### **Eva Millien says**

Samantha finally meets an alpha who just might be the man of her dreams but first they have to survive the trouble that has found their pack before it can destroy them all in this sizzling erotic paranormal romance.

Samantha and Johann captivate readers with the red hot desire that flows from every page of this fast paced and smooth flowing plot and the frequent sex scenes are hot and steamy including anal sex scenes and scorching dreams. The reader can't help but get caught up in their romance because while the passion is certainly there, the relationship is no way a definite thing.

The well written scenes and details capture the imagination while the strong compelling characters grab their attention. Spine tingling tension builds as the danger to the pack escalates and interferes in Johann's and Samantha's bonding but Johann also has some other personal interest that has Samantha worried about where their relationship is going. To spice things up even more the whole pack is in turmoil and their futures are uncertain and while I found myself a little disappointed with Johann's character, I can't wait to read the next story in this series.

I don't understand why this series is showcasing such minor characters. Wish we could go back and find out what happened with Sophie and Nik.

I struggled to get traction with this story, it felt like a lot of sex with a small pepper of story. Want/expect more.
