What a perfect installment of the Black Point series – and even though it is Christmas-themed, I think it can easily be read at any time of the year. It was definitely fun reading it again even in the middle of spring and I loved this book, just like I did the first four. Matt and Thomas are pretty secure in their relationship now and most of the issues and conflicts come from the outside in this book. There has been a pretty major change in that they are hoping to have a baby with a surrogate, and I couldn't wait to see them as fathers after watching them dote on their young niece.

This series is so cute. And book five was fantastic. Action packed. I liked that this focused on external conflicts for the couple rather than internal issues. The character are well rounded and extremely believable. I can't decide who I fell more in love with Thomas and Matt or baby Daphne. I hope there a further books in this series I would love to read how Matt and Thomas deal with parenthood.

Thomas and Matt are expecting their first baby, delivered by a surrogate and are looking forward to a wonderful Christmas in Hawaii with their family. When their niece, Daphne's, presents don't arrive, the surrogate has second thoughts, and Thomas is abducted, it is up to Thomas to save Christmas. There was a lot going on in this story and it was pretty exciting. Thomas and Matt's love is stronger than ever and I enjoyed watching this story unfold.

I expected a bit more for the end of the Black Point saga, still is a very good ending with a small twist. One of the ten best couples on the m/m stories. Congratulations to A.J. Llewellyn.

It should have been the best Christmas ever for Thomas and Matt. A trip to Hawaii, Christmas at Black Point

with their family, and in just over a month, their baby is due. But right from the start things go wrong. Presents for their niece go missing and drama with Matt's brother threaten their vision of a peaceful holiday. To top it all off, something's off with their baby's birth mother. When Thomas goes to investigate, he finds himself kidnapped by fanatics who oppose his and Matt's impending fatherhood. It'll take a Christmas miracle for this holiday to end happily.

Matt and Thomas feel the full hit of Murphy's Law in Black Point Christmas. Their wish for an idyllic Christmas is foiled almost from page one, but trust in A.J. Llewellyn and D.J. Manly to make everything right in the end. Matt and Thomas are the same as they ever were, as are Matt's loving but slightly madcap family. New ground isn't broken in Black Point Christmas. Rather, the book seems like a lovely visit with old friends for those who already adore the Black Point series. For readers new to the series, most of the Black Point books can be read on their own. However, in the case of Black Point Christmas, I recommend reading at least the previous Black Point book, Black Point Surrendered, first, as storylines from that book spill over into this one. All in all, I enjoyed Black Point Christmas and look forward to seeing what's next for Thomas and Matt.

This was such a sweet read - great holiday book even despite the drama and angst which I'm a big fan of anyhow. Thomas and Matt are still so adorable together and they've become a total power couple; loving, supportive, successful, sexy but with still a few rough edges and some jealousies added to the mix. That always makes it more interesting. T

he Lucas family is such an integral part of this series and I just love reading about each and every one of them, and since Cole was not as prominent in this book, I made due just fine with concentrating on Thomas and Matt with a little Damien on the side - he's a sweetie and I'm glad he got his man in the end, even though I was pretty mad at Mike for a while.

I loved how tough and protective of his and Matt's family that Thomas became; fights, being held hostage, threats - he truly showed his he-man side - rawr! And naming the baby Rosie just made me giggle like an adolescent girl - how freaking sweet is that. I hear the next book is the last of the series and though I'm dying to read it, I'll be sad to say goodbye to everyone. Hmm... when will that be I wonder?

Great job DJ and AJ! You've taken this series almost to a personal level I think - I imagine I see a little of both of you in the characters and in the settings, and even though I don't know either of you or know that for a fact, it's still really cute and makes the series that much more special.

There are 6 books in this series currently. I think the story is kind of choppy in the first 2 books - the timeline seems off and rushed at parts but, the story line is very entertaining and overall I think they are worth reading. The characters are fun and the sex is hot. Just when I think there is too much sex, the author mixes it up and keeps it very entertaining. The stories in each book vary and kept me amused.

I recommend this series and enjoy it more and more as the books develop; however, I also recommend that

you start with the 1st book and go in order otherwise it could get very confusing.

What a perfect ending to the Black Point series (I'm still hoping the rumor of its demise will turn out to be greatly exaggerated!). I loved this book, just like I did the other four, actually.

Once again Matt and Thomas are put through their emotional paces as their baby is about to be born. They face mis-delivered and then lost Christmas presents, their baby's surrogate mother's homophobic new boyfriend and a group of self-proclaimed 'righteous' religious fanatics who want to 'save' the baby from being brought up by a gay couple.

I honestly didn't expect this much to happen in such a comparatively short book. AJ Llewellyn and DJ Manly prove yet again that they are the masters of suspense, designing accidents and plot twists that had me laughing and crying in turn.

A more than well-deserved 5 stars!

Dayum, my head's still spinning. This story is more than non-stop goings on negative and positive and I have to say it was busy and got to be overwhelming at times. I won't say the story isn't a good read cause it was in the whole grander scheme of things, but I need to give myself a timeout at the moment just to get my bearings. LOL
