The plotline is wearing a little thin now that the main "problem" - the 2 main characters hiding their true selves at school and then the romantic tension - has been resolved. Seems like filler without any plot progress. Still cute and sweet, though.

It's starting to get unreadable.

HAHAHAHAHA

Oh Hori is absolutely funny and loveable. Her 'new' side is quiet unique. Poor Miyamura-kun..

kangen miyamura-kun tapi ternyata dia ngga muncul terlalu banyak di sini. untungnya ada akane yanagi sih, jadi aku bisa tetep ngakak sampe kelempar ke kasur bukunya. (also ada cukup banyak bagian untuk kisah-kisanya temen-temennya miyamura)

Paula says

No recuerdo cuál fue el último manga que me sacó carcajadas como lo hace éste.

Amo esa relación medio yaoi entre Ishikawa y Miyamura.

Miranda says

So Hori is into Miyamura being violent and mean to her, which to me reads as her being into BDSM. It's treated about as well as you'd expect. The series is starting to lose some of its charm because of this, as now that the two leads are together, the story doesn't seem to really know what to do with them. Their characters aren't as strong as they were in the first few volumes, either because they're not being focused on as much or because the writer is stuck with the "lol Hori is into being hit and yelled at and Miyamura isn't" gag.

I'll keep reading, but hopefully it finds some of that old charm again.

This volume had one of my favorite scenes of the whole series thus far, but the back half of it kind of dragged. In the first half we get some good character development with Yuki, the introduction of a new character, and the best scene with girls setting aside their differences and supporting each other. So wholesome and so good! The second half was mostly just silly one-off scenes that didn't do much for me. So, three stars it is~~

Hori's kinks have been revealed HAHHAHAHAHA. Yanagi's a funny character. I hope they keep him xD THOSE HIGH SCHOOL BOYS HAVE BEEN TRAUMATIZED BY HORI. HAHHAHAHA "TEAM RECYCLE" I'M DYING XD Sakura's household specs are high xD And we also get to see a rare jealous Miyamura! ♥

Deborah Embury says

Seven volumes into the series and this has been the only one so far that kinda missed the mark a little bit for me. I didn't really care for the whole plot about Hori wanting Miyamura to get angry- it felt out of place and a bit uncomfortable. The overall plot of this installment also seemed too all over the place: there was the cooking portion, the sports festival, the angry plot, etc- it felt erratic. On a more positive note, the characters and relationships are still developing really well, and of course the humor in this series is so good.

Miriam says

Dislike: What is up with Hori wanting Miyamura to yell at her and slap her? Her character is becoming really odd and unsympathetic.

Like: the continued development of side characters, especially the type A student council girl Sakura and her crush. Her semi-patient attempts to teach her two friends to cook were sweet.

My favorite scene was the boys at the fast food place trying to diagram from one another the various relationships and crushes of their friends group. Yanagi was there but he's too short-sighted to notice.

Also, a cameo by the guys Hori beat up in the previous volume, still trembling in hear of her.

Alex says

okay,, so hori has a weird fetish about miyamura being violent with her... honestly, i don't like it. probably because it looks real bad from an outside perspective, or bc i don't like seeing miyamura being mean and violent at all. i like yanagi! if yuki gave him a chance i wouldn't be opposed to this (even though i still like her with tooru), and yuki helping out sakura even though they are competing? just made me love yuki more :) also, WOW MIYAMURA GOT JELOUS! that's a first!

Lauren says

This volume was better than the last but it's lost some of its charm along the way which is a shame :(I think this is mainly because Hori-san demands Miyamura to be violent towards her which I really do not get! I don't think it's funny or cute (especially when she's telling him to slap her) and she is insanely jealous of any girl who so much as looks at Miyamura which is ridiculous!

But I am enjoying the exploration of Yuki, Tooru and Kouna's characters - they are a great secondary cast and I'm falling head over heels in love with them <3

Der says

What am I gonna do? It was very enjoyable and a fast read.

Perla Villa says

This one is a bit weird, Hori's character went a tad too far. I'm just going to say she asked for violence in some parts. I mean I understand it's a book but I know there will be people who do not like this and may decide to stop reading it because of this. I don't know it was off but I want to continue and hopefully that doesn't continue throughout the manga's.

~4.5-5/5

(Contains some spoilers.)

I don't think I could love this series any more than I do.

There's still the ongoing drama between the triangle—Yuki, Tooru, and Kouno. Tooru is still rather oblivious, even though Miyamura has hinted. Kouno starts worrying about giving Tooru baked goods. Yuki, on the other, has ended up with her own admirer in the form of a super cute classmate. It looks like the new guy might be sticking around, and he's super sweet and clutzy; I'm a fan.

Then the school sports festival is coming up, and there are two main teams. It starts getting a little

competitive, and everyone is working hard to do their best, even in sports they don't like.

Of course, I love all of the humorous moments amongst all of this. This series is hilarious. The sweet moments between Hori and Miyamura, though, get me just as good. There's a cute moment of jealousy between them. In a surprising development, we find out that Hori likes seeing Miyamura get angry, and she wants him to yell at her. This is funny from an outsider perspective, and Miyamura is trying to do it for her, because Hori loves it and begs for it. Miyamura feels bad and weird, though. It's also comedic given that Hori is significantly more scary than Miyamura is; he's also always been very careful around her. I really appreciate the casual introduction of a consensual kink, especially with a couple that hasn't gotten too intimate, and with no shame or worry involved.

I absolutely love this series, and cannot get enough.
