The Chicken Squad is back for their third (mis)adventure, and this time they're facing off with whatever's hiding in a mystery box in the backyard. A hilarious chapter book from the bestselling author of *Click*, *Clack*, *Moo* and *Diary of a Worm*.

Our fluffy, fearless young detectives are back out sleuthing because there's a new cage in the yard, and the Chicken Squad is determined to figure out just who this new addition is. Because whatever it is, it's definitely up to no good. So equipped with the latest surveillance gear—which apparently includes copious amounts of marshmallows—the chicks venture into the wild to get answers. Let's just hope they can beat that giant raincloud that's closing in...because everyone knows that chickens can't swim!

Paula says

Author Doreen Cronin has a silly sense of humor, as seen previously in books like "Click, Clack, Moo" and "Diary of a Worm". She has used that same silliness to create "The Chicken Squad", a series of early chapter books featuring 4 crazy chicken sisters who like to solve mysteries. In this book, there is a new box in the backyard that holds a mysterious, possibly dangerous, creature. The sisters need to find out whether it is friend or foe. Eventually they do, but along the way there's adventure, intrigue, lots of miscommunication, and humor.

I just love this cute little bunch of chickens. Now that we are into the third adventure you can really see their separate personalities coming through. Sugar was true to her interrupting, impulsive self in this escapade. Dirt was also featured and her notes on the surveillance of the box in the yard were a hoot. Their moustaches and marshmallow belts made me laugh out loud. Great illustrations throughout.

It was fun to have mama chicken come into the story, too. Looking forward to seeing what these little yellow fluffballs continue to explore their backyard.

Nathan just loves these books with the chicken squad adventures.

Mikey Golczynski says

I still think I prefer the Alien grill from the first book, but Sugar is way out there in this, the third Chicken Squad young reader novel. There's something so childlike about how everything here gets so overblown and out of control. It's just good, fast reading fun.

My son and I read this in one sitting and laughed our way through it. Great addition to a very silly series. It was a joy to hear my 9 year-old snort with laughter at a couple of points. He acts so grown-up at times, but it was a good reminder that he's still just a little boy who loves those silly chickens and their adventures.

Anthony says

The Chicken Squad investigates a strange wooden structure that was built in the back yard, and to find out why their coop was moved across the yard away from the strange box. Thinking it has something top secret inside, the squad decides to set up surveillance on the box to determine actual facts from pure speculation. During further investigation they find themselves trapped in a storm, and have to use team work, and survival skills to make it back safely to shelter.

My 7 year old lost interest in this book pretty quick, and I can't blame him, I guess. It's not bad, it's just specific. The humor reminded me of Pixar humor, in that the jokes were often directed at an older audience then the book was ostensibly written for.

But the chickens are funny and the illustrations add an extra level of humor. Give it to the right kid and it will be a hit.

Megan (ReadingRover) says

This is my least favorite of the series so far. Not sure why but I just don't feel like it was as funny or engaging as the others.

Sheila says

The next adventure of the chicks. This time we see them on a stake out. They are funny as they prepare for the stake out then do it. Their observations are wild. Sugar doesn't let the facts stand in the way of her theory. Dirt is more realistic and they all need to pay more attention to Sweetie. Again another fun romp with the chicks and Momma to straighten them out.

AMY says

95 pages. Another great misadventure of the chickens. This one involves disguises and a mysterious box containing some unknown, possibly dangerous creature. Lots of fun! Kids will enjoy the funny dialogue of the chicken family. Highly recommended for grades 3-5.

Laura says

Short, yellow, fuzzy chicks with fake mustaches and marshmallow belts -- 'nuff said.

Stephanie says

This was pretty hilarious, but disappointed in the unnecessary toilet humor. Besides, chickens don't pee.

East Gwillimbury says

This is an early reader's chapter book, great for young children who are graduating from longer picture books.

This book is about four chicks, Dirt, Sweetie, Poppy, and Sugar, who set out to solve what mysterious being exists in a nearby box. All these chicks know is that the stranger is not a chicken! Join them on their humorous adventure to solve the case.

There are many illustrations along the way for kids to enjoy. The author of this book is Doreen Cronin.

Eme87 says

Another silly adventure with 4 little chicks. Cronin has fantastic style and humor that gets kids and adults laughing at the antics of these little chickens solving their imaginary problems.

April Moody says

A laugh out loud early reader about 4 little chicks that solve mysteries. The chicks personalities are a crack up! Great for young readers by the same author that wrote "Click Clack M00- Cows that Type"
