Vienna Woods Mary Lancaster

Intrigue, suspicion, and true love at the Congress of Vienna.

Esther Lisle, daughter of a general turned diplomat, wakes up in the Vienna Woods to find her royal betrothed dead and an agent of the dreaded Austrian secret police asking her awkward questions.

In trying to protect her father and her country, she enters a battle of wills and wits with the mysterious Agent Z.

From masquerade balls to desperate escapes, the more she gets to know him, the more fascinated she becomes. And the more anxious to discover the truth. Is he deceiving her?

Who killed the crown prince, and who is threatening her own life? It seems there is no one she can trust, and yet Agent Z is always there to aid or provoke her.

By the time he abducts her to his very odd home in the Vienna Woods, staffed by young and only partially reformed criminals, it breaks her heart to believe he is the villain of the piece.

Another great read!!

This is the second in the series but is a stand alone. Wonderful characters and a great story. Full of intrigue and romance.

Who Can You Trust?

Napoleon has just been defeated. Spies are everywhere, and many people are not who they seem. Is Agent Z the hero or the villain? Esther found herself in the woods. She was left unconscious, and her fiancé was dead. Agent Z was there, asking her questions she could not answer. To top it off, there were incriminating papers on her person. Someone must have planted them there while she was unconscious. Read this intriguing romance and find the answers. It is an enjoyable read..

Wow! So much political intrigue and mystery set at the Congress of Vienna to establish a new balance of power after Napoleon's defeat! I was thrilled to see Vanya and Lizzie from the first book, "Vienna Waltz." Agent Z's romance with Esther was fulfilling after being introduced to him in the first book. Agent Z is such a complex character which was further developed beautifully. Esther was a pistol and his perfect counterpart. A most enjoyable read!

Marya says

3.5 stars; not as smooth or polished as Book 1.

Love it

Great characters ! Great story with wonderful twist and turns. In to the next in the series and beyond. Glad to have found Mary Lancaster

Kim Underwood says

Great read.

I've thoroughly enjoyed reading this fun, mysterious novel. I've enjoyed following each marvelous character and am looking forward to my next adventure!!

4.5 Stars. Who doesn't love a romance with a mysterious spy who doesn't think he'd ever find, or want to find, love.

Esther has no idea when she wakes up to the mysterious Agent Z that her life is about to turn upside down. Her fiancée Prince is dead with her injured during the fight. Is her life now in danger? She's keeping secrets but whom does she trust? Does she dare trust this mysterious spy with her life?

CONTENT: Language, none. Violence, mild. Not excessive or anything like that. Romance, sweet and clean with a hint of heat at the end nothing explicit or mature.

Note: This book is part of a series and should be read in order. *

Enjoyed reading

Lana Williams Is a very good writer that I enjoy reading her books. Her characters for the most part blend together even though it is not socially expected but they work together to catch the evil ones. I hope that she continues writing so I can read book 3.

Vienna

This is another good book by Mary Lancaster. It is filled with mystery, betrayals and humorous banter. The characters are fabulous and entertaining. You will enjoy finding about Esther and Agent Z. I recommend this book. Although this book was more of a serious nature than the first book, it still at times was funny.

Babs E Pinto says

Harpy indeed

Delightful continuation of this new series from one of the best story tellers I've found! Twists and turns, spies and hidden messages, true heirs and pretend Princes. You should be entertained here.

Book 2 of this series propels us deeper into the chaos of the reigning times, and the continued questioning of whose side are you on, anyway?

I enjoy the way the author drops us into a scene where the character is struggling to bring herself back to reality—great adrenalin-pumping beginning. A good conk on the head would do it—something she experiences. From the outset, author Mary Lancaster, superbly sketches the kind of person Esther is. Esther doesn't cower as many young woman of that time – her upbringing brought her close to violence and injuries, while following her father's career. Nor is she swayed by the crown prince's betrothal. Esther wants to marry for love and will not settle for less.

Agent Z is full of surprises. I enjoy learning about him, his character and how he fits into the Austrian secret police. Esther had trouble trusting him, but there comes a time she must trust someone. But, is he completely trustworthy and reliable?

This story will sate your every need of conspiracy, where wits are sharpened in dangerous dealings and trust

and passion finally rule the day. I enjoyed this read and definitely recommend it.
