### **Sheridan says**

I really liked the story and think it was a great quick read, although with all the stuff happening I don't know how the character could be 18. Also I just didn't really get Trent + the relationship. Things such as the whole book just moved a bit to fast.

Cons were that the copy I got from Smashwords had barely been edited and so many times the wrong word had been left in place such as 'message' instead of massage and 'gravelling' instead of grovelling as though the author only used spell check instead of doing a proper read through and edit.

But apart from that annoyance I quite liked it.

It's a cute book, I really liked the story. I feel there were a few minor things missing from it and maybe a little too much details on certain parts, but overall, a good and easy read

I don't normally rate a book I have not fully read but this one will be an exception. The grammar in this book is horrible from misuse of words to incorrect tense usage. I could get over that; but add in the constant switch between first and third person with no delineation between and it is just too much! The story has so much potential I really wanted to read it. I made it to chapter 10 but on top of all those issues its like the writer had multiple versions going on and never fully edited it down to one. It's like there are missing pieces of the book. I keep thinking I was skipping pages because an idea is brought up but never fully developed. At this point I am giving up on finishing this book even though I think the book has so much potential and is really interesting but needs 3 more editing rounds before turning into a fully wonderful book.

this was an awesome book but I think that the ending was a bit rushed. I wish there's another part to this.

### **Jennifer Rininger says**

The plot was well thought of. i love the way it moved through their lives. it had some grammar issues but if you can get your mind to skim over them it wasn't to big of a problem. the main character also seemed to accept her change in life pretty quickly and both seemed to fall quiet quickly in love. but it was a good short read and had some cute moments.

I always feel bad not explaining my reasoning for no-ing a book, but this one was because i saw a review on amazon which did a horrible job of hiding a spoiler, and i ended seeing what the spoiler was, and that was what turned me off from the book. And i won't be that asshole and say what it was, but that is my reasoning and they are personal reasonings as most things are when they come to books, so don't take my no book for you as a reason not to give this a chance, you might really enjoy this.

This book could have been really good, but in my opinion there were elements that really ruined the book.

Review from busymomsbookreviews.com

Kailee comes home one day and is told to pack her bags because she is going to be moving, not only is she moving but she is also going to be marrying some man she has never met. She isn't told why or when or even anything about her fiancée. She is whisked away to this new place that she knows nothing about where she meets Trenton. Trenton is an alpha male who is in charge of everyone else. When Kailee tries to run away she comes across a wolf in the woods just outside the house. She finds out that her fiancée and everyone else in the house is a werewolf and that her family is to. Trenton has to convince Kailee to mate with him or he will die and so will she. I loved Trenton, he has spent his whole life knowing about Kailee and how she is his mate. While everyone is trying to force Kailee to accept Trenton, he tries to protect her and allows her time to get to know him. Kailee is a good heroine, she gets thrown into these situations and while she does make some not so smart decisions, most of the time she faces things head on. She does the best that she can do with the situation she has been put into. I did like the characters and I like the descriptions of the settings. I also enjoyed how the author was able to really pull you into the book and make you feel the emotions of the characters. I had some series problems that started about halfway through the book. Things went from a nice easy flow, to really rushed and everything is happening within a very short amount of time. So as much as I enjoyed the beginning of the book and characters I had to knock off points because I didn't enjoy almost the entire last half.

**Note:Contains spoilers!**

**Kailee is happy with her parents who love her more than anything and she has a best friend she wants to go with for college in fall..her dreams,her aspirations,her family,her future..all was set.That is until their parents break a shocking news...she is sent off to a place far away...to her fiancée...for god's sake she is just 17.She is shell shocked,confused but does nothing when she is taken far away from her home.**

**When she reaches her fiancée's, all is new..new people,new place and finally a guy she has to get married ..Trenton -hot and super sexy - not that she minds but she also wants answers cos there's something not right when she sees the woods around the house stretching for miles,people trying to talk to her in riddles and when a wolf is playing with you than eat you.**

**Trenton,has waited for long for kailee to come to him..she is all he wanted - beautiful,sweet,innocent,also lot of stubborn and cocky making him set on edge and always running on his toes.. ...lol....but he loves her nonetheless.He knows she wants answers.,,which should be said by her parents at first place..but now it's his duty..as her alpha,as her mate.When Kailee hears all she can think is - she is in a place of crazy loonies and has to get away from the house..cos there's no way this person is what he says - a werewolf and that she is one.**

**But when time passes and truth is laid out on her face..its all she can do is not to pass out or hide in a corner...kailee feels sad,betrayed ..but most of all she feels bad she made trenton sad..when all he did was protect her and love her more than his life even after her crazy and stupid stunts.She realizes trenton is everything she has wanted and much more..a passionate,beautiful lover and a strict,disciplined alpha..not what she thought few months back would happen to her..but the more she knows about him the more she falls for him and the family - or pack.The life she thought ahead now looks much more brighter..with a future she now wants with him beside her with a little changes.**

**The story is said from third POV to make us know about everyone's feeling..it could have been done a little better.There were few scenes which i thought they weren't really needed for the story but it was fine ...if along with these a little care is taken on spelling/grammatical mistakes ..it would have been more better.But overall all i can say it's sure is a short,fast,easy and good read for time pass.**

**The cliff hanger was surprising especially after a 16year leap and all i can says is "Let's see if the history repeats itself?"..LOL!So want to know how Brooke handles her life!Looking ahead for the sequel.**

**Sometimes it's not necessary that a story has to have lots of drama,action,crazy madness or even a plot...it can be laid back..enjoyable..just a happy one telling about LOVE,this is one of those!And there's also a sense of humor at right places which make's it enjoyable!**

**Yes!I am biased with werewolves..LOL!**

DNF. I barely made it past the first chapter. This was the first sentence:

Where do to start? Well ... no... Maybe... ah  
no how about... nah. Well here it goes.

For a story written in 3rd person, that intro didn't even make sense.

The plot sounded good, but the writing style seemed very immature and the numerous spelling and grammatical errors... I just couldn't continue reading. Please, it's called proofreading.
