Becoming a Jett Girl

Meghan Quinn

Becoming a Jett Girl Meghan Quinn

How did I start the Lafayette Club?

Well, I'm in the business of saving tarnished souls. I hand pick girls from the street who have no options left in life and give them an opportunity they can't possibly refuse.

They come to work in the Lafayette Club which is full of EXQUISITE DEBAUCHERY, where influential men come to conduct business and lap dances are considered a fine art.

The girls are trained, they are morphed, they are educated, they follow the rules of the club and they know to submit to me. They live by my motto, no relationships, no love, just sex.

They are never touched, only by me, they are never completely naked, only with me, and their personas are entirely anonymous. The only person who knows who they truly are, is me, Jett Colby.

If these girls were ever seen on the streets of New Orleans, you would never know they were a Jett Girl.

Shelby *trains flying monkeys* says

Well, shit sticks.

I loved Meghan Quinn's *The Virgin Romance Novelist* so I was request crazy when I saw this book come up on Netgalley.

Now I'm gonna admit, the sexy times in this book were hot as heck. Ms. Quinn nails that with a sense of fun that I do find refreshing.

Goldie works in a bar as a waitress, think Hooters on steroids. She barely makes ends meet so she has sex with a dude for money to help with the bills.

She catches the attention of the guy named Jett, he owns an exclusive club in New Orleans and once she signs that little contract all her debts will disappear.

She doesn't have to have sex with the clients just with Jett himself. The clients can look but not touch, they can of course avail themselves to the little room provided to relieve themselves.

Can you guess that I wasn't a fangirl over this one?

I think I might need a shower just to get this dirty feeling off me after this book.

I get that women can do whatever they want with their own bodies. I'm progressive like that. However, don't feed it to me in a story that provides she only gets to do that by submitting to a guy. Plus said guy has a stable of women who already provide that for him.

Just yuck. Pure yuck.

The reviews for the book are high. So obviously it might just be me.

Beverly says

First, Can someone tell Kace that I will sign Jett's contract in a heartbeat? Ok, now that we have that clear, I would love to say that "Thank You Sanae" For telling me about this book.

I LOVED IT SO MUCH!

It was my 1st time reading one of Meghan Quinn's books and it was good. Not, good. Was Awesome!

The characters are amazing and, I will admit, I never fall in love with two characters in the same book. EVER. I couldn't do that here. Kace was HOT and Jett was HOTTER. I was having a hard time deciding which one I wanted. At the end I decided to keep them both. For me. Sorry girls.

Goldie. Wow, that girl made laugh so much. She's strong, but at the same time hilarious and when she is drunk, OMG! Drunk Goldie is priceless.

All the characters in this books are great. This is the kind of book I would recommend if you need to read a good Erotica with a pinch of laughter.

Is this a Love story? Yes and no. Don't roll your eyes and buy the book. It's a good and funny ride.

Can't wait for the next book. I already checked Meghan's page and . . . It's Kace's Story! Woo Hoo!

Natalie The Biblioholic says

If you've read the original Bourbon series by Meghan Quinn, then this book will seem familiar. And for those of you who haven't... Well, you're definitely in for a treat!

This book is crazy! Goldie's internal monologues caused me to shudder in equal amounts of disgust and excitement. The labels she gave lady parts (ex. meat curtains?) were pretty gross. But her absurdity is what made her hilarious. I'm just not sure if I was laughing with her or at her.

Goldie suffered a lot. She lost her parents, her life, to Hurricane Katrina. Since then, she has basically sold everything but her soul to survive. Jett coming into her life couldn't have happened at a better time. Ya, she's still working in a sex club, but it's 'classy' (think more burlesque). At least she had a better shot at life.

Jett was a hot mess, emphasis on hot. He suffered a troubled but affluent childhood, and heart break. This has caused him to rule out relationships and love. He does have a heart and uses it to save women from a life on the streets. He provides an income, an education, and protection. All at arms length. He gives these women his body as well but never his heart. Until Goldie. She was a game changer and it was interesting to read how much he fought against her.

