Let me jump right into this review with one word....CORBIN! A delicious mid-western guy with a sexy accent who fights off a guy for you in the middle of a crowded bar. You look into his eyes and hear his southern drawl as you shake off the anxiety left behind by the douche who just tried to molest you on the dance floor. Corbin.....

For every day of doubt that has plagued Paisley about whether a relationship could really last, she decided she would rather avoid it than tackle it. If her own father couldn't make it last with her mother, why should she think it would work for her? Instead, she became a tag chaser by going after men who were going to be deployed and only available for a short time. Paisley ends up making a bet with her best friend that she would stop her chasing ways and find someone who could truly love her.

While the plan backfires in a unique way, Paisley is forced to confront her demons and take a hard look in the mirror at the person she has become. Thankfully a misunderstanding sets her on the right path to go after what she wants. Throw a hot male best friend (Tanner) in the mix and you have yourself one recipe for disaster.

Overall, Tag Chaser is a sweet love story you will get lost in. Corbin is insanely attractive and has a personality to match. His relationship is one of those where forever just won't be long enough. You can feel his connection knowing he is all in. The way he romances and speaks is how everyone woman deserves to be treated. Paisley was lucky enough to be able to break through her protective shield to really embrace all that was being offered to her. It will never be easy for her and she may run again someday but hopefully it will always lead her right back into the arms of the man she wants to believe is her happily ever after.

Every road leads to a destination. No matter how long and winding the path may be, the end will reward you. Paisley was rewarded with her willingness to forgive her father and believe in the magic of love. It took her awhile but she figured out you can't ever get hurt if you don't put yourself out there in the first place and truly live.

4.5 Stars!

I loved this book. I am a sucker for a book with a man in uniform and on top of that a sexy soldier?! You can sign me up! This was really good. It was funny, heartwarming, sweet, sexy, and had enough angst to keep your heart pumping. This book took me on a such a sweet and fun ride that shows you sometimes love is worth fighting for.

This is Corbin and Paisley's story. Paisley doesn't do commitments. Damaged from her past, relationships are out of the question. When a bet is made, she thinks she has no problem winning. She is going to find that

sometimes fate has other plans and what you have been running from is the best thing that could ever happened to you. This comes in the sexy soldier package named Corbin. He is going to push her limits and tear down her walls. He is going to make her think of possibilities. Will Paisley stop running and give Corbin a chance?

I loved Corbin! I admired his determination and perseverance with Paisley. He was also super sweet. I liked Paisley though I wanted to throttle her a couple of times even if she was damaged and totally pulled at my heartstrings. These two had a lot of sizzling chemistry. I was rooting for them from the beginning.

I highly recommend this book!

I have to say, I had not idea what a "tag chaser" was when I started reading this book, but when I got to it, I could totally understand why our leading lady Paisley is into it. Helloooooo, who doesn't love a man in uniform

But Tag Chaser was so much more than just going after hotties in uniforms - though that is exactly what Corbin is!

It is a sweet, sexy romance between two damaged souls.

At times I wanted to shake Paisley for being so damn stubborn. How Corbin didn't walk away right from the beginning, but I was glad that he stuck it out.

Tag Chaser had sweet time, sexy times, dead set HOT times. I liked that it didn't take me on the journey I was expecting, and I thoroughly enjoyed reading it.

Thank you to the author for the copy for review

- The author's writing is pretty good.
- It wasn't a bad book- just not my cup of tea for the storyline.

A few things kinda ruined this book for me.

#1- Paisley's Dad. I cannot stand this type of storyline for cheating- He had a wonderful marriage and then inexplicably he was drawn to this other woman who he leaves his family for. His wife of 20+ years catches him cheating and he doesn't apologize for loving the OW and leaving her for the woman, but does say he was sorry it turned out that way. What a complete douche- add to the fact that he traumatizes his daughter view of relationships forever and then wants her forgiveness for leaving his wife and daughter for the other woman. Then Paisley goes to him and forgives him. What he did was inexcusable. The way he explains it just left this horrible feeling in my gut because he doesn't say that there as anything wrong with his marriage- but that the new wife (OW) Janie just made him feel so alive- what a crock of shit. Like I said this just ruined it for me completely. I know I know- a totally small storyline that shouldn't do it, but I felt like that situation was just awful.

update- just read this article that goes so well with this story- <http://www.dailymail.co.uk/femail/art...>

#2. not a fan of instalove

#3. Paisley ran WAY too much. I know why, but still it just kept going.

#4. I hate love triangles. She kissed Tanner! WTF.

