**The Fall of Sky: Part One** Alexia Purdy

THIS IS A SERIAL NOVELLA SERIES!

THIS IS PART ONE OF FOUR.

BOOKS ARE RELEASED EVERY THREE WEEKS.

Sisters Audrey and Liv Westing find that living on the edge turns out to be a bit different than what they thought. This singing duo hoped to be discovered as the next big thing while fumbling through their turbulent existences. Each one is struggling to come to terms with their addictive personalities, a trail of destructive relationships, and the consequences of every misstep they unknowingly take.

When they attract the eye of a deadly but powerful Cartel family, Liv's flighty decisions send the sisters spiraling into a world of sketchy music deals, sexy assassins and unfathomable demands from those who want nothing more than to own every piece of them. In a place where love will kill, it demands a steep price which may be too high to keep Audrey and Liv's fragile world from a swift crash and burn...

## **From Reader Review The Fall of Sky: Part One for online ebook**

### **Katrina Curry says**

I am currently in awe. An author making a genre transition is always risky business. An author pulling it off with a stellar story is to rave about! I jumped into Fall of Sky blindly. I knew nothing of the premise and assumed it was another paranormal romance. Hats off to Alexia Purdy for the creation of this astounding book.

If you've read anything written by Alexia, you already know what to expect of the prose. It's sweet, simple, and to the point. I love getting sucked into a story without realizing it happens. I've read two series she published in the past and with neither I was immediately captivated. However, at some point, in both series, I would hang onto to every word, paragraph, and punctuation mark while forgetting to breathe. The same exact response was extracted from me with Fall of Sky.

The execution of the plot begins with the creation of an emotional atmosphere surrounding the bond of two sisters, who would be broken if one would have to live to live without the other. The adoration and tolerance Liv and Audrey show for one another has a homesick vibe. Reader's will relate to or long for that connection.

The female protagonists are survivors. They are independent, self-reliant broads I can respect. If Liv weren't so insanely wreckless we wouldn't have such a hot story on our hands.

And what of Saul? He's charming, remarkably calm, almost too serene in fact. I can't help but wonder if he's being deceptive and a part of a grander scheme that threatens the sisters lives. At least those were my initial feels of him. Now, I'm not sure, but I do love him either way.

I keep wondering if this is going to be a "but I fell in love" theme. It would certainly make an interesting conflict to cause vast emotional connections. The other two males in the story keep me trying to piece together the puzzle as much as Saul. I have an idea of how it might turn out, but I love knowing I'm going to be in a for a good surprise. With Alexia Purdy as the author it is gauranteed.

I'm now trying to rush through my ARC's because apparently Fall of Sky part 2 releases in a little over a week!

This is a must - read series I swear by!

I usually read Paranormal Books so I was surprised that I loved this book. There is lots of suspense, danger and even romance. I thought it had a steady pace through out the story. The story line is so believable it sucks you in right from the start. I love the complexity of the two sisters relationship. They sort of remind me of my sister and I. They may bicker but when it is said and done they will love each other always. This is the first book of a for part Novella. I am excited to read part two to find out what happens next.

I received a complimentary copy of Fall of Sky (Part One) in exchange for my honest review. All opinions shared are 100% my own.

Sisters, Audrey and Liv, have had a rough life so far but, they strive to make the best of things and, always have each other. But, doing something wrong has unlikeable consequences. Taking what doesn't belong to you won't go unchallenged.

Start the journey with Audrey and Liv as they travel from place to place, singing for their supper. Meet Saul, a surprising new friend to the sisters.

Great start to the series. Really looking forward to reading what happens next for Audrey and Liv.

Audrey and Liv are trying to get their music career going but that is not easy with Liv getting involved with a big, powerful Cartel family and now the girls are on the run. Along the way on one of their stops, the girls pick up a rider named Saul and a friendship starts amongst the trio. Can the groups career take off or will Liv's past bad decisions catch up to them??

OMG right from the beginning you are pulled into the girls world of survival. Each girl has a unique personality that add so much to the story. Then you have the addition of Saul, a blind man whom Audrey can't stop thinking about, who adds that much more to the tale. I was totally engrossed in the Liv's side of the story (don't get me wrong, the budding relationship with Audrey and Saul is good), she is a strong girl that will do anything to help them out although not always making the right decision. Once again Alexia pulls you into her story making you curse her for ending the book ;) I definitely look forward to seeing what is in store for the girls in the next book

I love Alexia and I would read anything she writes even if she published her shopping list. This is different to anything I have read from her before and it was a good start to the mini series of books.