There are a heap of interesting side characters that I couldn't help but like and be curious about and I wonder if the future holds a book for any of them. Kace sounded crazy hot. A huge part of me wanted Goldie to choose him. I hope he gets his own HEA. Rex seemed shady, even before details were given. I never trusted him. I hope he and Jett's dad Leo get their comeuppance.

Release Date: October 5, 2017

Genre: Erotica

POV: Dual - 1st person

Heat: 4 out of 5

Type: Book 1 of the Bourbon series

Facebook: <https://www.facebook.com/TheHopelessR...>

TSU: <https://www.tsu.co/HopelessRomantics>

Blog: <http://thehopelessromanticsbookblog.b...>

I get it... I know what my fellow readers mean when they say "I wanna be a Jett Girl." Trust me, I've joined that queue and I'm happy to play dirty to get to the front of it... Lol. "Becoming a Jett Girl" was a book that was wrong on so many levels but OMG, so right in so many ways too. Yup I'm saying this as I sit here with the mother of all lady boners.. lol. It could have quite easily been a DNF but I couldn't help it, I got sucked in good and proper. My head was screaming at me to shut up shop and walk away but my hormones and my curiosity were dragging me back to Goldie and Jett's story... "Don't give up," they whispered. "Keep going," they said. And so I did... I read the book and finished the damn thing and immediately one clicked the second book.. go figure huh... who'd have thought a bunch of hormones would win out?

"You'll be the death of me, you know? Your defiance ignites the short fuse I have when I'm around you and all I want to do is stuff a gag in your mouth and take what's mine."

So the synopsis pretty much covers what this book was about. Jett Colby (self made rich kid) helped women who were at the depths of despair turn their lives around by offering them a position as a Jett Girl at the Lafayette Club. They danced, they paraded, they entertained but they never got touched and they didn't have sex with the customers... that was a rule. Sounds good right? Well there's always a catch and in this situation the catch was... they couldn't have sex with anyone except Jett. Yeah ... um.... I wasn't sure what to make of that. It sounded completely wrong but I read on to see whether I would get some sort of explanation... which I got. Jett dressed it up by saying they didn't have to have sex with him. It was a choice and it was all about pleasing the ladies.

"When you hand over your body to me, I treat it with the utmost care and worship it. I understand the trust you are handing over to me and I make sure never to break it."

Well Mr Colby, dress it up any which way you want but when you remove the option of having sex with anyone else, you promise women the world, you find yourself a few highly sexed women, of course they're going to bend to your will and end up shagging your brains out. You're the only bloody option they have!!!! To say this infuriated me a little is an understatement. That said, I'm really sorry but my moral integrity went out the window because holy crap, this book gave me some of the hottest sex scenes I've read in a while and I mean the kind that have your panties wet, your hormones going crazy for some, your toes curling and your thighs clenching... no word of a lie this book turned me on no end and by the time I'd finished it, I desperately needed me some dirty!!! eye roll all you want but hey, I'm only human.

"Why did I start the Lafayette Club? Well, I'm in the business of saving tarnished souls."

Jett Colby was his own brand of asshole and he bugged the hell out of me. He was moody and mean and there were definitely times I wanted to knee him in the nuts. Did I like him? No but I kind of forgot myself a little because of all the naughtiness he delivered, his fingers and penis taking charge of any brain cells I had remaining... oops. Did he redeem himself? Not really despite getting his back story. let's just say, this man was a little more than just f**ked up with situation after situation turning him into dick head he had become. I tried to understand and sympathise but boy did he make it difficult.

After Hurricane Katrina took everything from Goldie, she was quite literally scraping the bottom of the barrel, trying to make ends meet. Well low and behold, when an offer to train as a Jett Girl presented itself, she grabbed the opportunity... this was last chance saloon, it was make or break. Goldie's character was fab.

There's feeling low and then there was the level I was at... hopeless.

She was a feisty firecracker who didn't take too well to being controlled. She was hilarious and her one-liners had me howling. There was absolutely no filter when it came to her mouth and for entertainment value, she was definitely a ten out of ten. The thing about Goldie was, she wasn't like the other girls. She needed human contact. she needed affection and love and so very quickly I knew which way this story would go. A man that won't let anyone in emotionally... a woman craving affection... there's only one way this could go .. right? Wrong!!! Expect the unexpected is all I'll say because this little one definitely surprised me with some of her behaviour choices.

