In this seventh book in the Caedmon Wolves series we meet up with Dawson, Devin's younger brother. Dawson has seen the happiness his brother has found by finding his true mate, but he wasn't so sure that he would be able to find that special someone for himself. He spends his free time enjoying life hanging out with his friends and throwing great parties. Little did he know that one of his parties, that he's become famous for, would bring him face to face with his own true mate. Alessia has always know she was different from others. She's spent her life trying to keep her true self hidden from others. As she nears her 25th birthday, she can feel a change in the air, and has decided that she's tired of hiding and is determined to find out what makes her so different form others. On her quest to find the answers to her questions, her path crosses with Dawson, and they both can feel a connection to each other that's hard to deny. When Dawson decides to help her figure out her history, will what they discover ruin any chances of a future that he hopes to have with Alessia.

If you're a fan of the Caedmon Wolves Series, I think you're going to really enjoy Dawson and Alessia's story. If you're looking for a sexy alpha male who knows what he wants and won't let anything or anyone stop him from getting what he wants, I think Dawson is your man. He knows that his relationship with Alessia might cause friction with his family and pack members but he's determined to make it work. Alessia, though not as sure of herself or Dawson at first, proves that she's a strong force to reckon with when pushed into a corner. I loved how these two decided to stand together and fight for each other. This is a love story with drama, a good amount action, and plenty of passion. I enjoyed Alessia's and Dawson's story and I give it 4 stars!

I thoroughly enjoyed this book. I really like the dynamics of each and every book in this series. This author gives everyone the attention they need to make sure that the main couple is spotlighted while keeping the original characters where they need to be.

Seems like these are getting shorter or something. Aliessa is trying to figure out just what's wrong with her starting with going to a party because of a crest she sees in her dreams. After a brief conversation with Dawson she takes off only for him to track her down. Little to nothing happens besides the two talking about bits and pieces of themselves and him giving her information about her condition that he knows. By the ending of the book, the two still have not mated but the quest is still on to figure out her condition. The only action in it is brief with the villain spilling everything for no real reason. Not a favorite here but it does make you want to read about Elisa and Tristian.

### **Love these Caedmon Wolves**

This is the story of Dawson who is brother to the Alpha Devin. He's throwing a Hugh party at his mansion when he meets Alessia. Alessia is a witch and an empath only she doesn't know it. She and her father believes it's a condition like a sickness. Dawson realizes that she is his mate. So he helps her to understand and deal with her powers which are getting stronger as she approaches her 25th birthday. She soon finds out that her mother's family are evil witches and are wanting her to join them.

This is such a good story as all the Caedmon Wolves stories are. Even though these are stand alone stories I highly recommend reading the complete series starting at book 1.

Wolf's Temptation is the seventh book in Caedmon Wolves series. It's Dawson's story. He is the younger half-brother of the pack alpha, Devin. It is a stand-alone book that connects with other books in the series through some shared characters and has an HEA with no cliffhangers. This is the first book that I have read by Ambrielle Kirk & Amber Ella Monroe and I didn't know what to expect. I was pleasantly surprised. I enjoyed reading this book and look forward to reading more from this author in the future. I've already bought the box set containing books one through six and can't wait to get started on reading them. It's not necessary to read the other six books in this series first or even at all but I would definitely recommend doing that. I would also recommend this book to fans of paranormal series, especially ones interested in werewolf and witch romances.

### **Synopsis:**

Dawson Caedman is a werewolf who works as a lawyer. He's known for being a playboy who throws a lot of wild parties. This is where he meets Alessia. He thinks she might be his mate but isn't sure. He is sure that she's a witch. Unfortunately his pack has a deadly past with witches and he's not allowed to mate with one. He'll do everything he can to protect her anyways.

Alessia is a beautiful artist who has no idea that she's a witch. She's about to figure that out since her powers are beginning to manifest and she's having trouble controlling them. She meets Dawson at one of his parties and he calls her out for what she is. This makes her run out of the party but he tracks her down later. All of this is connected to their secret history and the mystery of who murdered her mother.

Changes from the third person to first person in the middle of the series and it throws off the entire story.

### **Wolf's Temptation**

Loved the way Dawson found his mate. Your heart went out to Alessia when you read that her mother was killed when she was a child. Loved how the book just flowed together so smoothly. There is a lot of sex scenes if you don't like reading those types of books. To me, it is just a part of our day to day lives. Has a lot of conflict, suspense, and action. You are not sure what will happen next until you read it.

## **Debi says**

Both of the Authors have written a awe-inspiring book. The story-line for "Wolf's Temptation" is exquisite and the plot creates its own uniqueness. This is my first book by either Author but it won't be my last. I love their writing style and the imagery it brought forth. The host of characters each have their own uniqueness and are very distinctive. The opening paragraphs drew me into wanting to know Alessia seemed to be so secretive.

