Playing with Food K.A. Merikan

Just days ago, Llawan was taken from his underwater dwellings by Ossentharian slavers. Left in a tank with other merpeople, he awaits his death on a spit roast, but the arrival of an unusual customer might change his fate. To win his freedom back, he must enter a pact with the stranger, but what if the price is too much to bear?

POSSIBLE SPOILERS:

Themes: merman, slave, captivity, dehumanization of merpeople, dark magic

Genre: high fantasy

Erotic content: explicit, dubious consent

Length: ~5000 words

Nico Jaye says

...

Um.

I'm not really sure what I read, but somehow, I think I actually...liked it? o__O

It's free. It's fish porn. And if you decide to try it, make sure you do it on an empty stomach.

Also, bonus points for answering this question that I never even knew had been floating around in my mind:
Do mermen have peni and, if so, where?

Ayanna says

The genital slit thing...

How does that work, man? Is it just a weird random penis sticking out of the tail? And where is it? Is it vaguely in the area of where his crotch would be if he had legs?

Anyways, mermaids always bring up interesting physiological issues. I mean, they have to be mammals because their tails are usually portrayed as going up and down (as opposed to side to side as fish and sharks do; there might be a term for it but I'm drawing on vague memories from Biology waaaay long ago, so I don't remember it)

However, how, then do they stay underwater? They don't surface to breathe, so they must have gills. But then...if they are human-like, how can they be warm-blooded and survive?

Because fucking black magic. *Shrug. That's always the answer, right? Black magic, lol.

Eh, but that's part of their draw - the contradiction. Cold and warm. Fish and human.

Actually, this one's mermaids brings up further issues.

Really? A human-like penis?

And yeah, this is definitely more a teaser than anything.

Only 3-star because it seemed incomplete.

And I really need to rethink my favorites shelf because I've just been using it for books I rather liked...

Natasha says**Dafuq did I just read?**

No, really. What? Like... I think I just read about... mermaid rape. I think. Wait. No. What?

I honestly have no idea what to even think of this. I don't know how to rate this. I'll give it 3... but I really don't even know... what I just read....

Edit: I'm bumping this up a star because I'm a sick whacko and I've read this story multiple times

Jenni Lea says

Uhhhh....

I have no idea what I just read...

Did he just... and then... wha... huh?

Or maybe he was just... no, he... hmmm...

Heller says

Please sir, may I have some more?

Kudos for originality. This was so disturbing and really screwed up. Poor merpeople.

Susan says**A Weird Shit Wednesday Read**

This was one very confusing book.

From the very first sentence I was

It about a merman

And a 4 armed man.

Oh, I'm sorry, that was Spiderman. I mean a 'normal' man with 4 arms.

The rest was one confusing mess. There is mermaid/merman eating. This man with 4 arms, Rhys, eats the merman, Llawan's finger. Why??

Rhys sexes Llawan up and then... nothing... No sex, no eating.. Nope.. nothing..

It was all very confusing. A bit of horror, a bit of weird fish sex and a whole lot of

I love the Weird Shit books where it's so weird, you cannot stop laughing. That was not the case here. The writing was not bad and it was weird, but that's about it. Didn't really enjoy it. It was okay, nothing more.

Otila says

That was weird yet strangely fascinating. I have no idea what to say except, I want to know what happens next!!

K.A. Merikan says

It's finger lickin' good :D

Vivian ?????? says

Disturbing. And intriguing. I'm not sure which is more disturbing-- my craving for more, or the book itself. What I do know is that I'm off to find some nice mermaid smut.

Rating: around 3.5

Emma Sea says

Ummm . . . it was good?
Hard to describe though.
Creepy.
Somewhat disturbing.
Refreshingly creative.
Imaginative.
Left me dying with anticipation.

Also Adriana's word: weird. This story is fucking weird. I liked it a whole bunch.

Nina says

Horrifyingly disturbing and wonderfully imaginative.
You don't need to know anything more – it would only spoil the story.
If you have a strong stomach and enjoy very surreal settings, I highly recommend this. It's very short and also free, so why not?

SheReadsALot says

WTF was that?!

I'll admit my GR peeps peaked my curiosity and it's free so sign me up. But huh? Was that some sort of mermaid rape I just read? I mean on the scale of weird shit I've read, it was odd yet tame.

This was strange yet oddly hurtful... "The Little Mermaid" movie is my favorite Disney movie of all time. So, that dude just felt up Ariel's brother and ate his pinky, in my mind.

So I am going to go eat a cookie or something to ease the younger version of me that's a little disillusioned right now. She can't believe the present me just read this shit.

The story is well written and not graphic at all...just weird. Um...freak flag enthusiasts unite?

Britta ★ Nachteule ★ says

I really don't know what to say about this...

As a prologue I would be so intrigued how the story continues...

1 star for the confusion.

1 star for the actually good writing.

1 star for the unique and intriguing story.

And thanks to Susan for joining me on this Wednesday!

Kynthos-the-Archer (Kyn) says

This is one of the most intriguing reads I've ever have the good fortune to chance upon.

At first in the beginning, it gave me constant goosebumps of this variety...

"When the mermaid's skin turned a dark golden hue....."

"Llawan was carried through a wide corridor, with walls that turned out to be covered in skin when he looked close. There were even little hairs sticking out and Llawan could swear the wallpaper was covered in goose flesh."

Then I was titillated with a unique kind of *'fingering'* or *'fondling'* of a **Merman's slit**. It's like reading a vagina+penis stimulation combo that made me go....

Lastly, when it ends....

I felt somewhat unfulfilled. I NEED more. Please please give me moar! Mayday! Orgasm denial here!

K.A. Merikan, please tell us you have more? A continuation maybe? :P I do have to say a big thank you to both of you for writing this masterpiece and putting it up at Smashwords for free too.

Yeah, I love it! <3 It was good. Weird but good. Don't miss it. Try it ;)

Oh and I cast him as my Llawan

Ann says

Ummmmmm. . .so I'm sitting here, minding my own business, readin' me some Psycop and I glance over and see Natasha's review for Playing with Food. Why not? I think to myself.

So this was an interesting diversion into . . .well, I don't know what it was a diversion into. But, I like weird and this was weird. The writing was good, I learned more than I really *need* to know about mermen anatomy and I have no idea what just happened.