For me, there were three main characters in "Becoming a Jett Girl" with Kace being the third one. He was a fantastic addition to the cast and definitely stirred things up a little. His back story was a sad one and I hated the way Jett held that over him at times... yup like I said... asshole!!! I can't wait to get to know Kace better and I really hope he gets his HEA. The other Jett Girls were equally amazing and I loved the bond they shared. they weren't at all how I thought they'd be. They had morals, they fought for one another and had each others backs. Now how often does that happen with a bunch of women?

Kace was a man of few words and he suffered from demons just like I did, every damn day of our lives. We had different demons haunting us day in and day out, but demons nonetheless.

"Becoming a Jett Girl" was definitely a guilty pleasure read. I shouldn't have enjoyed it but I freakin' loved it and the minute I turned the last page, the next book in the series was immediately clicked. I'm 20% in and Jett is still an asshole but I'm learning to cope with that... lol. Honestly, if you come across this book, read it. It'll have you laughing until your sides hurt, it'll have you worked up into a sexual frenzy and the story will definitely leave you begging for the next instalment... which is where I'm off to now. Enjoy peep. I rated this book ♥?♥?♥?♥?

Christine says

Where do I sign up to be a Jett Girl???

A Lovely hot n spicy little number. What a bloomin good read.

It was light, fun, totally entertaining and sexy as hell. The wonderful Jett Colby and Kace even though we didn't actually get any sex with him he was still described and came over as a delicious hot alpha male.

I loved Goldie/Lo a great personality and she had a fantastic mouth on her and just loved the things that came out of it. Full of witt and fun. I liked that the girls she worked with were so nice. No bitchiness or cattiness among them. In fact their was more among the men!
Great story to be continued but no cliffy thank goodness. Just plenty left open for the next book.

aNneMarLi - Chatterbooks Book Blog says

Ever had that book that made you utter over and over the words "**OH.MY.FUCKING.GOD!**"? Damn! That's Bourbon Sins by Meghan Quinn for me. I am so used by this author's romantic comedy books and that one time she made me cry so damn hard because of her Dear Life. But now, with this series? What can I say? Again... **OH.MY.FUCKING.GOD!!!**

Start to finish the book surprised me to no end. I was loving everything about it because it was so damn good I could not put the book down. Meghan Quin slayed this first book of the series that at this point in time, I can't wait to read the next one. Jett and Goldie's character portrayal connected with me that I felt like they were a part of me. Their journey was my journey too and I felt like I was so obsessed with them. They were like my drug because I was addicted to everything about them. Lord! I was squirming in my seat for only God knows how much. I can't even believe this book affected me to the deepest core. See? Jett and Goldie are a part of me. Now, I feel like I'm a Jett Girl too! *boob squeezes

Meghan Quinn did not hold back with Jett and Goldie. I love them because I can connect with them easily. Meghan's brilliance and her excellent writing skill is undoubtedly the culprit of my addiction to this series. It flowed flawlessly that it was so easy to get lost in their bubble. I love the well balanced portrayal of hilarity, sexiness, scorching scenes and feels of this book because it was so on point. I couldn't help but devour it and just inhale it. Really I had so much fun reading the book. It's light heartedness coupled with sizzling scenes, humor and heart made me a goner. With Meghan's perfect writing? Man, how I wish this book wouldn't end. I know there's more to these characters but to have a chance reading their journey to infinity will be a wish come true for me.

Now off I go, and please do me a favor reading this book and following their journey. It wa so worth it. Meghan Quinn slayed this again and again.

P.S. Just a gentle advise.. Don't wear panties, you'll just gonna make it drenched. ;)

~ **Becc** ~ says

Becoming a Jett Girl is the first book I have ever read by Meghan Quinn although she is a well established author. The blurb is incredibly enticing and I signed up to read and review as soon as I saw it!