It's quite normal that the invitation came with the Caedmon Crest and that the crest was on the gates leading into the Manson, and of course the tattoo on Dawson's Chest and shoulders. I just love the way it was intricately woven throughout the first chapters and by the end the Caedmon Crest was drawn in and apart of Alessia's world The crest had already been a part of her nightmares.

Alessia was desperately trying to find herself. She was a woman with powers she didn't understand and couldn't control. Fear, anxiety and uncertainty brought about her uncontrolled "condition" as Alessia referred to it.

Dawson pulled up in front of Alessia's work shop when she was about to leave. Alessia had no idea why this wolf had come to see her except that he had labeled her a witch and wolf's did not get along with witches. As Dawson continued to get closer to Alessia and corner her, she started to gather energy and when he had her at a disadvantage she threw a power ball at him. Dawson was knocked a few paces back but remained upright but he looked at her and asked Alessia what she was. Alessia said, "you know what I am you called me a witch."

Dawson was confused because witches used spells to do what she was doing and Alessia didn't say any spells. Dawson had reassured Alessia that he was not going to do any harm to her. As they were getting to know one another Dawson's wolf told him that Alessia was his mate. However, Dawson said nothing and after a couple of dates he had mention about wolf mates as Alessia had opened up about her life and how she had lived mainly as a hermit. As time went on Alessia mentioned that she was an empath and she wanted to know more of what had happened to her mom.

Alessia and Dawson had become lovers as they were "fated" mates. Although Dawson hadn't totally explained the meaning of it to Alessia but it didn't matter at the time.

As Alessia was getting ready to have dinner with her dad at 7pm and later a date with Dawson, she spied a pile of mail from her shop. While going through it she came across a blank envelope with only AO on it. She

was trying to open it with trembling fingers. As it opened the paper it said if she really wanted to know who she was then to be at 1906 Edgewood Trail by the massive yellowwood tree at 7pm.

The address was where her home had been before it burnt to the ground, she remembered the tree well and went straight to it. Alessia waited and waited, no one came. She didn't know what to expect, maybe they would come by car or a broomstick.

As Alessia waited she paced around the tree. She began kicking the snow when her boot found purchase on something slick and she landed on her backside. Alessia crawled over to where she slipped and found a piece of flat wood over a hollow place. She tried so hard to open it that she bloodied her hand and fingertips.

Then Alessia became angry and pulled energy from the forest and threw an energy ball at the wood.

The wood splintered into several pieces and Alessia began pulling the pieces of wood away from the hole.

When she had enough cleared away she found a tin box inside and took it out. When she opened the box she found a pendent with a seed. This had to be her moms as she had seen her mom make these before.

Suddenly Alessia heard growling behind her somewhere. As she began looking she spotted glowing yellow eyes of a wolf. It's yellow eyes were coming at her faster that she could do anything about so Alessia crossed her arms over her face and the wolf bit her on the arm. As it continued to attack she was scratched up on the arms, her chest and face. Alessia thought she would die right then and there.

I left so much out of my review. So much passion and violence.

Pick up a copy this is an amazing book.

I was given a copy for an honest review.

### **Shawna says**

Wolf's Temptation is the 7th book in the Caedmon Wolves series by Ambrielle Kirk & Amber Ella Monroe. Dawson Caedmon is known everywhere as the man who breaks hearts but in reality he is just another wolf trying to find his place in life. He has learned from the past not to trust people easily and NEVER trust a witch. But when the beautiful Alessia crashes one of his parties he is smitten from the beginning and can't do anything but think of her.

Alessia knows she isn't like most people but doesn't really know much else about her 'condition'; one thing is for sure, she always sees the same symbol in her dreams. When a friend falls ill and offers her to go in her place to a party Alessia doesn't want to, that is until she sees the symbol from her dreams on the invitation.

After Alessia and Dawson meet at the party neither can stay away from the other. Then Alessia gets a mysterious note offering to tell her all about a past she has no memory of. Soon things start spiraling downhill for these two and things start to take a very dangerous turn. Will Alessia find out what happened in her past before it comes back to haunt her or will her past find her before she is ready and end any future she might have?

I loved these two together and am so glad I finally got another Caedmon Wolves book to read. This is actually the first shifter series I ever read and not only did I get hooked on the series but I got hooked of paranormal all together because of this series. This book was just as good as the rest and I can't wait for the next one.

