Dragon Fae

Terry Spear

Dragon Fae Terry Spear

Seeking to save Cassie from the dark fae, Princess Alicia runs into trouble in the form of dangerous fae seers. A dragon fae, who is different from all the rest, is sent to locate and rescue her. Simple mission. All Ena has to do is find the princess and return her home. Except nothing is simple in the world of the fae. Not when two fae kingdoms are involved. And humans. And fae seers. And all the trouble that can cause.

Fearing losing Alicia, Prince Deveron is ready to eliminate his own cousin for all the trouble he has caused over Alicia's best friend, Cassie, a human she grew up with. But Micala is not giving her up, even if it means taking drastic measures.

And Ena has her own troubles when this one little mission turns into a nightmare of epic proportions.

Tanya says

My rating for this book may be a little unfair. It was not shown as part of a series when I looked it up on Goodreads so I was a bit lost in the world building but got the gist of it for the most part. The book focuses on three main couples. Two of the couples relationships had obviously been developed in previous books so there was no excitement there for me. The third was just getting interesting when the book ended - obviously setting up for those characters to be the focus of the next in the series. I was entertained, but I feel like I would have needed to read the previous books to truly appreciate this one.

Beth says

Princess Alicia secretly jumps from the fae world to Cassie's school. She will stop at nothing to protect her human friend from Micala, a dark fae. While trying to contact Cassie, Alicia is captured and imprisoned by fae seers.

Ena is a distant cousin to Cassie and a true dragon shifting fae. She is tasked with retrieving Cassie but her tactics don't go exactly as planned.

Prince Deveron is extremely angry with his cousin Micala. He's obsession with Cassie has put his fiancée at risk.

Micala is determined to marry Cassie, even if it means he kidnaps her to the fae world.

Dragon Fae is a quick, entertaining and easy read. It is one of those books that grow on you slowly but all of a sudden you are at the end (never realized it) and really wishing there was more!!! Terry Spear again created an incredibly fantastical world for you to tuck yourself in tight and enjoy. When I hit the end and had to check 2 x's that it was really over, I knew she captured me completely. This is definitely 5 big bright stars as seen on Princess Alicia secretly jumps from the fae world to Cassie's school. She will stop at nothing to protect her human friend from Micala, a dark fae. While trying to contact Cassie, Alicia is captured and imprisoned by fae seers.

Amy Kuklis says

Good

This one is good as well, though a little differently written than the previous books. This one has a lot more points of view, and I was quite disappointed through the book that Ena didn't have her own book, but finally after I read the entire book, I see the next book continues with her. Now my hopes are back up and I'm heading to purchase Hawk Fae right now. Thanks again Terry for another wonderful adventure.

Bonnie Gill says

This series keeps getting better and better

This book keeps you on edge all the way through. I love all the twists and turns in this story. Ena the Dragon Shifter Fae goes on a quest to save Alicia and gets into a mess when the Royals decide to give her gifts for her service. She's a kick-butt heroine who you can't help but wish you were her.

I really enjoyed this book and couldn't stop reading.

If you like Fae or Dragons I recommend this book.

Lorie says

Not what I expected

The summary of the book was a bit misleading. I thought the story would be all about Alicia and Devon but it was more about the Dragon shifter Ena. San saved Alicia so she was given most of the storyline. I was not happy about that. I bought this book for more of D & A. I think D & A only had about 4 chapters or less. I was hoping that the storyline more about how Alicia developed as a fae princess and on how she saved herself on her own using her fae power. Disappointing storyline for me. I don't think I will be following this

series. Wouldn't recommend this book if you only want more of Alicia and and Devon since you won't get it. Having Ena Dragon shifter in the story ruined it for me.

Yvonne Sowell says

These books are short enough that I could finish them in a day, but the ratings got to 4 stars not because they're in any sense bad. It's just pretty repetitive by the 5th book.

Kay says

I really enjoyed this story of the Dragon fae....and the difficult situations the fae and human's got them selves in. And happy most of the characters have got their happy endings /start .. I do hope though that the Dragon fae doesn't have to marry the horrible Prince.... I did not expect that to happen. But will hopefully find out in the next book???? I enjoyed this book Kay xx

Linda says

Terry creates the most incredible flights of fantasy with her books. I don't see how she does it but she does. DRAGON FAE was a quick, imaginative and entertaining delight.

"Oh, sure," Cassie said. "Take me to your faery world. I've always wanted to see Tinker Bell." Not. She'd had to watch the movie when she was a kid because her parents had thought she should enjoy some fantasy stories in her early years. What sane kid wanted to be a child forever? Being older had lots more perks.

DRAGON FAE by Terry Spear is a wonderful addition to her World of Fae series! I adore Terry's fae! They're fun-loving and there's always some shenanigans, light drama and tomfoolery going on! Every one of the books in this series are perfect for the young and the young at heart! As regards the heat level, there's some kissing, but no hanky panky to be found in the World of Fae.

DRAGON FAE is the fifth book in the series. Whereas the former books all worked well as standalones, I believe that the reader needs to be familiar with the story and the characters from the first book, THE DRAGON FAE, for full enjoyment of this one. Truly, every one of these books have been endearing treats that I can see myself listening to over again.

There's a lot going on in this tale with multiple storylines which all converged at the conclusion. Prince Deveron, Princess Alicia, Micala and Cassie -from the previous books - all play an integral part in this tale, plus we are introduced to Ena, a kick-ass dragon shifter fae, and human seer Brett.