Basic synopsis – Goldie/Lo is working as in a low class, seedy strjointip club serving drinks and aspires to greater things. Namely stripping. She’s all alone in the world having been orphaned during Hurricane Katrina and saddled with her late parents’ debts. She’s struggling to make ends meet and Jett Colby has his eye on her.

Jett is, I guess, a bit of a philanthropist – he likes to help out girls in Goldie’s situation by offering them the chance to work at his very exclusive pole dancing and lap dancing venue – the Lafayette Club. The girls are assured of their anonymity, no one will be allowed to touch them and no extra-curricular activities with the patrons will be tolerated. The Lafayette Girls get to live in Jett Colby’s mansion and enjoy lucrative salary deals with only one condition – they must submit exclusively to Jett Colby in the bedroom whenever the whim takes him.

I’m not going to go any further into the synopsis than that to avoid spoiling the plot but it really did make me sit up and take notice. Sadly, the book didn’t quite come off for me, in the end, because I found Goldie to be just incredibly gauche and she really did lack pretty much any taste or sophistication which I think is the point but, after a while, she just started to grate on me. Also, Jett, who could have been a deliciously dark character actually came across a little sceevy for my tastes. The man is filthy rich, totally gorgeous and a dream dominant in the bedroom – he really doesn’t need to manipulate women into the sack with him and yet he does. And I also didn’t get the connection between Goldie and Jett – I really couldn’t see what he saw in her although I could definitely see what Goldie saw in Jett!! And we have a rather happy for now bittersweet ending which left me slightly unsatisfied.

I do applaud the author for attempting to do something very different and mostly she succeeds. The bedroom scenes between Goldie and Jett really are incredibly hot and Jett is a wonderful dominant. There’s also great secondary characters including the mysterious Kace, Jett’s best friend.

I’m sorry it didn’t work for me – I took a look at the early Goodreads reviews and they are overwhelmingly positive so I am probably in the minority here.

3 stars

Meghan Quinn says

In a city where sin is committed every night and washed away the next morning, you meet a domineering but sophisticated man, Jett Colby. He is the owner and proprietor of the Lafayette club where women who have nothing left in life are hand picked to be performers for the members of the very exclusive and swanky club.

The Jett Girls are never naked, they are never touched and no one knows who they are. Their personas are

completely anonymous, they wear masks around the club and are always in uniform, making them the most demanded and elusive women in the city of New Orleans.

It is an honor to be a Jett Girl, an opportunity any woman off the street can't refuse which is why Goldie (the main character) finds herself following the rules and striving to be the not only the best in the exclusive club but the best in the Bourbon Room as well.

Becoming a Jett Girl takes you on a journey of what a horrific event like Hurricane Katrina can do to someone and how they rise from the ashes. It brings you into a world full of "presentations", choreography, masks, rules and the Bourbon Room where Jett takes his women to please. You will follow the life of Goldie as she earns a second chance to redeem herself, rid her debt, gain an education and become one of the most infamous girls in the city.

The sex will rock your world, the humor will have you laugh snorting and the story will have you begging to become a Jett Girl yourself.

"Why did I start the Lafayette Club? Well, I'm in the business of saving tarnished souls." - Jett Colby

Lana ❄️Dirty Girl Romance❄️ says

DNF at 65%

But this was simply not the book for me. I won't go into many details, but I just wasn't feeling the story or the characters. Considering that the hero and the heroine didn't even really have any interaction until almost half way, and I felt more of a connection between her and a side character...well it was time to cut my losses.

This was my first book by Meghan Quinn, and I'll gladly read future books by her. But this one didn't work for me. But don't let my DNF deter you. There's plenty of amazing reviews, so it may just work for you. I'm just a picky bitch. Le sigh.

Kellie Maddox-Ward says

Long story short – Jett Colby is a man who gets what he wants.

He brings down and out girls into his LaFayette Club and “helps” them. He feed’s them, clothes them, gives them a job, pays off all their debts and makes them get an education. They are free to go whenever they like.

All he asks for in return is a few simple things like wearing masks in front of the customers, dressing how he

likes, using the name he gives you, never disclosing anything about being a Jett Girl.

Oh and that you submit to him and him alone sexually.

So when he see's Goldie. He wants her.