*I received a free copy of this book from the author in exchange for my honest review.*

This is the first Ambrielle Kirk/Amber Ella Monroe book I have read. It was a great introduction to their books as I am now hooked. The story was intricate, but not so much so to be tedious to read or confusing. The characters are really well fleshed-out. Alessia is a woman coming up to her 25th birthday and desperately wanting to find out more about her past. She knows she is different, but she has no idea why or how to control it. The book begins with her quest to find her roots and leads her straight into the arms of Dawson, a self-assured, passionate, protective, alpha wolf. With the history being as it is, the witches and wolves aren't exactly on friendly terms. Therefore, it's not surprising that Dawson's brother implores him to be careful. Dawson himself knows it's a risk, but one he's willing to take. Alessia, who knows nothing of this history, senses the predator in Dawson with (understandably) sparks fear and wariness. Alessia starts out the book as a kind-hearted, innocent-like woman. She doesn't have malice in her. It was wonderful to see that, despite the distrust of Dawson's pack (and Dawson right off the bat) and everything else threatening to tear her life apart (or end it), she never loses that. I love the close relationship Alessia has with her dad as well as

the bond between Dawson and his half-brother, Devin. For Alessia, that's all she's had her entire life. It was just her and her dad and the love between them was palpable. It is clear that familial bonds are very important, which I like. Once scene I found particularly entertaining (and no, this will not be a spoiler) is the scene when Alessia introduces her dad and Dawson to each other for the first time. I absolutely burst out laughing when her dad asks about his living situation (the combination of absurdity and practicality of the question is great). This book has a HEA ending and *no* cliffhanger. It could be read as a standalone book if so desired (obviously, as this is the first book in the series I've read - #7 - and I understood the story perfectly without the benefit of the previous 6 books). Overall, an excellent book. It is safe to say that I will be consuming the rest of the series in the very near future!

Page turning action, heart stopping romance!

Alessia has been searching for answers about her "condition" for most of her life. Her dad taught her from an early age to hide any signs that she is different. A gifted artist, she struggles to control power that seems to grow stronger the closer she comes to her 25th birthday. She has also been dreaming of a crest she has no idea is real. When her friend receives an invitation to a graduation party that bears the same image, Alessia knows she must go and find any information she can about her past. There she meets Dawson Caedmon and feels an inexplicable connection to him. Scared, she runs off, no closer to the answers she seeks. Dawson, a super sexy wolf, can sense her powerful magic right away. Being one of the top lawyers in town, he has no trouble tracking down the woman he just can't let go. There is just the pesky problem of witches, for the most part, being mortal enemies of the wolves.

First of all I was glad there was no cliffhanger. Even though I love series, cliffhangers drive me a little bonkers. That being said, I have already downloaded book 1 of the Caedmon Wolves. I enjoy their writing style and definitely plan to read the rest of the books available in this series. I think having a little back-story will make this series even more enjoyable to read. Great character development had me rooting for them from the beginning and lots of twists and turns kept me interested. If you like shifter stories I highly recommend this book. Heck, if you just like a good romance, I recommend this book. I have definitely added these talented authors to my favorite author list.

I received an ARC from Ambrielle Kirk and Amber Ella Monroe in exchange for an honest review.

## **Sharon Richmond says**

I was so excited to read this book!! This is the 7th book of The Caedmon Wolves Series by Amber Ella Monroe. & Ambrielle Kirk. And each one keeps getting better and better.

Alessia Con Der Hoeff is not one to step out of her comfort zone, but with her 25th birthday coming up she needs answers. She knows she's different than most with her "special condition", as she likes to refer to it, her ability to move things.. So when her friend gets sick and offers Alessia her invitation only party she was to attend she accepts. Not only because she needs to socialize more but because the symbol on the invitation is the same one she has been dreaming of. but why?

She needs answer's to why her mother died and what that emblem means.

Dawson Caedmon is hosting a private party, hand selected to those he knew. A wolf shifter can't be too careful, so who is the woman surrounded by 3 of them , enthraling them with her magic?..Witch? yet his wolf is growling Mine..

When Dawson and Alessia meet the room heats up.

Alessia gasps as she turns facing a huge muscled man. She can see the aura of the animal inside him, he's a shifter, a wolf! Dawson is floored by the beauty of her yet cautious, he's already seen her magic. But why does she seem to not know she's a witch or how to control her magic. Interesting.

Dawson knows Alessia is his mate and if he can help her solve the mystery and her no recall of the fire that took her mom, then so be it. No matter if his pack is leary, they hope its not a trap. He also needs her to learn control of her powers.

Alessia knows in her heart Dawson is trustworthy and sincere with his offer to help but...she doesn't want to hurt those she cares about, like Dawson himself.

And what does an empty glass pendant, a pendent with a seed in it and blood-born witches have to do with everything?

A must read to find out.
