## Secrets Lynn Crandall

With her penchant for premonitions, Michelle Slade has always had trouble connecting with other people, and a horrific attack five years ago only made her isolation worse. But working to help defenseless animals with her rescue organization, Cats Alive, has given her new purpose and joy in life. When several homeless cats start vanishing into thin air, she's determined to get to the bottom of this mystery.

Casey Mitchell has always kept his private identity as a were-lynx secret. But he's drawn to Michelle, and when he begins to help investigate the odd circumstances surrounding the cats' disappearance, he uncovers a powerful businessman's diabolic designs on the unassuming woman.

Now both he and Michelle are in grave danger, and their survival depends on trusting each other with secrets better left unspoken. Will these two lonely souls triumph and find true love ... or lose everything?

Michelle has slowly started to put her life back together after a being violated and watching the man who did it to her go free. She runs a successful cat rescue and works for two great women in a PI Firm. With the purchase of her old familial home she is finally starting to find peace. Michelle is also not just your ordinary woman she is an empathy as well as a seer at times this makes her unique and also more vulnerable. Casey has wanted Michelle for a long time. However he knows that something haunts her past and he has his own secrets as well. When the loss of her home threatens Michelle Casey as well as others step in to help her. When they find that the man behind everything is William Carter the stakes are higher than anyone could have imagined. Casey being a were-lynx uses his special talents to help in any way he can. When Michelle finally tells him what happened to her all those years ago he is livid and more determined than ever to not only take Carter and his cronies down but have Michelle in his life as well. How will Michelle react when she learns the truth about Casey? Will Casey be able to use his gifts to gain the advantage and stop Carter before it is too late? This is a wonderful read for anyone who love a little action and adventure mixed with their romance!

What a fantastically one of a kind read. I devoured it in a single sitting.

This novel is obviously part of a series, referring to previous events and characters, but can easily be read as a standalone. Crandall develops everything so fully, but without slowing down the storyline, that you can't help but get caught up in the whirlwind of activity. I love how multifaceted this story is. Not only do you get the main storyline, but you get to know what all the characters are doing outside of this as well, and how it all interconnects. Crandall carefully builds the were-lynxes so that readers not only understand them but can also visualise them. This complexity & clarity adds an extra layer to the story, making it even more unforgettable. The author's descriptions also make everything vividly real in your mind's eye.

The characters in this novel were off the charts. I love how each of them were just a little quirky, but in their own way. The uniqueness and understanding that they all possessed made me really want to get to know them. The main couple in this novel were absolutely priceless. Each had a secret that they were keeping from the other for safety's sake. Their trust and understanding in each other was very heartening. And the individuals that they were on their own were the type of people that I could see myself becoming friends with. Surrounded by this fantastic supporting cast Crandall has created the perfect individuals to carry her story forward.

Crandall brings characters and readers together in this world full of romance, suspense, and a healthy dash of the unknown. It was a fantastic read, and although it was my first novel by this author I can guarantee you it

won't be my last.

Please note that I received a complimentary copy of this work in exchange for an honest review.

### REVIEW COPY PROVIDED BY AUTHOR

The turmoil Michelle Slade wrestles with is one most readers will identify with – fear of getting emotionally involved. The fear exists on several levels: fear of commitment; of rejection; of betrayal.

Author Lynn Crandall allows the reader to experience all of those emotions along with her heroine, plus more roller-coaster sensations in her new release, “Secrets.” It is Ms. Crandall’s first venture into paranormal writing and she creates an “other-world” being who is genuinely believable.

Casey Mitchell is the kind of man every woman wants to meet. Never mind that he is a were-lynx.

Casey is a strong leader, the head of his were-lynx colony despite internal opposition, who dares to defy the laws and fall in love with a human. The question is – will he entice Michelle into letting her guard down long enough to return those feelings.

Much like her hero, Ms. Crandall takes the reader on a delightful journey of danger, defiance and devotion.

I am not a cat lover. Nor am I a paranormal fan. I am – decidedly – a Lynn Crandall fan.

The name of the book is "SECRETS" and it is written by LYNN CRANDALL. Mousiey rec'd this book from the author in exchange for an honest review. And this is my honest opinion of her book. Ms Crandall has a unique and creative style of writing. The way she brings her characters to life with magic and emotion is truly genius. The scenes in the book are meaty and well described. Secrets has were-cats in it, humans, both good and bad, along with regular little kitty cats.