She's a stubborn little thing but eventually decides (is umm *helped*) into becoming a Jett Girl.

However Goldie is a game changer for Jett.

That's all I'm going to say about the storyline. Let's talk about other things.

I really enjoyed this book, It has a very unique and wonderfully written storyline.

Told from Goldie/Lo and Jett's POV we get all angles on the situation.

Jett is supposed to be an asshole, but he's not really.

Just like this sounds like a dark and dirty novel. It's not really.

But I'm ok with that.

The setting was amazing I've never been to New Orleans but I want to soo bad!

Meghan made me feel like I was there. Whether it was the dirty strip club, or an old cemetery to eating beignets in a café. Her writing style is very good.

The sex scenes were descriptive and awesome, some kinky scenes are in there and some very steamy musically scenes as well.

Kace – the best friend had the intrigued as all shit and I'm really hoping we get more of his story. I needed more.

We finished on a Happy for now. I can see on the cover this is called "the bourbon series" but I can't find anything else! I need more.. when???

Kace's character was a great one, as I've said but the other Jett Girls as well as Jett and Lo have more to be told. Like what happens with Jett's dad? And Rex?

Vrsha (PeekAtMyBookReview) says

Rating : 4 Stars

This is a quick review..

My Views : Amazing! This is my second book by this author and I'm absolutely loving her work. Yes, the

storyline wasn't really great but her writing and characters totally made me enjoy this one.

Style of writing : Her writing is refreshing. This is the reason why I'm going to read more of her books.

Characters : Goldie is the smart-ass mouth heroine who made Jett, the alpha pant all over her. I love her as a heroine, my God did she made me laugh my ass off. ABSOLUTELY! Jett on the other hand is the alpha hero and we get few glimpses of his inner Dom in this one. As a couple, they rock. I am totally going to read this series till the end to get more of these two. For more than 40% of the book I thought that Kace was the hero, however it will not be bad to have him as hero as he was a sexy duck! **Kace intrigued me more than Jett did...there I said it!!!**

Favorite Part : None, really. However, whenever Goldie opened her sassy mouth, it was fun to read.

What did not work? Yeah, like everyone complaining the storyline wasn't that great. I mean helping girl off the street to make them do lap dances and all that stuff is not really great helping but yes, they are better this way than selling themselves. Then I felt like the climax was TOO predictable. Everyone knew what was going to happen!!!

Similar books? Nope... None that I can think of.

Recommended : Totally. I really loved this one. It's fun and entertaining. However, if you do not like the storyline in the blurb then this is not for you. If you feel like yes, it okay then you're going to enjoy it ;)

AC Book Blog (Anne Christine) says

Whoa whoa whoa! I am used to Meghan Quinn's romantic comedy so this is quite a nice surprise – different, erotic, naughty, and definitely mouthwateringly sexy.

The Bourbon Sins is the first book of the Bourbon series of four books. Jett is a powerful man. He owns the most exclusive gentlemen club in New Orleans. Each of the women is handpicked by the owner himself to be a "Jett girl". Jett is mysterious, sexy, and brooding but has a heart of gold. His mission is to help the girls who are destitute, providing them with a job, food, logging and even free education. All he asks in return is that they "submit to him" at any time but only with their consent. Jett has been burned in the past so this time around he does not fancy a relationship or love. He is only in for a good time with no strings attached.

"But see, that's the thing about this city; you might think that under the dazzling lights and illusion of salvation, she's the one that needed saving.

When the glitter fades and the dirt is washed away, the one worth saving just might be me."

Goldie is at the end of her rope – working at a lowly night club with a nasty boss, barely making ends meet. Goldie caught Jett's eyes the first time when she was found sitting on Jett's mothers tomb stone in a

cemetery. Jett was intrigued by the beauty, curvy, sweet faced girl and he was determined to make Goldie one of his Jett girls. Jett is in for a surprise though because Goldie is anything but submissive. She has no brain to mouth filter and is not afraid of challenging her sexy boss. Goldie is driving Jett nuts but in a way, that's what Jett loves about Goldie – her spirit, her sassiness, and her cheerful way of going about life. Goldie is pretty adorable. I think she was starting to go down a dark path but Jett saved her. Goldie wears her heart on her sleeve and she is not afraid to let her feelings known. Will Jett be able to return her affection or is his heart too broken to ever love another?

