I loved this story. The plot was filled with mystery, suspense, action, and romance. I loved the heroine of the story. Regina worked for Way out west jeans. The company was in danger of going under. Finding the perfect cowboy to model the jeans was her last attempt of saving the company. She drove from Los Angeles to Montana to find a real cowboy to model in her commercial. Regina never backed down from any challenge. When her life was in danger she always came out fighting.

T.J McCall owned a ranch. He spotted a red sports car broken down on the side of the road. He stopped, and helped Regina change a flat tire. She thought he was her cowboy, perfect for the commercial. T.J didn't have time for this. He turned her down flat. He had six hundred head of cattle to chase down from the summer pasture. His camp cook was out with a broken leg. He asked his foreman to hire another cook for the round up. Well T.J got the shock of his life when he stepped into camp that night. The new cook was Regina. Like I said Regina never backed away from a challenge. This part of the book had me laughing so hard. She had never cooked, but how hard could it be? The first meal the men didn't recognize what was being served. Nine years before on a round up several of his men was murdered, and someone attempted to steal his cows. Strange things started happening to lead up to what had happened. T.J has a bad feeling about this round up. It starts off with someone disabling the only truck. If anyone got hurt they had no fast way to get them the help they would need. I loved that the author gave us several suspects so we had no idea who was behind it all. T.J. and Regina couldn't trust anyone. T.J. knew he had to protect Regina, and at the same time round up his cows. His ranch foreman had left the first night on horseback to go get another truck and hire a new camp cook. He knew how important this round up was. He had worked for T.J for years and was one he knew he could count on. He had a bad feeling when his foreman never came back to camp. He knew something bad had happened to him.

Excellent book with lots of mystery.

The writing is great, but the plot fell apart at the end. Ignoring the real world can only take a mystery so far. When you ignore basic policing and survival techniques you lose a star for that.

Regina is from Los Angeles on the hunt for the perfect cowboy butt for a commercial for her jeans company. She has a flat tire just outside of Antelope Flats, MT and J.T. McCall stops to fix it for her. Regina has found her perfect cowboy butt and chest and arms and face. J.T. is just plain perfect all the way up and down. He is just not interested in doing her commercial.

J.T. is way behind getting his herd down from the summer pasture. He needs a crew and a cook and he needs them yesterday. When he arrives at camp Buck has scraped the bottom to find a crew and the cook.... Somehow the very hot redhead with the flat tire has talked Buck into giving her the job as cook. J.T. is fit to be tied over this. But something about the whole camp and crew is just not setting well with him. When the truck turns up disabled and Buck fails to return with another vehicle, he knows that things are not going to get better, especially since this situation has an eerie feel like the one 9 years ago when a lot of people ended up dead trying to rustle the herd. To top it off he has to somehow keep Reggie alive and get them both to safety. Not easy when a maniac is set on killing you.