First, I'm going to admit to crying when it ended. I looked around and all of a sudden got so sad that it was over! Does anyone else ever do this when they finish books? I do it all the time. hehe There are so many emotions in this book! I felt so connected to this love story! I just adore an author that can connect her readers straight away. I knew the second Corbin was introduced he was my new book boyfriend. Hands down. I call dibs! Seriously she JUST mentioned him and I fell just as hard as our female lead, Paisley. I think maybe my jaw dropped too! Who wouldn't want those sexy muscled arms wrapped around them? So besides sexy Corbin, what will you find between the pages of this adorable cover? Romance. A woman who has had her dreams of fairy tale love broken by the one man that should keep them alive. Paisley won't let anyone hold her down any longer than she allows. But Corbin has plans to keep her from running. He's enraptured by her and shows her in the sweetest, cutest ways. You will swoon hard for this one romance lovers!! Oh! Can't forget to mention the heat the author packs in here too! The between the sheets scenes!! *fans herself* Yummmmm! Chemistry is one way to put it. It's all over these pages! However, like any great love there are bumps on the road. Will the omissions and deceit be too much for this couple? Find out! You want to read this! I loved this book! Thank you Kandi Steiner for writing something sweet that I could get lost in. The world slipped away while I was reading this and that in MY opinion is exactly why I love to read!! I give this book my thumbs up!

This is Corbin and Paisley's book.
I gave this book 5 stars.

I fell head first into this book! Couldn't put it down.

Paisley thinks she knows what she wants out of life. Nothing. She wants to live her life do her job and not get involved with any man. She has seen first hand how love turns out, and she is jaded. She is a tag chaser, someone who only dates military men. Why? Because she can have some fun for a couple of weeks and then cut them lose when they are being deployed. It is easy, it is neat, and it is what she is used to. Her best friend makes her a bet that she can't stay away from the tags for one whole year. Well that might be a little hard, but she can never pass up on a bet. Of course, the first night she is out she runs into Corbin.

Beautiful, delicious Corbin. Only flaw Corbin has? Yep, you guessed it he's a soldier. It is really hard for Paisley to keep her distance and she does run several times. With all she has gone through and with her tendencies to run can Corbin make her see that he is worth it if she stays? Can they make it work?

So much drama. Misunderstandings, and lots of running.

But it was a great book that kept me captivated, and wanting more. Who could ask for more? Well I can I want the next book!

:) This story is about learning that life is not always the same way for you as it is for someone else. It is about learning to trust and learning to love with your whole heart. Thank you Kandi for a wonderful read, I look forward to reading more from you in the future. <3

This was silly. An emotionally immature young woman that only hooks up with military men to avoid commitment. A "dreamy" guy (really, she called him dreamboat) that's probably hiding something (it's not like she didn't know he had "someone", she just chose to ignore it, and then she was hurt when the "secret" came out. Stupid) and a best friend who has feelings for the h, and she does too, but then she doesn't know, but she still keeps making out with him even after starting a relationship with the H.

All of it was just silly drama. But what made me really mad was the dad. He was the perfect dad and perfect husband but all of a sudden he abandoned the wife and daughter for another woman. He claims he loved the wife so much, but she wasn't making him happy, and feel alive. Yeah, that's not love. That's selfishness and he's not a good guy. And the fact that the h was emotionally scared from her father's unfaithfulness, but she still didn't care about the possibility that the H had a wife or a girlfriend somewhere else, because she wasn't serious about him makes me dislike her even more, and that she's making out with the friend after starting a relationship with the H. She's incredibly selfcentered.

And not to forget, I Hate Insta-love stories.

The whole book was just really silly.

4.5 Chasing Stars!

Tag Chaser by Kandi Steiner is one of those books that has been sitting on my Kindle for a while, but then things kept popping up and I didn't get to it. From the very first chapter, I started kicking myself that I didn't just read this one sooner! It's a cute, light-hearted story that still has a plot line with some drama but nothing overwhelming. I truly enjoyed this one, and can't wait to read the next book in the series!

“I think I’m more of a dark knight than a knight in shining armor.”

I will admit that I was a little worried with where the story would go, seeing as what the title could imply. However I was pleasantly surprised to see that it wasn't constant hookups and baiting of men. I actually felt like there was substance and a lesson to be learned. Paisley is one of those characters that you develop an instant liking for. There was something about her that pulled me in, which helped me to relate to her but also understand her dynamic with the other characters. As a reader, I could understand the quick attraction that Corbin formed. She was strong and independent, but as the story continued on, she learned that needing someone else doesn't always mean depending on them. I also greatly admired the way she was forced to face her own demons. That particular scene pulled at me from a very deep place due to my own personal circumstances.