This book is pretty fun, sizzling hot, with a light-hearted plot. There is a third character Kace who is Goldie's immediate boss. Kace has some kind of secret crush on Goldie which complicates the relationship he has with Jett. He is an important character, sweet, caring and a little mysterious – I feel like there should be more to him...maybe book 2? There is also a little drama with Jett's deadbeat dad and Goldie's ex-bed buddy which makes the plot more interesting and dramatic.

Over all, this is a nice introduction to a very sexy new series. I didn't expect this kind of genre from Meghan and I am intrigued to see what comes next. I was thoroughly entertained.

The Bourbon Sins (Bourbon 1) by Meghan Quinn ~ 4.5 stars!

Kelly (and the Book Boar) says

Find all of my reviews at: <http://52bookminimum.blogspot.com/>

What is a Jett Girl? Well, to sum it up briefly a Jett Girl is a hand-picked, high end, exotic dancer . . .

No, not like that Pam. That's the kind of place the girls had to work at *before* being "saved" by Jett Colby. Only a chosen few ever get selected, but those who do find their lives doing a complete 180. The girls who work for Jett at the Lafayette Club live in a mansion rent free, never have to worry about creeps getting too handsy while they are giving a lap dance, and have all of their debts taken care of. The only catch? They agree to submit sexually to one man – Jett Colby himself.

So there's the story in a nutshell. Here's the part where everything gets a little rambly so buckle up if you plan on riding this one out.

If you like stories like this . . .

There's a good chance you might like *Bourbon #1*. This book most definitely had a *Pretty Woman* feel to it with the detached gajillionaire who never lets feelings get into the mix of either business or pleasure bringing a stripper/prostitute into his life . . . and just maybe his heart.

I read this book for the simple fact that ~~Shelby made me~~ even though I'm not real comfie with the sexytimes books, I kind of **loved** *The Virgin Romance Novelist* and was hoping for more of the same. Okay, so this was

waaaaay not the same, but I didn't totally hate it either.

Let's start with the good:

The cover. Purrrrty.

The aforementioned plot. I'm a sucker for a sappy romance – even ones that have massive amounts of boning in them.

The MC had the right idea about self-worth and continually expressed it . . .

“I hated that men thought, just because I worked in a strip club, my body was theirs to play with. My body was mine and no one else’s.”

She was also sometimes hilarious . . .

“When I woke up this morning, I had a wonderful time getting to know my toilet bowl up close and personal. I named him Fred as I puked my guts out . . . I could not do this every time. I liked Fred, but I wasn't about to make out with him every time Francy wanted to go over drink orders.”

The use of a safe-word between partners who would perhaps be engaging in some rougher sexytimes was refreshing. Alligator, y'all . . .

Speaking of sexytimes, turns out little ol' vanilla me didn't mind a little kink . . .

Also? Lap dances. **MUY CALIENTE!**

Now it's time for the stuff I didn't enjoy.

The MC's name was Goldie. I thought that was her stripper/hooker name, but nope – it was the name her parents gave her. The plus side to this is I was already familiar with a lady of the evening named Goldie and picturing her as the lead was A-Okay . . .

EVERYTHING turned the bitch on. From voices to the way her comforter felt against her skin, this gal was ret-to-go at all times and nearly every guy she came across had the potential of being Mr. Right Now . . .

Squicky sex talk. Don't get me wrong, when the deed was actually being done it was pretty hot stuff. The inner voice of Goldie, though????? No. Just no.

“My vagina was applauding me for my decision.”

Vaginas don't clap. Every time that phrase is used I picture things like this . . .

“My lady folds wept at the sight of him.”

Really? The combo of the New Orleans summer heat and the moisture situation Goldie had going on in her underdrawers she probably had a real mosquito problem going on down there.

Also? Grown women should not nickname their ladybits. Brittney???? Seriously????

