## **I Am The Streets** T.L. Joy

Kristen "Na'Tiva" Davis had everything a woman in her 20's could ever want. Success, beauty, and money. Yet everything drastically changes when she receives one phone call that will turn her life upside down. Now forced to return to the very place that she abandoned, can Na'Tiva cope with the cold mean streets of Akron?

Find out what happens in part one of the hot new urban series from T.L. Joy!

**Sylvia says**

**Five Stars**

I'm so glad I decided to finish reading this book .Wow it was great it give me the excitement I was looking for

---

**Tenisha Long says**

Great quick read! Will want you wanting more.

---

**Shà says**

this book was very good. i enjoyed it and i finished it last night

---

**Tina Marie says**

**Interesting read**

Interesting story line that holds readers attention and makes you want to read the next recommendation some graphic content but not too bad

---

**Takiea Benjamin says**

**Very interesting**

I must admit this teaser has me wanting to find out what happens next. I was all into Brandon until I found out he was trifling or so it appears. Definitely a quick read. Guess ill get the next part to find out what happens. Enjoyed

---

**Robin Perryman says**

**Too Short**

The story was just starting to develop then proof! It's over. I'm confused are they twins? It says that NaTaya

is younger but they have twin names. If Brandon is rich, why steal Na'tiva's identity? What's the deal with him? Is it me or doesn't it seem like neither of them cared that their mom is dead? She was just killed and they don't seem to interested with who and why. They're out for revenge for themselves but aren't they the trifling ones here? This left me with too many unanswered questions for it to have ended so quickly. This book didn't draw me in and make me feel like I wanna rush and get to part 2. It's too choppy and may lead to too many parts.

### **Tonia says**

#### **High Horse??**

Tiva was very conceited and arrogant but I don't feel that was justification to get done the way she did. I truly didn't see that coming from Brandon. Some people fake it so well...

---

### **?♥Miss Foxx♥? says**

This book was good. It kept me focused it was hard to put it down. the story line was good. it kept me in full suspense. I found myself guessing which is good. so now I'm currently waiting for my next check to purchase Part 2 lol

---

### **Alyson Arvites says**

I agree with many of the other readers that this one was too short. The dialogue reads so that you can hear the southern accent behind it all, but not annoyingly so. I don't feel like I really got to know Na'Tiva or Na'Tya, which is sad because they're the main characters. It definitely could've been fleshed out a little more. There're a couple explicit sex scenes to break up the dialogue, but for the most part I found myself wondering why things were going down the way they were. I won't spoil the end, but it definitely needs more explanation. I just don't know if I'm interested enough to give #2 or #3 a try.

### **Teaguem2005 says**

Interesting quick read about two sisters and their different choices. One chose to leave the small town behind and never look back while the other chose to embrace the opportunity to take quick money by any means necessary to obtain then sustain a hood-rich lifestyle. When their mother is murdered Tiva comes home to bury her. The one thing I didn't like was she NEVER once asked her sister what trouble she had gotten into that her mother said she'd fix herself. Nor did she question the police account of her mother's murder so I'm left with the question of exactly how gully she was alleged to be vs how gullible she turned out to be

**Serenna Pennington says**

**Loved it !!!!!**

The story line was good and the ending has you wanting more, can't wait to read part 2 of this series.

---

**Tia says**

**Great Book**

This book is short but written precisely and throughly. It amazed me because I underestimated the length and its content. This author has talent and has me dying to see what happens next. I recommend this book to anyone who is a killer for a good urban story.
