Sarah

I was just six months pregnant when I lost the man I was going to marry. Mouse was caught in the crosshairs of a war between the Kings of Korruption MC and a rival club, leaving me to raise our daughter alone. Brokenhearted, angry, and terrified, I struggle through life, determined to raise my daughter the best way I know how.

Since the day Mouse was killed, Bosco has been tasked with watching over us. As time passed, he became a part of the family, a man my daughter can rely on. A man who has never let me down, and whose intensity makes me weak in the knees. But that man is part of the same club that got Mouse killed, and there's no way I can put myself or my daughter through that a second time.

Bosco

Taking care of Sarah and her daughter may have started out as a duty handed down to me by the president of my club, but now it's as vital to me as breathing. Now I've become attached. I've learned how kind, brave, and sexy Sarah is. I was even there when she gave birth to the little girl that captured my heart the moment she took her first breath.

My feelings for her have turned from friendship to an all-consuming passion that threatens to burn me from the inside out, but I know she's not ready. So, I wait. I wait while she takes the time she needs and stand by while she grieves. But when the world as we know it is rocked on its foundation, I can't wait any longer. I need to prove to her that it's okay to move on, that we need each other. That I will do whatever it takes to make her happy.

Wow, that was some powerful stuff, made me cry more than once, but to be honest I wouldn't have read it if I knew what was it about, I hate stories like this cancer is not something I want to spend my free time reading about. So great book dreadful topic.

Officially the last book in the Kings of Korruption MC series, this was less about the drama and conflict but more about the family and brotherhood of the MC. Such a fitting end to the series (although I know we will still see the characters in future books of a new series)

After losing Mouse to a drive by at the MC three years ago, Sarah has struggled to cope with having a baby on her own and everything that entails ever since. However the MC have not forgotten her and have continued to support her with Bosco assigned to watch over Sarah. However Sarah is a strong and stubborn woman and hides a lot of things to keep that distance from the MC who she blames for Mouse's death. Bosco is just as determined to push past her constraints and show her that the MC is family and looks after its own. When a devastating diagnosis is given, it is Bosco who is mainly there for Sarah but also all of his MC Brothers and their women.

This was an emotional storyline full of heart wrenching scenes, especially with Sarah, Mille and Bosco. I knew from the author's front note that I was in for an emotional time and tissues might come in handy! There were a lot of heart searching, anger and passion to work through for these two to get to their happy ending. It was a slow burn to get there but the trauma of Mille and Rachel were an added depth to the romance storyline.

Both characters were deep and complex which that was due to the author revealing the difficulties and devastation both had dealt with in the past that gave me as a reader a deeper insight to the person they had become.

I'm not sure if having added drama from the MC would have given this more but I for one love the brotherhood of an MC and their kindred for each other which was definitely the feel of this book. Overall an engaging and emotive read that I was unable to put down until I had inhaled all its depths unto me.

There's never a time that I'm not down for a rip roaring exciting ride of suspense & chaos with MC stories, but I have to be honest, what the brilliant Geri Glenn did with Bosco was amazing, and I couldn't get enough of the family side of MC's that she portrayed. So a big BRAVO for Ms. Glenn going out on a limb and penning a highly original story that hit me in the feels big time! It all starts out when Sarah loses the man she loved, Mouse, who was prospecting for the Kings of Korruption MC, when she was 6 months pregnant. It messed with her badly enough, that she did everything she could to cut ties with the MC afterwards, as she blamed them for the war with a rival club that left her raising their baby alone. Fast forward many months, Sarah has been working her behind off trying to take care of her daughter, and still won't ask anything of the MC, even though Bosco has been tasked to watch out for both of them. It's gotten to the point that her utilities are being shut off, so Bosco is putting his foot down. He's been secretly in love with her for a while, but Sarah has friend zoned him big time, as her walls are sky high. But when life takes a big swipe at her, Sarah is going to have to learn that she has family at her back whether she likes it or not, because she's going to need them. OMG this story hit me hard, as Ms. Glenn really did her homework, and every bit of it came off realistic, and I had a hard time breathing at times from the emotions flying at me. I loved Sarah, even with all of her stubbornness, because some of her decisions had me wanting to shake her. And frankly, I loved Bosco, and didn't want to shake him at all, which is a miracle. With the cast of secondaries adding more depth, and humor, especially a tiny human who liked to paint big bikers nails, it was a beautifully written, emotional story of the family you choose! CANNOT WAIT for the spin off, and HIGHLY HIGHLY HIGHLY RECOMMEND TO ALL!

