#### **Graykowski for the Win!**

I knew Coco's book would good, but it was so much more! I smiled, smirked, laughed, and sighed throughout the entire read. I loved seeing everyone (HW and Cart?), but I loved seeing a grown up Coco. She is full of life and sass. I love her relationship with her family and to see they are still the same goofballs from years ago. Charming Coco is an excellent read.

#### **Long distance love**

This is the last book, or book 5, of the Lone Star series, beautifully written by Katie Graykowski. I loved the love between Seth and Coco, they were just meant to be a couple. I've read the whole series and I absolutely love the women for how feisty they all were. The men were all portrayed as strong, loving men. This book just put the perfect HEA within the whole series. Now I must read more books written by this awesome author.

I really wanted to like it coz it's such a popular book. However, the story falls flat. The H/h are supposed to be 36 and 30 yrs old but they don't act and talk like it. The entire thing was so immature. If they were only younger say 23-27 yrs old, I could understand but they weren't! Seriously, I tried to like it but I really don't

#### **Charming Coco**

This can't be the last book, please more. Any ways Coco had lived Seth since she was sixteen years old. But he thought of her as a little sister. When she turned eighteen she was rebuffed by him. So she left for college and didn't come back for twelve years. Now back from working for Doctors without borders she is ready to start a life with a man she can trust. Will it be Seth or Giovanni? One is the true prince in her life.

**VERY ENTERTAINING ADVENTURE AND ROMANCE**

An amazing story about friendship, love and adventure. Coco is finally returning home after resigning from Doctor's Without Borders and many years of service throughout many different countries. The first person she encounters at the airport is Seth her long lost love from her childhood days. Now she is struggling with not only adjustment to be back with family, being back in the States, but also now having two men vying for her favor.

#### **Another Katie Goody!!**

Coco has been in love crushy on Seth forever. When she turns 18 she kisses him and he doesn't reciprocate. She runs far for her residency and works with Doctors Without Borders in Sudan. Seth is an NFL receiver for the team her Father coaches. 12 years later, she is back home. Seth has always cared for Coco but she was too young for him. Now he has competition with her friend, the spinal surgeon, who was also in Sudan. Nicely written and has laugh out loud snarky . Fun and enjoyable read!!

This is my first time "reading" this author's work--- I listened to the audiobook, so reading is a bit of a stretch but it's a book so it counts! Enjoyed the storyline, especially the heroines backstory and her time as a doctor without borders. I am not sure if she actually overcame her issues with that (the author introduced that as a bit of an internal conflict), but I guess it isn't something you really overcome- it is something that will stay with you always. The male lead was charming, and I liked his interactions and his relationship with the heroine. My only critique would be that I didn't really see a conflict in the relationship. It was kind of just assured they will get together in the end, in fact when the heroine is choosing between the two men I couldn't really understand why she was hesitant to pick the male lead (Seth) over Giovanni. Overall an enjoyable read, and I think I might start back at the beginning of this series- though you could read this as a stand alone novel for sure.

This was a fun, easy to listen to story (I did the audio version). There may not have been a whole lot of substantial conflict in it, except for the tension between Seth and Giovanni, but I think the story was meant to be lighthearted and certainly not deep and serious. If that's what you're looking for, look somewhere else instead of reading this.

Coco comes back from working as a doctor for Doctors Without Borders to discover that her old flame, who rejected her years ago, is going to be right up in her face. Awkward! Seth cares deeply for her and must try to convince her that she's in love with him and not the guy named Giovanni (Seth calls him the Italian Jesus) who's already proposed to her.

The narration by Pam Dougherty was superb! I love the smoothness of her voice and the humor and perfect timing of the lines. This was a very enjoyable experience all the way around!

**flat**

Cute story with no tension, suspense or drama. The potential was there. Three possibly interesting characters, but within a short time All roles were quickly defined and played out. Just could not get excited.

**Loved all five booms.**

Just finished this series. I loved all the relationships. The strength, the love, the friendships, the communications and the antics. I wish I'd had that throughout my life. I can't wait to read more from Ms. Graykowski. I definitely recommend each book of this series.

This story was so good! I loved how Coco comes back home after running away from a bad experience with young love and finds that you can go home, but can you deal with your family? Seth was 'it' for Coco, but when she finally builds up her courage, he treats her like a little sister. Humiliated, she moves on and tries to erase the whole thing. This story is sweet, combined with even parts, sexy, sassy, and funny. There are such hilarious moments interspersed throughout the story and I found myself laughing out loud during them. Coco's family is terrific and add so much to the story. Really enjoyed how Coco's family is there for her, even when she doesn't want them to be! Great story and the narrator is a good choice.

felt like an excuse to parade all old characters through so we could meet their 1.2 children, endure sass, unsolicited advice, and get the 'see they are really living happily ever after'

**Snarky and funny**

I just love her writing style. Fun of snarky fun. This one was a miss for me though. I really didn't like Seth. Seriously he's supposed to be 36?? He acted like he was 14.
