Detective Noah McNeil has his cases in Fells Point, Maryland, under control, but the same can't be said for his personal life. Elizabeth Merlot, the mother of a troubled teen Noah is mentoring, is freezing him out of the family's lives.

Which is especially criminal given how hot this single mom is.

Elizabeth Merlot can't afford to let the handsome detective close to her son lest he discover she's in the witness protection program. Until the day, that is, when the teen tries to fend off a gang attack and her entire world of secrets begins to crumble—and Noah may be the only one who can save their lives.

Don't miss this exciting conclusion to the McNeil family saga!

I really love Detective Noah McNeil. He's the kind of guy you want in your corner when faced with insurmountable odds. This book is another face paced, rollercoaster ride of suspense and romance. Loved it.

Elizabeth Merlot is the mother of a troubled teen that originally appeared in In The Shadow of Evil. Their lives are in danger and Noah is having trouble getting Elizabeth and her son to open up enough to tell him what they're so afraid of. There is something about Elizabeth that Noah can't resist, but she keeps pushing him away.

In a witness protection program, Elizabeth and her son and daughter are in constant fear because they are on a criminal families hit list for. But when her son is attacked by a gang, all her secrets begin to unravel and cornered she can do nothing but accept Noah and his family's help.

Fantastic book. Loved every second.

I really enjoyed this series! The first book was the only one I wasn't super crazy about, but still! Great romantic suspense series!

Love it! Boy-howdy has Elizabeth Merlot ever gotten herself into a world of hurt. With a babe in arms and one on the way, she witnesses the unthinkable and voila, she's in witness protection. Throw in hunky Detective Noah McNeil, a man willing to put himself between her and danger, and a dash of the supernatural, and there you have it – an absorbing, fast-paced read from beginning to end. As with all the books in the- In the Shadow of- series, you are in for a well-written, absorbing adventure.

Well done

Oh, how I love the McNeil brothers! I've loved this series since Book 1 released. I've been waiting for detective Noah McNeil's story for eternity - well, maybe not that long, but let me just say, it was so worth the wait. The whole series is smart, sexy and full of crazy suspense. In the Shadow of Vengeance can be read as a stand alone, but what I found fun is how Nancy has woven in suspense, a little paranormal, and a diabolical mad man (and he is pure evil) and of course love into each McNeil brother's story. It's nice to see how this family comes together for each crisis (and there are several), and the brothers and their heroines are so flippin smart. (I want their surveillance toys!)

I was wondering how she could top Books 1 and 2 that both have crazy heart pumping "Oh my God, that didn't just happen" scenes, but she certainly did this time introducing a human organ harvester (whoa!), a strong heroine (Elizabeth Merlot) in the witness protection program to protect her and her kids from said harvester, and forty eight hours of non-stop action. The romance between Noah and Elizabeth sizzles and the heartwarming ending not only wraps up this story, but a lovely way to end the series. Highly recommend!
