# Voodoo Dues Companion

*Stephany Simmons*

## **Voodoo Dues Companion** Stephany Simmons

The Voodoo Dues Companion is short scene that was not included in Voodoo Dues. It is an expanded love scene between the main characters for those who like their Urban Fantasy a little steamier.

## **From Reader Review Voodoo Dues Companion for online ebook**

**Cana Elene (<http://placeofreeds.blogspot.com>) says**

Yep, it so should have been published with the book.

The scene is short... Just a few pages, but I enjoyed it. I like how Figg isn't stick skinny or like that. She has a bit of meat on her bones, and is even a little self conscious about it (and what woman isn't self conscious about her body sometimes?). But even then it doesn't matter to Lian.

Definitely worth the read, but highly recommend reading with the book. I re-read the book, so I could get the whole blending of the extra chapter.

**Jackie says**

The author sent me a copy of this companion to the novella. She touted it as the "naughty bits" that were not included in the lovemaking scene with Lian and Figg. Naughty is right, very sexy. After reading you will need a cigarette and maybe a cold shower.