I was intrigued by the story but felt it was just really short to fully get an idea of the story as a whole. I did enjoy it and will continue with the series. I only gave 3 stars because of that reason. I need to read more of the story.

I really enjoyed this story. The writing style paints a perfect picture in your head of exactly what's going on, what everyone looks like, the feelings in the room even. I love the relationship between the two sisters, Liv and Audrey. They remind me of my relationship with my sisters, they fight and argue and get on each others nerves at times but in the end they won't let anyone hurt the other. I look forward to learning more about Saul! I was truly intrigued by his character. This was a great book with a unique story that was refreshing to read. I can't wait to read the next installment!

I received this book to give an honest review.

I have fallen in love with Alexia's work. She has a way with writing a story and keeping you captured until the very end.

With *The of Sky (Part One)*, this seems to be a totally different writing style than her other work and I have to say I am impressed. I was hooked from the first page. You got two beautiful sisters who have a love for music and perform from bar to bar.

Audrey and Liv you can tell the two are very different from each other.

Audrey is the more serious one in a way, she doesn't live for danger she watches or at least attempts to watch out for her sister Liv.

Liv on the other hand is wild, free, and lives for danger it seems.

When Liv makes a dangerous move well lets just say that is when the girls meet someone who is a dangerous man that could possibly hurt them in more ways than one.

I have to say though these chicks are carefree by picking up strangers! lol. I did find that kind of weird, that they would do this.

The scene of the story is just amazing. I felt myself caught up in the world of Liv and Audrey and wondering how are they going to get out of this situation that Liv has put them in. I want to read more so I can see what else is in store for us all. I want to dive back into this world of music and sisterhood. I want to know who will find love in something besides the music! So many I want's from this series.....

## **Erin Hurst says**

Great start to a promising story, can't wait to see what happens next. I really enjoyed reading about 2 sisters, Audrey & Liv, and the twists & turns they go through. They have a rough childhood, and eventually run away, to save themselves. That in turn has them running still, as adults. They get in to some intense situations and try to figure out how to save themselves, again.

## **Sheri says**

This isn't what I expected from Alexia but like always, I was not disappointed. Liv and Audrey have taken care of each other for a long time. As a traveling duet, they meet Saul, a blind man who joins them. Scandles and deals has them headed in different directions. Could love be in the making? Could one be falling for Mr. Right while the other is falling for Mr. Wrong? I can't wait to find out what happens next.

Fearless And Fierce In The Face Of Danger

This series must be read in order. This is the first book.

Liv is wild and crazy but she loves her sister Audrey more than anyone or anything else in the world. The only thing she loves just about as much as her sister is her music... Their music. She is manipulative and always out to make life easier for them to be free spirits and roam the country. She will never ever fall in love or settle down... The only kids she wants are nieces and nephews. The road is her home and the only family she needs is her sister.

Audrey has been looking out for her sister since their father left when she was in first grade. She is responsible and adores Liv but lives in terror of Liv's next crazy over the top scheme. She wants to find a man and settle down in a forever home ... But she does not want to leave her sister... And her sister can't stay in one place too long. Their music and their love for each other binds them tightly but she fears one day Liv will go too far and destroy both of them.

This is a new adult thriller suspense series with a dash of romance and loads of intrigue. I really enjoyed it a lot (even if it is not paranormal like most of Ms. Purdy's books) I was pleasantly surprised on how engrossing this story was. It was a very enjoyable read full of plot twists and excitement. I can't wait for the next installment to be available so I can find out what happens next!

\*\*\*This series is suitable for adult readers

### **Heidi says**

Well written with an interesting premise, but I am not sure where this is going just from reading the first book. I am not sure if it is just a strange romance novel or a mystery. The girls have a cartel after them and always seem to be on the run while playing music in bars. I am thinking this is mostly an introduction to characters meant to leave you hanging as an introduction to this four part serial. It gives you some background on Liv and her wild side and Audrey with her mothering. It also introduces several interesting male characters that you are unsure of. It starts off with a bang and leaves you with a huh? What's up with this? Where is it going? Alexia has a way of drawing you in and making you wonder what will be next no matter the genre, but I enjoy paranormal stuff more. She did a great job with the genre switch and I commend her.
