The Rose Killer Pat Gragg

The Rose Killer--A Kindle best seller

A small Kansas town. A serial killer. A young widow tormented by unanswered questions. Was Valerie Yates' late husband, a police officer, hunting for the Rose Killer on his own? What was his relationship with the beautiful young woman who was the Rose Killer's third victim?

Valerie's search for the truth uncovers the dark secrets of her idyllic little town and puts her squarely in the Rose Killer's path.

The question now is: Will she survive?

From Reader Review The Rose Killer for online ebook

Kathy says

I could not put this book down. What a page turner. I could not figure out the killer until almost the very end. It was a very good and well written book. Loved it.

Karen says

Another cheap download. I am almost halfway into the book and just cannot finish it. I don't care about the main character, or any character, actually. And it just is poorly written.

Marie says

good read for the low price on Kindle,,,kinda like a Lisa Garner book, held my interest..good ending...

Cynthia Reed says

This was a "good read" and I enjoyed it. It's not particularly my genre so I was especially pleased to get caught up in it--I hoped that would happen! I thought the characters were believable, the pace very good and the plot well thought-out and executed. It's not often, lately, that a book hold my interest and keeps me going, much less up a bit late at night. But this one did a couple of times--and I congratulate Pat Gragg for getting me back into reading after a serious lapse on my part. I read this on my iPad, with the Kindle reader, and thought it a lovely way to read it.

Sylvia says

Didn't really get interesting until the last 1/4 of the book. Until then, it was slow going. It was a fun finish though.

Rachel says

I wish I could give 2 1/2 stars!

The story was a little wishy washy and moved slow for my liking. There was some questions for me as to the exact relationship between a few of the characters.

I was disappointed in the weak ending BUT overall it was entertaining enough to warrant finishing the book.

Katy says

Another murder mystery, and I didn't figure out whodunit. The plot kept my attention, and, thank goodness, wasn't so gory that I would have nightmares. It was a bit more psychological in intent. Of the murder mysteries I've read this summer, this is among the better ones.

Kim says

I didn't like it at first, but it was a good serial murder mystery.

Nancy says

Is a good murder mystery. Keeps you guessing till the end even though I don't feel like the reason behind the killers motives were ever fully explained. Would definitely read another one by this author.

Juan says

This book, has sort of a really good plot, but i think it could have been a lot better. I would not read it again, although when i found out who the killer was, I was quite surprised! :)

Jeanne Stephens says

This was a great story. It left me wanting to read more books by Pat Gragg, but this seems to be her first novel. It was well written and a real page turner. The widow of a cop becomes an amateur sleuth in search of a serial killer. The book had definite insights into grief because the main character, Valerie had lost her husband one year before. You could feel her pain and hopelessness. The relationship between the best friends Sunny and Valerie was also believable. This book would make a good movie. I look forward to reading future books by this author.

Penny Post says

I enjoyed this book a lot, even though I figured out the murdered, there were enough twists to make me question myself. Mostly the authors phraseology in spots. But, this town like all, has some real creeps and many, many secrets. I am not sure why I didn't rate it a 5 star unless I felt it was lacking a bit in the suspense department... I wasn't cringing. Still a very good read. Cannot believe I have had this book since 2011 and just now read it.

Kristal Blanchone says

Ugh. I just couldn't get into this book. I love a good "psycho serial killer book". This was not a good "psycho serial killer" book. The characters ranged from generally dull to just ridiculous and I couldn't connect with any of them. I VERY rarely don't finish a book that I start, but this one almost had that distinction. Just when I had given myself permission to just quit (about half way), the dog went missing. I only finished it to find out what happened to the dog. Ultimately even that was unsatisfying. Not recommended.

Kate says

For 99 cents from Kindle. A real page turner. I could not put it down. It took me some time to figure out who the Rose Killer was. Interesting characters. You cannot go wrong for the money. I recommend it for a real fast read.
