All That Glitters Isn't Gold Anne Mazer

What's Abby to do when what she wants surprises even herself?

"All that glitters isn't gold" -- Rags to Riches Calendar

Abby's never cared much about having the latest, greatest thing. But Brianna has the brand-new MePhone, and suddenly Abby is green with envy. It's all she can do convince her parents she needs any phone at all, much less the top-of-the-line model. And then there's another problem: When Brianna loses her phone, Abby's the one who finds it. Does she really have to give it back?

Angel says

It was good

Adiva says

I think that Abby was wrong to lie to the most popular girl named Brianna. I also hated that part. My favorite part was when Abby got a cellphone because cellphones are so much cool. Also, cellphones have so much cool features. It would be amazing to have a cellphone. This was the part I liked the best. Also it was wrong for Abby to keep Brianna's Me- phone.

good book!

Lilly says

Abby wants a phone or a mephone

So GET this-

I only read this book because the covers got a makeover, and I knew that I would be amused with my dislike for the main character (I flipped through some of her other books). You know when you want to read a book to get angry at a character? Get proof that they deserve all of your dislike?

Abby is SUCH a hater. That is all. I dont see how I'm supposed to like her. Thats all.

A basic book, but absolutely cannot get on the main characters side and her petty, hypocritical, self absorbed, but thinks she is so underprivileged and sweet, ways. She constantly thinks she is the victim. Dont let your kids read this unless you want them to think its justified to be a hater, lol. Yes- That is all. - Zoe

(P.S. I read this years ago, but I had to get this out.....Mabye I'm a petty hater.....nah, I doubt it.)

good book

Danielle says

it was alright, but its kind of young. I borrowed it from my little sister, who can probably relate to this better than i can. I mean, i started reading these, abby was older than me. Now im several years ahead of her. its strange. but whatever.