I feel it is only fair to warn you that the beginning is an emotional turmoil, one where you really feel such heartache and this does continue on and off throughout the book. Such fabulous writing by this author, she certainly has a way with words that makes you feel a part of the story.

Bosco, aka Scott, is a King's Korruption MC member who prospected with Mouse. Sarah and Mouse were an item until they weren't and although she still has Bosco visiting, she isn't happy about the club anymore.

Bosco is an honest character who is a little hard on himself but he is such a beautiful soul. Sarah has to deal with so much at such a young age and her plight is 'real life' making it feel like it could be someone you know. As much as my heart ached at times for Sarah there was a time or two where I could cheerfully have shaken her! Then again that is what good writers do, they get you totally invested in the story! And I just want to add..go Ryker! ?

There are life lessons to be learnt in many stories and this is one of them for sure. I appreciated the fact that this author didn't sugar coat things but instead helped us to experience life in a different way. It might not be everyone's cup of tea but it's better than experiencing it for real and gifting us an insight that hopefully makes us better people.

I am so pleased with the very end but...my lips are sealed! ?

What a great end to this brilliant series, although I feel we will be seeing a lot of the characters in books to come. I had a real emotional time with this book, things like this are never easy to read, especially when you are dealing with a small child.

I found this book although was really good, it had a lot of holes in it, I wanted and I guess I needed more. I felt it jumped and skipped things I wanted to know more about. It doesn't detract anything from the book, in itself I guess its a personal thing for me.

Sarah and Bosco were always on the cards when the club thrusts them together after Mouse's death. And although it was beautiful, hot, heavy and a long time coming. I felt it again lacked something that wasn't written. I guess again I just needed more. Millie completely stole the show for me in this book.

I do really recommend this book as although I wanted, hell I needed more. It was good and did indeed round off this series nicely.

This is the fifth book in the Kings of Korruption MC series and I will be honest, I went in blind with this book as I had not yet read any of the other books in this series. However, after reading Bosco that is about to change because Geri Glenn will have you hooked within the first chapter. Bosco isn't your typical MC romance as it doesn't contain the grit and edge that are normally part of the story, but do not under any circumstances let that put you off. This book is emotional and will have your heart aching for what Bosco, Sarah and Millie will endure. After Sarah's fiancé is killed in a drive by shooting her care is entrusted by the club to Bosco in support of their dead brother. After 3 years Sarah still holds the club responsible and keeps them all at arms length. For 3 years Bosco has looked after Sarah and her daughter Millie as if they were his own even being there for the birth of Millie. Bosco knows that what he feels for these two is love but convincing Sarah might just be harder than he even realizes. As Sarah's world is thrown into turmoil with the worst news she could ever face it is Bosco and the club that have her back. Sarah and Bosco must face up to truths and at last confess secrets that are holding them back. Their story is one that will break your heart and at times will fall close to home for some, but it will also show you that family doesn't need to be blood. Bosco's story although at times painful, is one full of inspiration and love. This is a totally addictive story and one you will find you will not be able to put down.

When I read the author's ramblings at the beginning of the book I knew I was going to need some kleenexes. I was almost in tears reading the first chapter. Reading about cancer is hard on me anyway. My heart truly

broke for Bosco. The pain he felt at a young age took him on a spiral down. It is good to know he was able to find his way out of the darkness.