“Sometimes you just have to walk out on a limb, knowing you could fall thirty feet to the hard ground, just to see if that apple on the edge is worth the risk like you think it is.”

I also loved the leading men of Tag Chaser! Corbin was instantly protective and mysterious, while still being forthright about his feelings. It was honestly a trifecta of perfection for me! As the book continued on, I love how dedicated he became to his attraction and how he felt toward Paisley. There was just something about him and I can't pinpoint it. I think the thing that struck me the most was the way he allowed Jack to live on in a way. He made sure that his best friend had a legacy, and it's one of those admirable characteristics that tells you he's a good guy. I also absolutely adored Tanner! He was dependable and supportive, and one of those guys every girl should have in her life. Not to mention, I'm such a sucker for friendships between a guy and a girl, whether it turns romantic or not. Paisley and Tanner had all the right parts, but not the perfect timing. I think it's a skill when an author can make you fall in love with two different characters for similar, yet completely different reasons. I definitely can't wait to hear more about him!

“Sometimes the last thing you need is the only thing you want, Tanner. I can't help what my heart feels.

Tag Chaser is a great fun, quick read. It's an insta-love type story, and even though I normally attempt to steer clear of those, I'm glad that I gave this one a chance. Somehow, I fell right along with both Paisley and Corbin which helped the author's cause. There were a handful of grammatical errors, but other than that, it's written superbly well. I felt myself being sucked into a world that I never wanted to leave. Luckily, I don't have to just yet! ;)

Trish Mint says

Its all in the title, Tag Chaser. Paisley Bronson is a Tag Chaser. Truthfully I had NO idea what a Tag Chaser was. So this was all new to me. Paisley only dates guys with tags, yeah I get it now. Army guys, HOT Army guys. She has some serious issues with commitment and does not want a relationship. Easier to just meet a guy, have a hot hook up, and then call it a day when he is deployed. That way there is no hurt, no commitments, no strings. But Paisley's best friend McKenzie has other plans. A Bet. A bet to see if she can actually date a normal guy, no tags. Maybe even try for strings....Try and date and have an actual relationship.

And in walks Corbin Ray. HOLLA!! Love this hot piece of ass!! Corbin is just smoking...Tall, dark hair and his eyes..these blue eyes that stare deep into you..Um hello Dreamboat!!!

So here is Paisley's chance to get to know a "normal" guy. And they get to know each other all right; they hang out, and talk...and kiss and get all hot and heavy!! But low and behold she finds out that Corbin is in the freakin Army!!! Are you kidding me?? There goes the bet....She doesn't want to lose the bet, and tries to back off but there is something more about Corbin that she needs. Something she craves. As fate would have it, he is now her new client at the advertising agency she works for and she must work closely with him.

Paisley and Corbin form a fast physical and emotional bond. I tell ya, he made me melt. He was so attentive to her, and he cares for her.

"I've never felt the things I feel when I'm with you, It scares the shit out of me." - Corbin

Everything about their relationship in the short period of time is inviting, and believable and endearing. Their back and forth text messages made me melt. It's perfect, she's getting what she wants finally, a great guy that cares about her, makes her want more. I felt everything she felt for Corbin, all her feelings, it all felt so real

Then just when I am sold on Corbin I swear you get thrown for a fucking loop, and in comes Tanner, Paisley bestest friend. And he's fucking HOT!! Who has a HOT best friend and doesn't lay a hand on him?? Paisley, seriously how have you not gotten involved with this boy? But you know what, Tanner loves her to death. And reading the scenes between the two of them, I wasn't sure who I wanted for Paisley. Tanner or Corbin. I actually LOVE the connection Tanner and Paisley share. They have something, something great. And he wants more!!

Men...they always know when to come along at the wrong time, just when Corbin is doing the right thing. Paisley is torn. I would be. Tanner is so easy, they are so easy together. But Corbin, he has her heart.

"I want to kiss you, I want to kiss away all the pain in your heart, all the doubt in your mind that tells you you're not the most beautiful girl in the world, Please, let me kiss you." - Tanner

Really Tanner??? OMG this guy is killing me.

Okay seriously at some point it all goes down, and I swear I was having a heart attack reading. My heart was racing, I was reading way too fast. And yes crying. I needed to pick my jaw up off the floor, literally. Deep breaths Trish, deep breaths.

"It's like everything in my world is crashing down around me and there's nothing I can do to stop it, nothing I can do to even salvage a tiny piece of what's left of me." - Paisley

Hearts are breaking all over the place. Is it too late??? Corbin is being deployed, can she fix this??? Just too many things are said, too many lies...I swear this book is so real, and angsty.

