Imjstgr8 says

Good short story.. Would have been a greater short story if it was a little bit longer. Still I liked it and it wet (pun intended) my interest in books by this author...

Ginabm says

Historia. Corta solo once páginas,

L-D says

About 2.5 stars. This story was neither here nor there for me. I thought Jason was cute, but Mags bothered me a bit. The story picked up a little bit when Jason took control of the seduction. I liked him a lot.

Jaime says

'Moist jungle' FAIL.

Sweet, quick read. Moist Jungle is now stuck in my mind.

Sheri says

A very quick read but what it lacks in length it more than makes up for with steam. I was quite glad that it was not just sex but humor as well. I am definitely glad to have found Mrs. Evans work.

Karagan says

I truly didn't expect to enjoy this short story as much as I did. It's exceptionally well written, hot as hell... and even though it's an erotic romance, the characters manage to keep their personalities all throughout the intense passion. The ending is abrupt, as typical with any quick read, but given that you've only been privy to one moment in a story with the potential for so many more pages, it definitely makes you crave more.

Classic fantasy about two friends becoming lovers and the life changing event that sparks a romance, what more in a quickie could a reader of this genre want?

Zaira Narvaez says

Bueno, Que fue eso? Ni siquiera llegamos al 100 de paginas, fue demasiado corto, eso no me gusto, y aparte que directo al grano, y lo que hubo allí fue...simple sexo solo no se 15 minutos y bam! ugh No! aunque medio,fue bueno(? no voy a leer a esta autora.

Fátima H. says

Esto daba para algo más.

Kathryn says

Always wanted to do this.

Karry says

I think if this would have been a full length story I would have loved it and given it 5 stars. As it is now, I can't. There just wasn't enough intro to the event. Then it ended with a hopeful promise, but nothing definitive. I was trying to get into the background, but there needed to be way more. I was glad they got together, but it was filled with too much doubt and thoughts of a brother you never get to meet. Like I said, if this would have been a full book (like 200 plus pages of story) I like to think I would have loved it and given a higher star rating.

As with most steamy e-book quickies, *Seducing Jason* was primarily composed of one long, extended love scene, but what a luscious love scene it was. ;-) As short as this story was, I found myself really liking the characters. Maggie exhibited a touch of vulnerability in the fact that she had gone to Jason's apartment many times before, but had never quite gotten up the nerve to go in and seduce him like she'd fantasized about doing. Even this time, she was having second thoughts until Jason caught her parked outside, but once he got her inside, she pulled out all the stops and finally allowed herself to be naughty even if it meant only having him for one night. Jason was a passionate but tender lover who held himself back in order to pleasure Maggie. It was sweet that he felt the same way about her too. This couple knowing each other for years and being friends also made the quick consummation much more believable and satisfying for me. *Seducing Jason* was my first read by Brandi Evans. I really enjoyed this taste of her writing style, so I'll definitely be on the lookout for more from this author. *Seducing Jason* is available as a free download from All Romance eBooks.

Missy says

A nice quick steamy read.

Hot passion glore and a sweet ending for Jason and Maggie.

A nice enjoyable read.

Dahlia (yadkny) says

Really HOT quick read... just wish it was longer.

Cecile says

What a great way to break into a new author but by a wonderful little short story. I am new to author Ms Brandi. And this is for sure... A wonderful short story. But it is more than wonderful... Hell, this is a freaking hot little number. Consider this that little black explosive dress that you keep in the back of closet to rock "his" world... You know the one.... Well, this is that kinda book.

Maggie wants Jason... Jason wants Maggie... But there is one problem.... Maggie is Charlie's baby sister.... Jason is Charlie's best friend. What is one to do when the cost of your happiness might be the downfall of two relationships.

Can two people come together and make it work? Can Maggie turn up the heat and go after what she really wants? Is she brave enough to take what she secretly desires... What she has secretly been wanting? Can she do it? Well, let's see.....

I have to say that I am not stopping at this one book by Ms. Brandi.... I am going scout out more books by her! Because Seducing Jason is not all I want, hehehehehe.....

Janeth Rueda says

Dure 15 minutos leyendo esta escena.

Es un gran meh.