I did wonder how long Bosco was in love with Sarah. I know in the book it said at least three years. But I had to wonder if he did not start loving her even before Mouse died.

I can not imagine what it was like for Sarah. Here she was pregnant and now being told by her fiancé's MC that Mouse (her fiancé) was dead. Her world was caving in. I loved how Bosco was there for her from the get go.

I am a huge lover of MC books as long as they are written well. I loved how this author wrote this book. The author truly showed the brotherhood, the closeness, and the bond that the MC has. It did not bother me that this book did not have drama in it. Don't get me wrong I don't mind it from time to time but it was nice to see a book focused on what the MC is about and how they are more than just outlaws and parties.

Bosco's hurt and heartache does not end with his brother and his friend Mouse's death. Sarah will go through something that will crumble her world, even more the Mouse's death. What Sarah goes through will rip Bosco's heart into. He loves Sarah and her daughter. It was so great to see that he was a rock for Sarah and willing to help her with what ever she needed even though she tried time and time again to push him away.

I loved to see how the MC was there for Sarah as well. They looked at her as family. I loved seeing them going above and beyond for her and her daughter. It was something to see a 3 year old soften those biker boys' heart as well.

Truly a great story and glad i got a chance to read it. This book can be read as a standalone and I hope to go back to the previous books and read them as well.

This book had me glued to my kindle from the very first page with the well written and well planned plot that flowed effortlessly from page to page! The characters were strongly written and I went through all the emotions possible as I turned each page! I highly recommend reading this book!

Wow! Bosco sucked me in at the Prologue and spit me back out at the Epilogue. Watching Scott and Spencer together in the prologue reminds me of the unbreakable bond I share with my sister who is suffering from an unimaginable chronic nerve disease. If I could take her pain on myself, I would—just as Bosco feels towards his twin. The emotional start to this book was just a precursor of how Bosco's life plays out with the present-day King's. We know that Sarah lost her fiancée and baby daddy, Mouse, in a drive-by while he was protecting Laynie. Sarah has since given birth to their baby girl, Millie, and Bosco has been looking out for

them ever since Mouse's untimely demise. Sarah has been trying to single parent Millie and keep their heads above water financially, but just can't seem to keep above the current. She feels like a failure. Bosco wants more from Sarah but their relationship is haunted by Mouse's memory and Sarah's fears of becoming involved deeper with a man who is in the same club that she blames for Mouse's death. This is an emotional journey for Bosco as past fears come to life again through Millie, his love for Sarah is hanging in the balance, and we just don't know if Sarah is going to be strong enough to take on Bosco and his love, along with the club life and all that entails. We find out more about Bosco's past and when he comes clean to the club, you can literally feel his soul lighten with the unburdened secrets he's been keeping. Bosco and Sarah both had crappy parents, so they definitely know what NOT to do when raising Millie. And Millie is definitely just as much Bosco's child as she is Sarah's. Bosco steps up and throws down in his protection of Sarah and Millie consistently throughout their life after Mouse's death. I was so happy how the book ended...Bosco deserves everything and more. He is truly has one of the best souls and he shows that through his actions towards and interactions with others (Rachel). Bosco has been searching for a family he can count on and supports him in all things and he finally finds that with the King's and Sara. The King's always protect what is theirs...no matter the cost and that is the message in this installment of the King's of Korruption. Reaper is my hero...this book was so emotional for me, I just can't put it into words. Your heart will crack, then break, then be put back together. I couldn't put this book down until I had soaked up all that is Bosco...and after I had my ugly cry several times.

Bosco was the fifth book in the King's of Korruption MC series by Geri Glenn.

Wow, what an opening and it set the precedent for the emotional, heart wrenching book. There were two main plots that had Bosco in two separate directions - both were heavy topics filled with heartbreak. One was a second chance for a new beginning and a long life while the other was a fight for life for the young and innocent.

