I love this series! When it started it was like it was going to be one of those cute cozy paranormal mystery series that I love so much and it was but it became more complex and so much more than that. Ms. Harper keeps you on your toes, with the who's who, the what's what and the where the heck are they now? Jinx and Tori have really come a long way since coming to Briar Hollow...I still root for Jinx and Chase, sorry Glory your sweet and all but I'm team Jinx all the way here? I can't wait to see what's next for the group. I won't say any more I don't want to ruin it for those who have yet to start the series. ?

Like earlier Jinx Hamilton books, this one is filled with all your favorite characters. It's a pleasure to discover a new title in the series. And in this tenth installment, things were a bit calmer which made for a nice change of pace. There was a lot to keep track of but I'm hoping it's an introduction to many more books. Please keep writing about Briar Hollow and the adventures of this group. Reading each page is an escape from day to day life that is terrific!

#### **Great Jinx Hamilton**

There is less angst and action in this one, a sort of Jinx Hamilton "how I spent my summer vacation", though some of the happenings are critical to the ongoing story. It was an enjoyable afternoon read, and if you're a Jinxie fan don't miss it!

#### **A Jinx Hamilton Mystery book 10**

This was another winner I just love all her different magical characters. I also learn the magical history. Even though this is a fiction book. Who's to say it could be true. I highly recommend all the whole series off books to everyone who loves witches and magical creatures. Diana Romano

The first half of this book was soooo sloooooow and again this book felt as if it should have been two different novellas instead of being touted as a book. I was going to give up but the book finally got a bit better (more confusing) but somewhat better. My curiosity got the better of me and I did manage to finish it.

And that goes against the rule I normally have for myself -sitting through crap hoping you'll get to something good. It takes one sip of milk to know that it's spoiled, so why should I give a book more than 25% before I toss it?!

I am noticing editing errors that I didn't notice in the first bunch 'o books.

#### **I must take my leave...**

I can't write much of a review as I feel the need to run on to the next book. Still hoping I do t have to go all Brenna on Ms. Juliette if there aren't several more books waiting for me to read when I am finished with book 11. ?

#### **This series only gets better**

The characters are enjoyable the story line is fun engaging, and makes you want to keep in reading. Jinx and her family are relatable, and you just got to love Festus sometimes.

#### **Great book**

Another great book in the series. Loved it. The only complaint I have is it seemed like a filler book. A kind of I n between book that just kind of sets you up for the next one opening a new plot line

### **Oh dear.....the books ends in yet a new direction**

I guess the Isherwood and Chesterwood drama's are behind us. Now, it's the Scandinavian Witches and possibly a potential War of The Witches that is on the horizon. This is like a Harry Potter series (with a little dumbing down) with no ending in sight. Still....it does hold your interest. This, though, was my least favorite in this series. It basically a rehashing of the story with a quick tidying up at the end and a seque into a new story line.

The writing team of Patricia Pauletti and Rana K. Williamson, known under their pen name of Juliette Harper, did it again. The Jinx Hamilton series continues to suck me into the magical world, spin me around, twist and turn me with surprises, and make me want to be a part of the incredible world they have created. You may notice this one took me a bit longer to read because, well, life interferes at the most inopportune times! I like to take my time with these books - if you rush through them, you will undoubtedly miss an important detail that becomes important later on.

Not losing an ounce of steam that has been building since book 1, I don't read these books, I devour them.

If you love magical worlds filled with incredible life forms, each with their own stories to tell, if you love being swept away from your daily life into a wonderland rich with characters and described beautifully, you will love this series.

See my reviews for the first 9 books here on Goodreads. All are wonderful!

### **Aw crap, another cliffhanger!**

These stories are too good for cliffhangers! I would have given 5 stars without it. Fun, humor, suspense, adventure, this book has it all. And wonderful characters, too!

**Patti Brennan says****Fabulous**

I adore this series and this is fantastic the imagination of the authors the characters they have developed and the new ones they keep bringing into the series make for lively ,wonderful reading and I can hardly wait for the next book

**Jo-ann says****More surprises.....**

Jinx and crew are in Londinium to make sure Barnaby is after stepping in front of Jinx to keep her from being assassinated. Jinx has made a decision to work with both DGI and IBIS to keep those from the Middle Realm safe until they can be educated on all Realms. On top of this is the rumors going around Briar Hollow. Up coming Halloween should be interesting.

Our heroine and friends are trying their best to keep the paranormal and Fae safe and from being brought out to the human's attention.
