Fine enough. A bit of pointless dialog here and there.

[And Sebastian is not represented in a bad way, at least not so far. ~~Please don't wreck this, Bioware!~~ (hide spoiler)]

I'm liking this newest installment of the Dragon Age comics. I am hoping to see the main character in future games as she is fun and different. I am also hoping to see the last two main characters as well. It will be interesting and fun to see what is in store. :)

Contrary to most people, I quite enjoyed Magekiller so I was delighted to learn that the agent(s) that needed to be rescued had slept with Charter. Didn't expect to actually see them in this issue, but the look of utter annoyance on their faces was the cherry on top of a very good issue. And of course, Sebastian&Varric's dynamic is still hilarious to me so I loved seeing them together! I just love how they can't help but grind the other's gears and I hope they'll have cameos in more comics/games :)

As I'm a massive lover of speculations and theories, and as these comics give me a lot to think about, I've put my ideas for DA4 under a spoiler balise but if anyone wants to discuss that, please do contact me ; I NEED someone to obsess with!

Good for DA fans

Good story, nice art, nice to see Seb again. I like the new characters too. I bought all issues at once.

La conexión con Magekiller me ha matado <3 y las referencias a Dragon Age 2 y Dragon Age Inquisition son ORO.