Bosco was a patched MC member of the Kings of Korruption. We learned early in the book that he had a twin brother that he lost at fifteen which changed his life forever. It's what drove him - both good and bad, but finally good when he turned his life around forever.

Sara was the "widowed" fiancé of a prospective member, Mouse, that was killed in an MC rival battle while he was protecting one of the MC ladies. He was a hero and Sara and their unborn daughter would be taken care of for life by the MC. Bosco was the MC member assigned to her and they became fast friends. Fast forward several years and their daughter, Millie, was two.

I loved everything about Bosco. He was gorgeous, alpha, strong, confident and getting past his tragedies made him a better man. In his manliness, he also had a gentleness. As to Sarah, it was hard for me to like her

but it was also hard for me to dislike her. I didn't particularly care for her waffling indecisiveness but I had compassion for all she lost and was going through, so I overlooked her personality.

In the end, it was a fast and emotional read. Glenn also set the stage for the new Chrome series, a spin off from the Kings of Korruption. Rachel is up first and it teases to be explosive and action packed.

? Officially the last book in the Kings of Korruption MC series, Geri Glenn close off this series with bang . I got to say I love these friends to lovers romance..... beautiful job lady

Reading about cancer is hard on anyone, especially if it hits close to home like it for me. I think Geri Glenn did a great job with her research on cancer & even more of amazing job on telling Sarah & Bosch's story.

This story wasn't about club wars or drama of kidnapping etc. this story was about family & you didn't have to share blood to be considered family

Sarah was devastated being pregnant & finding out that Mouse(the love of her life), was killed at the Kings of Korruption MC cookout. She had Anger & resentment issues with the club.. She blame them for her lost, she pushed everyone away but Bosco. Or more like Bosco never the her go

Bosco loved helping out with Sarah & Millie, but it's been 3 long years that he has stood by Sarah & he not sure if he can handle seeing Millie suffer like his twin did

This book showed how hard Sarah struggles not only with her feelings for Bosco but letting go of the guilt she feels for moving on without Mouse. Sarah find out the hard way that no matter what she is part of the the Kings of Korruption MC family & with that in mind –true family stand by you no matter what. It showed the true MC family & how they are always there

I must warn you: this is also a highly emotional story of loss, love, & moving on with life. So get your box of Kleenex ready

➡? Hope you enjoy this read & also always keep in mind this is just my opinion

➡ ? would I recommend this book: Hell Yes.

When Sarah's fiance (Mouse) is killed before even meeting his unborn daughter, Sarah's life takes a turn... Not the one riding off into the sunset she was expecting. Being a single mother is a lot harder than she ever imagined, but her stubbornness may be her downfall.

The club has always reached out to her, starting with Bosco. He has been there since day one. He wants nothing more than to claim his girls, but is biding his time.

When an unexpected issue is thrown into the mix we have to wonder if our duo will ever become a couple. This is an emotional read with many highs and lows. One of my favorite parts is the words of wisdom from Laynie. Another great read from Geri!

This isn't your typical MC story...it's so much more. Ms. Glenn took on a storyline that pulls at your heart. It's a story of lose, love and struggles and how to deal and possibly overcome each and every one of those things. Besides how can you not love a biker who is full of love and has learned the hard way as to how an MC can become a stronger connection than any blood family?!

Audiobook review. I loved Bosco and Sarah. I especially enjoyed the unique circumstances wherein they got together. The plot was interesting and well executed. The characters as individuals were developed well and were relatable.

The one opportunity that I felt was missed was the development of the relationship. I get that most growth happened as they were friends but I felt we were told more so than shown and I was left wanting more development outside of the circumstances they faced.

The narrators were a great fit for the characters. The tone, pitch, and fluctuations were on point.

All in all a great addition to the series. I am looking forward to the next book.
