Renatus 2

John A. Saunders

Renatus 2 John A. Saunders

The story continues two years after Eddie and Helen's wedding. One of the prime suspects in the death of his first wife, Melanie, is brutally killed at his own garage. Shortly after, an attempt is made on the life of a former associate of the victim. Eddie faces up to the reality that Melanie could now be seeking a savage revenge for her death.

A confrontation whilst driving home one evening makes Eddie a prime suspect in a murder investigation. He and Sean are reunited in a search for the truth, unaware that a tragic event from both their pasts threatens to tear apart the very fabric of their own existence. Is Melanie out for revenge? Is Eddie capable of murder? Can Sean and Eddie find the answers and prevent their own worlds from collapsing.

From Reader Review Renatus 2 for online ebook

Neil Stenton says

I thoroughly enjoyed Renatus and couldn't wait to start on Renatus 2, it didn't disappoint and is a great follow up.

You don't need to read Renatus before this, but I would if I were or you'd be missing out on the start of a great series.

I'd call it a classic British police procedural with elements of whodunnit, 2 to 3 storylines and a hint of paranormal. If you've read Renatus you'll know what I mean. In fact if you have then you should be reading Renatus 2 now!

Saunders puts just enough description to the scenes to make them believable, making it a fast paced read and real page turner. He makes you care about the characters, want the best for them, and worry about them when they face problems - and that's a winner as far as I'm concerned.

I said in my review of Renatus that it would make a great TV police drama, and this would be a great episode 2. Cracker, Prime Suspect, Midsomer Murders, Waking the Dead - all came to mind whilst reading it. Suffice to say that I'm ready for Renatus 3 now

Christoph Fischer says

"Renatus 2" by John Saunders is a worthy follow up to his debut detective novel. This story continues with two odd accidents that throw up plenty of questions and set up suspense and intrigue right away. After the first few pages my curiosity could not have been aroused any more.

Detective Eddie from book one becomes a suspect himself as the new victim is a prime suspect in the murder of his wife.

Enter Sean with his special abilities and you have a great premise that is seen through with realistic and interesting characters, a solid plot and great atmospheric writing.

I am already a big fan of crime investigation with just a hint of the paranormal, just as Saunders does in this series. Highly recommended.