The author does such a good job of making you feel so connected with these characters in such a short period of time. And its so beautifully written. What an emotional read for me, I was just all over the place. I wished there was more. I didn't want this story to end.

I highly recommend this book; it's a great read, great writing, great characters, great plot....Highly Schmexy!!

I LOVED this story! I have been in a reading funk lately and this was EXACTLY what I needed! I had NO idea I was going to love this book. It was perfect. I of course think the Rachel thing could of been avoided had she just asked Corbin, but it makes for an interesting story. I loved her baking, it was nice to see the passion she had for it. I truly hope there is another book and she gets maybe a bakery? I want a wedding and babies and I just do not see it as being over, or maybe I don't want it to be! I loved Corbin and even though I do want more, it did end perfectly and it honestly does not need more, I just am greedy. Haha. I was worried for a bit at the end how they were going to get their HEA and in time, then I kept thinking maybe the author was going to break out hearts with him being deployed, but no. I am so happy and pleased with this book. Paisley was a tag chaser (ps- I have never even heard of the term and I loved the idea) she has been chasing "tags" for years. Her father royally screwed her up for all men. Until one night a knight in shining armor steps in, he is a dream boat and Paisley cannot help but swoon over him. of course she has just made a bet with her best friend to not chase any tags for a year. So when she learns Corbin is in the military she tries to run and get away as fast as she can, but she cannot help how she feels. This story was truly wonderful and I loved it. A must read for sure.

Some quotes I enjoyed:

" So let me be the bad guy,"

"But I still think we could make a pretty good story together, "

"We have to believe that at the end of the day, the love we have is worth all the bad stuff, because all the good stuff is what makes it so amazing."

"But I promise you one thing I won't do. I won't give up on this, on you. I'm not going anywhere, and I'm not letting you run away from me unless you tell me that`s what you want."

"If it was up to me, I'd keep you here forever and the round would never end."

"Sometimes you have to walk out on a limb, knowing you could fall thirty feet to the hard ground, just to see f that apple on the edge is worth the risk like you think it is."

"Corbin is not my easy, Tanner, but he is still the one my heart wants."

Occasionally there will come a book that exceeds all my expectations, this was such a book. I honestly cannot say that there is any one thing about this book that I loved, it was just the entire thing, there was no tipping point, from the very first words this book sucked me in and I literally did not move for a good few hours till it was finished. It made me smile, it made me laugh out loud, it had me white knuckling the kindle in parts and chanting no no please no. It just got to me. This is the first book I've read by this author and it has thoroughly won me over, it certainly won't be the last. I love the authors style of writing, everything just flows so well, there were no points that it felt stilted or like something was just there as filler, every moment seemed to have its own relevance in making the story the masterpiece it is. I will admit to not actually knowing what a tag chaser was when I started the book, but it wasn't long until I got it. Which thankfully meant I didn't spend half the book wondering where the title came from. As for the characters, Paisley was pretty much a typical twenty-something, but with some very personal issues. Although they do have an effect on her life, she doesn't really turn into the poor pity me stereotype that you often come across in books. She still lives her life, has good friends, and just generally gets on with things. She has two best friends, McKenzie and Tanner, both of whom I adored, McKenzie had some awesome lines, was super supportive and understanding and just generally everything you'd want in a best friend. Tanner too was an awesome friend, total hottie and possibly a bit of a heart breaker but ultimately, there for Paisley no matter what, they did have some bumps along the way but then when you're that close to something its pretty much inevitable that there will be times that things happen, to me it just added an extra dimension of reality with that happening. Of course when we talk about the character we can't forget Corbin, what a sweetheart. It was pretty much impossible not to fall in love with him, as it says in the blurb, he's practically perfect. The thing is you never quite know how things will turn out, while its not really a will they won't they you still have the suspense of being unsure how it'll turn out, no matter how much you wish for the happy ending that you hope they get. I felt my break at some points of story, everyone has a past and most of them have sad parts, Paisley and Corbin are no exception and its hard to know if this will ultimately bring them together or tear them apart. The good thing though is that there is no cliffhanger, so no matter what you want to have happened, you will know if it has or not when you get to the end of the book. Honestly, I would recommend this book to pretty much everyone, it does have some steamy moments which are done tastefully but at the same time have enough heat to keep probably everyone happy without going overboard. My best advice would just be to give it a try, I sincerely doubt you will be disappointed.