On second thought, maybe I should start calling mine Brittney and then when my husband tries to make with the rolling in the hay I can yell **“LEAVE BRITTNEY ALONE!!!!!!”**

So to sum it up, the problems I had with this book were more than likely **my** problems and the erotica connoisseur will be more forgiving. I will say that I really enjoy Meghan Quinn's writing and I would probably read book #2 if I saw an ARC offered up on NetGalley.

ARC provided by NetGalley in exchange for an honest review. Thank you, NetGalley!

Christine says

Becoming A Jett Girl by Meghan Quinn
5 Stars

Yes, that's right I said 5 Stars, you're not seeing things. You know Lady Balls rarely gives em' out but this one was so well deserved.

Where the hell do I even begin to describe what I just read? Awesome, funny as hell, witty, HOT and to be honest I will probably be hounding the author for the next book in this series on a daily basis. I don't want to give too much of the book away because I don't think summarizing it will give it justice but Ill give you the basics...

Goldie is on her own after losing her parents in Hurricane Katrina and barely getting by. She is working in a seedy strip club and HATES every second of it but right now it's all she's got. She is doing things to make money that are probably making her parents roll over in their graves but a girls gotta do what a girls gotta do. She is approached on more than one occasion to explore the opportunity of becoming a “Jett Girl” which at first she has no idea what it actually is. But soon finds out...

A Jett Girl works for Jett Colby, a sexy as hell, rich businessman who has created an extravagant “gentleman's club”. What he is really doing is helping girls who are down and out. He gives them a job at his

private club, feeds and clothes them, gives them an education and pays off all of their debt. And he just wants one simple thing from them in return...for them to submit to him sexually. There is more to his story and I can't wait to see how other aspects of his life pan out.

Once Goldie finds out what it is she is being invited to do, she declines. But certain unforeseen incidents (or are they??) happen and she has no choice but to become a Jett Girl.

Jett is just f*&king hot as hell in every aspect. The way he was described in this book gave me a lady boner on more than one occasion. Yes, he does provide everything for these girls and just asks for sex in return but it's just sex. He has been hurt in the past and has built a wall around his heart and no one gets in, ever. He has no emotional strings when it comes to sex and so far he seems ok with this arrangement and so do all the girls.

Naturally there is a more in depth story as to why Jett wants Goldie for a Jett Girl and that all comes out in the book as the story unfolds. You also have Kace. Oh Kace, Kace, Kace. What I wouldn't do for a few hours in a room alone with him. He has his own story that is just touched upon (hoping his story is the next book – hint hint) He is broody, all male, hot and basically in charge of the girls. He is the go between for Jett and basically his right hand man. He forms a somewhat unhealthy "friendship" let's call it, with Goldie. The banter between them that happens had me rolling on the floor. It's freakin hysterical. Overall Goldie steals the show with her mouth and one liners through the whole book. Her strong will and bluntness was extremely refreshing and I loved every hysterical moment. I found my face hurt a lot through this book from smiling so much. I wanted to be her new best friend I swear! Let's just say the rest of the book is Goldie settling in and her relationship with Jett is progressing. There are some hot freakin sex scenes that had me putting on the air conditioning! Could it be that Jett has finally met someone that can break down the walls of his heart? Can he let someone in again? This book had me from the first paragraph and I literally did not put it down until it was done and it only left me wanting more! There is no cliffy really but tons of opportunities for other books and seeing more of these characters. Loved it and highly recommend..so go buy it b*&ches!

4.5 stars

Loved it! This is my favorite book by Meghan Quinn for sure!

The premise of this book is quite unique. I really liked the whole exclusive night club scene. It all felt so classy and sexy.

Jett was amazing! I love him! He can be an ass at times, but he has such a big heart. He's sexy, loyal and so caring. He's a total alpha and so irresistible!

Goldie was great too! She has no filter and I loved that! I can imagine being her friend and having so much fun!

The relationship between Jett and Goldie is complicated but you can tell how much they care for each other. I can't wait to read the next book and see how this beautiful relationship progresses.

Overall a great, sexy contemporary romance, with a unique storyline, great secondary characters (Kace, I am

looking at you) and a beautiful love story. Highly recommend it!
