## **Yours Mine Ours** Bridgitte Lesley

In so many families there is a 'yours' and a 'mine' scenario. Your children. My children. And sometimes 'ours'. Dawn and Dutch had both had it rough. Their partners had both moved on. Leaving them both thinking that they were pretty useless. In everything including the bedroom duties. Which really was not the case. It was a Sunday afternoon when Dawn had taken her family out to lunch that she met Dutch. Dutch was with his family doing the karaoke. At a little pub come restaurant. Dawn became the star performer but soon had to run off. Soon enough Dutch and Dawn started dating. They weren't youngsters. But the feelings coursing through their bodies were both new and strange. They hadn't lived their lives when they should have. They had one tiny little tiff which provoked the little jealous monster. But it soon blew over. Dutch' family soon became Dawn's. Dawn's family admired Dutch. It ended up as ours. A chuckle awaits you! Enjoy!

Personally, I think this title applies to so many families. When there are two families that mesh as one there generally is a yours and a mine. But not with Dutch and Dawn. Their families became one and 'ours' was key. Dawn is such a strong character. I loved her to bits! I thoroughly enjoyed the explanations of their past experience – sexually. I am sure you will laugh as much as I did. There are so many situations in this book that you will be nodding away and agreeing. Some are very true to life. I didn't mention Dutch. I loved him to bits too! This book was a sure fire hit!

A great story about family life. Not all families have a smooth ride and this one was no different. A very enjoyable look at life's trails and tribulations, and how they are dealt with.

Bridgitte Lesley's "Yours Mine Ours" is a cute little romance story.

Dawn and Dutch are two people who had long ago left the world of romance behind, focusing instead on their children from previous relationships, careers and hobbies. But when these two meet their worlds are brought together in a way that is so perfect, it reminds one of a fairytale.

The characters are very sweet, the relationship charming and the entire work has a feelgood tinge to it. This is the perfect book for someone who wants a reminder that there is always more time for romance and room for love.

There are so many blended families out there, making this book very timely. Bridgitte did a fabulous job of telling the story of Dawn and Dutch. 5 stars!

**Thom Stark says**

There are stories of young love. Then there are stories of golden agers finding love at last.

Yours Mine Ours is a story about two middle-aged people, Dawn and Dutch, both of whom have children from their first marriages. When they discover one another, they learn that, just maybe, their absent exes never truly understood how good things could have been between them ...

Wonderful book. I enjoyed it. Not often do we find a book about blended families. Well written with humor.

When a book begins with a whoosh the way this one does, I am hooked! From the very first page you are introduced to each of the different characters. It begins with a lively atmosphere and the expectation is set. I

so badly wanted the two main characters to become an item. I wasn't disappointed at all. I loved the fast pace at which the book flowed. At times I had a good laugh. This book is well written and most definitely a must read! Dutch and Dawn have become my favourites! This book gets my approval and recommendation!
