(Have read the Greek version)

Naomi Ruth says

So this is another one of those books I'm not sure how to rate.

It is a very short ebook, only 27 pages, half of it is composed of quick one page sketches of an Olympian (or two in the case of Apollo and Artemis) and the other half are sketches of the twelve Olympians. I enjoyed the illustrations a lot (except Artemis, because I felt like she was too sexualized, but I have Strong Opinions about Artemis. The illustration for Hermes, however, was perfect. The written part of it didn't do much for me. It didn't add anything to what is already out there, in my opinion, and there were still a few mistakes and grammatical errors and awkward sentences that were frustrating because they should have been caught in the editing process. So. Mixed feelings on this one.

[I won this book through a Goodreads Giveaway]

This was a very quick and entertaining read about the Twelve Olympians. The illustrations of each god are delightful and they are accompanied by a few short lines about each of them. It's like a small book of character sheets.

Even though I enjoyed the read, I found the "character bios" a bit too simplified in some cases. But I imagine the objective was just to give a small introduction for each of the Twelve Olympians.

The text in this edition feels a bit unpolished though. I've found double spacing, a letter out of place and some other things. Still it's a cute book.

Anna Spiridaki says

In just a few short lines, for lovers of Greek Ancient mythology, for lovers of classy humor even in Greek mythology, for lovers of smart, discreet, unconventional though faithful to the sources, for lovers of aesthetically artistic comics "All twelve ARE wonderful" to read!!!!!!

"All twelve" ARE a not just a... good read, but a must read!!!!!!

Extremely well done, girls!!!

Looking forward to your new work!!!

Fahmida Shaikh says

All 12 were Wonderful is a book written by Myrto Gkiouli and illustrated by Eirini Skoura both are very beautiful and talented soul. This book tells about the Gods(All 12) their symbols and bio.. With what they actually were and their powers and relationships... Illustrations are just eye catching. What an amazing creation of book. Very beautiful. Loved it.
