Introducing SHOCKINGLY SEDUCTIVE, the seventh book in the electrifying ADDICTED TO YOU series...

Dangerous. Sexy. Damaged.

These are the words used to describe Justin Brown.

Intelligent. Capable. Responsible.

These are the words used to describe Lindsay Cramer.

Irresistible. Addicting. Passionate.

These are the words used to describe their relationship.

Good girl Lindsay Cramer has her life completely in order, and she keeps her goals on a checklist -- obtain scholarship to Ivy League University, finish undergrad, and move on to med school. She's worked hard to get where she is, and she's determined not to let anything -- or anyone -- get in her way.

Until she meets Justin Brown. JB is gorgeous, and the kind of guy who is all wrong for Lindsay -- the kind of guy who is all wrong for anyone. He drinks, he fights, and he has a secret past Lindsay's not so sure she wants to know about.

But when the two of them are together, Lindsay can't help but lose herself in him. It's the way his eyes burn when he looks at her. The way his smile makes her dizzy. The way his hands feel on her body.

Soon, Lindsay and Justin are completely addicted to each other. But when their dangerous game culminates with Lindsay having to make a shocking choice, will she be able to keep JB in her life? And if so, will she lose everything in the process?

SHOCKINGLY SEDUCTIVE is the seventh episode of a new series, ADDICTED TO YOU, with episodes releasing every week. It is for a mature audience, due to sexual situations and language.

Renee Mancini says

Is there anyway you can write multiple books into one? \$2.99 every book can get expensive and makes me not want to read on when they are only about 30 pages. I love the series, but the amount makes me want to buy from a different author. Sorry

Patty says

This is getting to be frustrating. Book 7 and still not much happening with the main characters.

Courage says

[Things get heated between Lindsay and JB before they call it quits. JB fakes taking a steroid injection in front of Quarry, who also wants JB to date Brooklyn. Lindsay walks in on Rachel and Adam, then has coffee with Carter. Lindsay and JB hit the club for some dancing and drinks before heading back to JB's, where they sleep. JB is woken up by two FBI agents, who tell him he should probably sit down for some news about th

Jaque says

The story is amazing, but I just think it could be sold all at once. Every chapter is full of misunderstandings. I would like to see their relationship been developed and a new chapter starting, when they have to deal with their problems and differences every day. Because it is clear that they love each other and that the differences only make it worth it.

I also would like to see Lindsay telling JB about her virginity and seen him been more responsible, also been more careful about showing her his true feelings.

When is the next one coming out?

In each one it says that every week we will have a new chapter, and I am anxious about the next ones.

I would like to see the full book all at once. It doesn't mean that I wouldn't read chapter by chapter.

Abbie says

I am not going to rate these books. I really like the story so far, but think it is ridiculous that that author is selling 50 pages at a time for 2.99 each "book". I would not have continued to read the story if I didn't have a credit at b & n...

I like the story line, but not happy about how short the books are. why not just write it all in one, in stead of cutting it off every time something about to happen...

Happily Ever Chapter says

part 7, the shortest snippet yet...

more hot & cold
add a dash of psycho
and a pinch of neurosis

the accumulation of typos have become annoying now, grr!

Anton says

Loved it but wish it was longer.

Doesn't mean I won't buy the next book lol

Kirsten Bass says

loved it but too short.. want to know what's gonna happen already

Tori mackenzie says

39 pages really..... it just keeps getting shorter... money making scheme to me. what next another 2.99 for 20 pages i'm not buying anymore book from this author for letting the publishing company do this to her book...

Ashtrayheart says

I'm so disappointed... I know this is a weekly series, but the story is going absolutely **nowhere!**

It had a promising start, but the characters are pissing me off....

Lindsay acts like a 16 year old girl.. so whiny and boring as hell!!

And Justin... He comes across as a wannabe alpha male...

The story has lost itself I think.. the same thing is happening in every chapter, and I don't have the patience to waste any more time or money..

I was willing to give it another chance, but when reading this I felt so bored and...

so No sadly :(

Lucy Palmiero says

Love the series but the waiting for the next book is a killer. I always have to re read to remember what happened last. I may be giving up!!!

~Kristi says

Gotta say these small books are really good books! But, they need to be together as one book it has been really frustrating reading each one that's only 45 pages or less. Now, I have got done with this book just to have to wait till book #8 comes out with no idea when that will happen.

Krysti Humphryes says

I want to say I loved this series when I first started it in late May/early June 2013. Most of the books were out already and I saw it was a weekly series. Decided to give it a shot. I loved the story

Since the first book, the books are getting shorter and shorter. They should also be more like 75¢ each not \$2.99+ each.

Readers are having to wait longer and longer for the next weeks release. It's going on 2 months waiting for Book 8. And the story is starting to drag on and on...partially because it's. no longer a "weekly soap opera".
