**Talson's Test** Marie Harte

Book two in the Talson Temptations series.

Zaret Talson 'Or Fal-Z-knows what he wants, and it isn't a mate. But when he's besieged by dreams of a sexy woman scorching the skies when she's not entwined with him and his brother, he fears the dreams are a sign of his future.

His brother looks forward to the threesome-all the fun without the commitment. Z wants to run the other way, because he'll be tied to her if she proves to be his. He's foreseen it.

Adri 'San Fal may look human, but like Z, she's Otra, an alien species not altogether welcome on Earth. Part of a particular clan of Otra who can handle fire, she's blonde, unlike the majority of her kind. Hiding in plain sight is easy-until her past finds her. Desperate to escape, she runs into the one man destined to be her doom, or her salvation.

I so enjoyed the first book in this series, so when this one fell flat in jumbled mess, I was so bummed. I really didn't feel much for either MC. They are both super perfect looking and being aliens with lots of money and long lived. There was nothing to make me feel sympathetic with either. There's a lot of sex, but it wasn't particularly titillating and came at the expense of the story. Not really sure what the story was? It never really went anywhere. I've actually forgotten much of it already...

zaret and adri has been having dreams about each other, and val is zaret's eda.. i felt things went alittle to fast in this book(of course things went fast because this page wasn't even 100 pages), like adri was running from the 2 men that she has been promised to, and then bumps into zaret, who made val fight off the 2 men while he fucked adri against the wall...people who like lots of sex, i guarentee you wont b disappointed...its like in every part of this book. zaret at first didnt want a mate, or a female that would steal his heart away, but after he meant adri he was sure he would do anything for her. Roake plans to have a wedding and adri's brothers accept her new mate..as for her dad..idk yet but i think he will accpet zaret.

Unlike the first book of the series, this one has more of the 'fated mate' trope, and a lot more about how totally hot the heroine's boobs are, which ... meh. There's a bit more of storyline involving conflict - with her family, and then with a rival shipping company, but then the latter just turns out to be sequel bait, which was disappointing. Not a bad read, but definitely overpriced for the length.

In the second novella in the Talson's Temptation series, the year is 2109, and the humans of Earth had made contact with the Otra aliens years earlier. The Otra are now living and working on the planet, but there's prejudice between the two groups.

Zaret Talson 'Or Fal has been having the hottest dreams of a woman he's never met, but therein lies two problems: he's waking up with his body and sheets literally on fire, and his brother is also having sex with the woman in his dream. Though Z fears he's going through the Testing—an Otra ritual where a male finds the female he's suppose to bond with for the rest of his life—he's determined to stay single, but his plans go awry after his shipping mogul father sends him to Earth to manage a problem with the family business.

Adri 'San Fal is a rare, powerful female Otra who can control fire, and she's now living on Earth after fleeing from her controlling but well-meaning family. But then her pursuers find her, and she flees again, only to run into Z and his brother Val. She's been having sexual dreams about both men, but Z is the one her heart calls to. She's going through Selection—an Otra ritual where a female is ready to find a mate and/or have children—and she can't deny her need any longer.

Z and Adri are stubborn, highly sexed characters with lots of passion between them. I enjoyed how they learned to trust one another and their own feelings. The sex scenes were scorching—I especially loved the threesome scenes—and how the H/h's lust quickly but believably turned to love. The next book in the series is set up, and I'm anxious to read it.

Finally one story where the protagonists seem accept not the destiny of mating but face this with fun and sincerity ,without hypocrisy. So the story is lovely, exciting, with hot scenes sex and some action scene.