Now you know mice and cats don't get along - but this little mouse is going to give you a nibble of "SECRETS". So here yours ....

Our story opens at an apartment complex with Michelle trying to capture a stray cat she has named Madeline. See, Michelle runs Cats Alive- she captures stray cats takes them to a vet -gets them medical attention. Spayed or neutered which ever they need and helps cats find forever homes. Michelle also has another job, she works as a sec for a detective agency. This morning she is finishing up moving into her house that she just purchased. Before leaving for work she takes Madeline to the vet Lori , before she can under go surgery she has to have blood work and make sure she is healthy. When she gets to work, she learns some bad news about the house that she has just purchased. Michelle rec'd a letter stating there is a problem with the purchase of her house. She does not own it someone else does. As she searches for answers over this

problem, Casey comes into her life. Unbeknown to her he is a were-cat. The leader of the colony. Michelle is able to sense something and see things in the future; as she is hypersensitive. Now Casey is working on trying to put William Carter down. Carter is working on project and he is the one that wants to hurt Michelle. This story has a lot going on it - twist and turns - Secrets - mystery - love - revenge - lots of emotion. Raw emotion. This book is especially for all paranormal readers. Mousiey give Secrets a rating of 30 out of 5 stars. Now shimmer yourself over to Amazon and get your copy NOW!! What are you waiting for ??SHIMMER NOW TO AMAZON FOR YOUR COPY!!!

It is a universal truth that a group of were-animals is always cute, cool or a horror story. Luckily, Casey's colony is a great combination of the first two!

>Subject - Secrets

>I received this book from the author and from Paranormal Romance and Authors that Rock. The book ends in an HEA.

>Michelle is a young woman and also a rape survivor. She runs a non profit company that helps sterilize stray cats and sets other cats up for adoption. Her love interest is Casey, who is a were-lynx and leader of his pack, unbeknownst to Michelle. The story revolves around Michelle and Casey trying to figure out why cats are disappearing, why Michelle is being turned out of her home and what the resident bad guy is testing in his research lab.

>When Casey goes against several lifetimes of protocol in order to reveal the existence of the were-lynx to humans, said humans were all like, "Cool, you're so pretty in your cat form". Very unrealistic and strange reactions, I felt. The plot was a good one, gripping in its cruelty, but the action wasn't believable. Casey and his buddy was able to break into the compound with no problems. Casey was able to get a job with the bad guy and this smart bad guy totally believes that Casey is now a bad guy too. Really?

>The romance between Casey and Michelle is cute and one of the things that works in this book. Spending more time with the were pack would've been fun as they all had such unique personalities. I think there may be another book to come as some issues were unresolved, especially involving Kennedy.

> This book is for an adult audience due to graphic sex.

Love this author(this is an ARC). I like the details that are used to weave the story around the main characters. Not to mention the hot, steamy love scenes. I would have loved more interaction with the were-lynxes I think some will make great stories. Check it out if you love paranormal romance with steamy love scenes!

I have received this book in exchange of an honest review.

This is the first book by Lynn Crandall I have read and I really enjoyed it. Secrets is very well written and the chemistry between the main characters is great.

The author was able to bring this story to life by creating characters with real emotions and reactions.

The sex scenes were steamy and very well-written as well.

I would recommend this book to all romance fans.

### **The Book Junkie Reads . . . says**

Crimson Romance presents Lynn Crandall with Secrets a Fierce Hearts book. With romance, intrigue, danger, passion, devotion.

Michelle has a secret that could change her world or just her life. Just depends on how you look at things. This was an emotional experience with a passionate woman. A woman that allowed her fears to almost take over her life and leave nothing for her take back.

Casey lives a secret everyday of his life. He was strong, alpha, sexy, and oh one more a were-lynx. Dare I add, hot, sexy, attentive, and he could purrrr you very happy.

Together they both find a purpose to help, save, protect, and rescue the feline persuasion. With these two you experience steamy passion, intense danger, and a eternal devotion to guide you through the pages. I left the read feeling satisfied and wanting more of the Fierce Hearts.
