I was shocked! I couldn't believe what happened and I desperately hoped that Gabe wasn't dead. He was handsome, sweet, desirable, sensitive, and funny. Basically all the ideal characteristics that any starry eyed girl is looking for in a guy. As a result Snow finds herself in something of a downward spiral, wandering aimlessly and feeding. She has given up all semblance of personal hygiene until the Vampire Queen finds her and takes her to Sharra.

New twists are introduced as well as a huge but welcome surprise that results in some steamy, butterfly inducing, make-your-heart-flutter moments. Snow finds herself in a quandary leaving me with no other choice than to eagerly anticipate the next installment in her story!! I love this story and any one who makes it this far just has to continue!!

Domika says

[jako Gaba (nebo Gabea? to je jedno...) mohla klidn? nechat mrtvého! Dob?e, že je profesor p?erušil :D ptž tohle bych vážn? nep?ekousla! Sn?hurko! :D Ty pat?í k lovcí! Team Hunter! (hide spoiler)]

Tak ona mu zláme vaz a on ji za to políbí? Nechápu.

Jennifer says

This was by far my favorite of the Blood and Snow series. Not only does it pack the most emotional punch of the first installments, but it manages to grant my biggest wish so far. Seeing Snow and ____ get down and dirty and honest with each other. Expect more blood, more vampires and a threatening dose of true love.

Sarah says

(Source: I own a copy of this book.)

This is part 5 of the 'Blood and Snow' series.

This was another interesting instalment, and apart from a few info dumps was pretty good. I liked what we found out about Gabe, and there was a brief sexy moment in there. It will be interesting to see what happens in the next book, and whether Snow will ever make it to her birthday party!

Overall; bit too info-dumpy, but okay overall.

6.75 out of 10.

Mimi Barbour says

In this book #5 of the Blood and Snow series, Snow is now a vampire and has to fight her way through a morass of guilt and use her knowledge of feeding without killing. For weeks she wanders lost and alone until the evil Vampire Queen summons her. During her visit, she's even more uneasy until she wakes up at home. Gladness overwhelms her and so does the shocking appearance of someone she never expected to see again. But his forewarning of an upcoming battle is unsettling. Ms. Workman's writing is so graphic; I easily visualized Snow's every thought and action. With lines like: Tears, hot with hurt and devastation, trickled down my cheeks." How can a reader not get caught up? Plus, I know that 'if and when' Snow is kissed by her true love, she'll be saved... well that alone keeps me intrigued and addicted.

Emily says

Loved!

Emmanuelle says

Another good installment as we continue learning more about Snow's story. I wish the installments were longer lol; they're just so fast to read. Snow continues to learn more about the world she's been thrust into and she starts to make decisions about what she's gonna do.

Looking forward to knowing the rest of the story.

Phaedra Seabolt says

A huge change has occurred in Snow White. After believing that she killed Gabe just after they had just rekindled their friendship, Snow runs away. She believes she is a true monster, which isn't that far from the truth. Once she drank human blood, she made the complete transition to being a vampire. She allows herself to become exactly what she feared, but maintained the rules that Professor Pops, Gabe's adoptive father and adoptive father of the other six guy friends of hers, have her in order to not kill humans. During her

adventure in baptism, she is swept away to the Vampire Queen's realm. This is an eye-opening experience that ends up returning her home. Another shocking ending, but this one made me very happy.

Dorothy McFalls says

I can't wait!!!

pinK says

I'm a bit disappointed that Gabe didn't die. I think that having a death on her conscience would do well for her character development.

I still liked this installment, but it just had some coincident factors I find a bit unrealistic (not that vampire Snow White is realistic).

Miss says

A great follow up from book 4 that left us with a major cliff hanger. In this fifth installment of Blood and Snow we finally meet the vampire queen and find out where Christopher has been. The vampire queen wants Snow to give her the necklace and only then will Christopher be released from his slumber. Snow returns to her world and surprisingly finds Gabe alive and explains to her why he has been so hot and cold towards her and why he isn't dead like she thought he was. The story is really picking up for me and I can't wait to read the rest of this series and find out where it leads us.

Lis Ann - The Indigo Quill says

So we left off at the end of book 4 where the cliffhanger made me HAVE to continue on. It seems at the beginning of this novelette Snow is also trying to grasp her actions and their consequences. This is also the first time we are introduced to the Vampire Queen herself, and discover where Christopher has disappeared to. A whole new slew of information is thrown to us the thickens the plot even further.

Kasey says

So I'm going to review this entire set all together because really each installment was just too short to stop and write a review. I don't think I would've made it all the way through if I had done that. That being said, I enjoyed this series for it's straightforwardness. There were times that Snow went back and forth between men, but I think it was always pretty clear that her true love was going to be Dorian. I picked up on it by the time I hit Revenant in Training. So much happens in the series, but I will say that there was great character

building especially for everything being set up in such short novellas. For being so many installments it was a surprisingly quick read, and I did enjoy reading them. I would recommend just buying the complete set instead of buying each one individually especially because it was obnoxious having to keep moving to the next one. I just wanted to be able flip the page! Overall, I would give the series 3 stars. It wasn't spectacularly amazing, but it was a good quick read that I did enjoy overall despite it being a bit juvenile.

RaShelle Workman says

What do you think of Snow's fangs?