Cassia Brightmore says

Have you ever found yourself completely immersed in a book? Just swept away with the characters, emotions, the drama and heartbreak? That's how I feel about Tag Chaser - this is one of those books that I just got lost in right away. The story was spellbinding, the writing creative, emotional, funny and packed full of the lusty love scenes that I love. I was chosen to read a copy of this book, and I couldn't feel luckier. These characters have found themselves a place in my heart...Kandi Steiner - you've made me a fan for life with this one little book (oh who am I kidding...it might have had a LOT to do with Corbin as well...).

When we first meet Paisley Bronson, I felt her pain right off the bat. She's a young, intelligent beautiful woman - who is silently suffering from past hurts. She avoids intimate relationships with men like the plague, allowing herself to only get involved with men as a "tag chaser". A woman who only casually dates

military men...men that disappear, offering her the chance to stay unattached and emotionally shut off. I found this to be heartbreaking - it clearly showed us how hurt Paisley had been in the past, and how scared she was of commitment. Being a tag chaser was her defense mechanism, the way she protected herself from being hurt. Paisley's best friend McKenzie was such a fun-loving, outgoing girl. I loved how she straight up let Paisley know that her tag chasing ways were ridiculous and needed to stop. Forcing her to see that she deserved better, she makes a bet with Paisley...a bet that demands Paisley give up being a tag chaser and finally let someone in.

Corbin Ray...sigh...Corbin Ray. Dreamy, sexy, passionate, and a soldier. Is there any better combination? Corbin and Paisley have a chance meeting at a nightclub and the sparks between them are immediately electrifying, the chemistry sizzling...seriously, he is one drool-worthy man! After a few more sightings...and a wickedly hot (almost) love scene...Paisley learns something about Corbin. Something that weeks before, she would have welcomed. He is a military man. And she has made a bet to swear them off for good...

What I loved most about this book was the emotion. It wasn't your typical boy meets girl, drama ensues, and then they get their HEA. Far from it, this book will grab you with how real it is, the insecurities that Paisley feels as she struggles with her feelings for Corbin are completely relatable. I don't think that there's a girl out there that hasn't felt what she feels in this book. Now, there are moments when those insecurities consume her and although her heart is telling her to run one way, her feet take her running right out the door. This will have you yelling at her in a Paisley-get-your-little-ass-back-there-and-finish-that-love-scene!! kind of way. At least, that's what I did.

Corbin isn't without his own past. There are things that have held him back from love as well, watching him open up to Paisley and try everything to tear down her walls truly showed his character. He's a man worth loving - and sexy as all hell. But let's not forget there's the little fact that he's a soldier...

If you love a good romance that you can really sink your teeth into (and no, I don't mean Corbin's delicious ass, calm down ladies), then you will want to give this book a chance. Oh, I almost forgot - if you're anything like me and live for a good love triangle - you won't be disappointed. Hmmm, I did mention Tanner right? ;)

What will be the outcome of the bet? Will Paisley finally let her guard down and give Corbin a chance? Will love conquer both of their pasts? And WHAT does the love triangle have to do with it?

Tag Chaser - pick it up and find out, you won't be sorry.

***J* Too Many Books Too Little Time says**

Paisley is a tag chaser....she chases military guys knowing that there is no longevity. They can date, hook-up, whatever and then in a few weeks time when they deploy, etc she can move on to the next one.

Paisley makes a bet with her BFF that she can not tag chase for one year, she'll meet a "normal" guy and actually see where the relationship might go. If she wins, Paisley gets her BFFs Jimmy Choos. If she loses, Paisley has to tell her BFF what happened to make her a tag chaser to begin with.

Which quite honestly, I thought her reasons were

But whatever. Their first night out, Paisley meets Corbin. He rescues her from a dance floor clinger and she ends up going home with him. While Corbin makes a late night call ***queue the red flags***, Paisley snoops through Corbin's bags. She finds some ARMY clothes with his name on them and runs.

Quite honestly, she ran a lot. Paisley's attracted to Corbin, but she made this bet. She can't lose....

Corbin is only in town for a few weeks. Paisley finally gives in to her feelings for Corbin and gives him a chance despite the bet.

Sadly, I found the sex to be too fade to black for my liking.

Things kind of turned for me here. It almost turns in to a love triangle with one of Paisley's BFFs from college, Tanner. He has apparently been harboring feelings for Paisley and decides to act on them now that she's met Corbin.

She doesn't even tell Corbin that she kissed Tanner.

Of course, Corbin also has this mysterious Rachel person that he makes late night phone calls to, etc. Paisley tries to give him the benefit of the doubt, until she finds out that Rachel is actually his girlfriend. Or wait, is she? Paisley runs instead of having a conversation with Corbin...in to the willing arms of Tanner, of course.

Drama, miscommunication, lies, cheating.....

Kind of ruined it for me.
