## **Kiss Me Tomorrow** Susan Richards Shreve

Blister is Susan Shreve's most popular character, and she's back to find out what happens when Cupid comes calling....

Blister was there for Jonah when he was the new student everyone loved to hate. Blister was there for Jonah when he lied and said he was a big TV personality. And Blister was right alongside Jonah when he turned his lie into a real job at a television station, complete with his very own show.

But now everything has changed. Because Jonah is in trouble once again, and he's looking to Blister to be more than just a friend....

I started reading this book because it was the only option when i was stuck waiting for my son in therapy. i finished it because it was pretty interesting. I am filing it under "read a book about relationships/friendship" i'm always a sucker for a good coming of age story, and this one didn't disappoint. i also really like books that are all tied up in a neat little bow. its a good read for a 9-10 year old girl.

Plot summary: Blister and Jonah are best friends and they always have been. They would always walk to school together and they were best friend! This was their first year at the jr high it was going to be crazy! On the first day of school blister was waiting for him at her house when he did not show up she started walking by herself. While she walked she thought he was going to be late. When she got to school she saw Jonah! He was hanging around some weird boys. This was the beginning of a fight she was not excited about.

Analysis: In this book there is a character named Daisy G she is a big help to blister. She is the kind of person who puts things into perspective and love you and will always give you advice about anything. She makes the story sweet and loving. She is such a good person and always tries to help others be the best they can be.

Theme: I think the theme of this book is that you need to find something good in everyone. In this book there is a guy who is a very bad guy and is a bully and is mean. He has a very bad reputation and is a dangerous kinda guy like really bad. When Blister meets him she hates him and wants nothing to do with him. Then she sees he is not that bad. He is kinda nice in an instance. So find something good in everyone.

Opinion: I liked this book it was really funny at times and it was a girly book and it was cute. It was a little like the Netflix show I watched so I liked it. It was a really book I think.

In this book is about two girls named Alyssa, and Jonah who are best friends that are just starting Junior High school. Jonah went down the wrong track when he bumped Alyssa to hang out with the cool kids. He starts to steal, and act the opposite of who Alyssa really knows him as. When Jonah gets in big trouble, Alyssa tries to come to the rescue.

I can make a text to world connection because many kids find it more important to go with the trends than be different. They prefer to be with the cool kids even if it means doing wrong. This book shows that you friends will bring you there but wont carry you back, true friends are rarely there.

I would rate this book a 4 because it has a great theme but there was a time in the beginning of the book where I wanted to put it down and trade it in for another one. I recommend this book for 5th or 6th graders!

Blister and Jonah were the best of friends, but now middle school is gonna ruin that. Jonah has been hanging out with the cool boys (trying to) and when he gets framed for a crime he didn't commit, he disappears!

The cover looked so cute but this book is awful. The characters are boring, and so are the events that occur throughout the book. I can't even believed I finished this book, and when i did, the ending was twice as bad as the rest of the book. PLease, please don't read this book :)

genre: contemporary fiction

The novel *Kiss Me Tomorrow* storyline is about a 13-year-old girl named Blister, is dealing with the problems about her broken family, new school, and her new house. Also, how her best friend Jonah is becoming more distant from her ever since they started at a new school. Jonah has been hanging out with the cool boys (trying to) and when he gets framed for a crime he didn't commit, he disappears from her. Daisy G is a big help to Blister. She's the type of person who puts things into perspective and will love you; and who will always give you advice about anything. My opinion on *Kiss Me Tomorrow* is not at all what I expected it to be. I really thought that the main issue would be about a girl who is growing up and is learning to deal with the idea of having boyfriends. The actual main issue was how Alyssa Reed aka Blister dealt with the changes in her best friend and her life. Honestly, this book reminds me off *Stealing Heaven* because they both include issues about stealing. Both include the issue of stealing but, Jonah was set up and Dani was trained by her mother. "Sometimes, Blister was thinking, the only person in the world she could really count on was herself, and that was not enough." that part of the story hit me hard. Us teenagers sometimes feel like we are never good enough and the fact that the book mentioned. It could make one think about that real hard or relate to it somehow. "It may be true that you can't judge a book by its cover," Daisy G. had told Blister just last summer. "But the cover tells you something about the book and don't even pretend it doesn't." I really liked how well written this excerpt was. It talks about how sometimes the cover can tell you so much about a one that they don't have to act or to pretend they act that certain way. I would recommend this book to readers who enjoy reading about pre-teens friendships. Friends that their have ups and down; that go through thick and thin for each other. In the end, they will be there for one and other no matter what.

Good book - little bit all over the place and a little young for me but would've enjoyed it when I was her age

The story was ok. The characters were fine too. Nothing special about any of it. But it's the writing that really irritated me. First of all, why did the writer have to use full names EVERYTIME? I get that the character's name is Jack Reed, or whatever. Why did she have to write the full name again and again and again?

Another thing that got on my nerves was the fact that the author repeated the story in every chapter, actually in every other paragraph. I don't see the need to do that. Any person would start the book from the beginning then why would she tell the whole back story again and again? Maybe she thought the readers don't have a good memory and they need to be reminded again. I would've been fine with it if it would've been once or twice, in the whole book. Here, it was once or twice in each chapter!

Other than that, the story, as I said, was fine. It wasn't anything special or different but I liked. Or at least I thought it was ok. Characters were your normal, average pre-teens. They weren't memorable or anything but I'm glad they weren't annoying either.

In short, it was an ok book. But I wouldn't really recommend it to anyone.

"Kiss Me Tomorrow" is not at all what I expected it to be. I thought the main issue would be about a girl who is growing up and is learning to deal with the idea of boyfriends which in a way was the issue but the main issue was how Alyssa Reed Aka Blister dealt with the changes in her best friend and her life. Even though the author chose easily understood words the story didn't flow smoothly. Random thoughts were put in incorrect times and the grammar was horrible: "Leave me alone, Alyssa Reed. I don't want to see you anymore again ever." Apart from this, the story included a lot of repetition and Shreve doesn't seem to know what a comma is or perhaps how to use it: " The shelves were so piled with cleaning materials AND mops AND brooms AND canisters of lemonade mix that she couldn't make out anything beyond supplies." OR "Then she ran down the street to Aker's Market to buy raisins AND milk AND nuts AND bananas AND apples AND yogurt, stuffed them into her backpack..."

"Kiss Me Tomorrow" was about 13 year old Alyssa Reed (who demands to be called Blister) and her move from Elementary school to Junior High (which becomes one of the many changes in her life). Apart from this change, Blister has to deal with her mom's new boyfriend, her new house, and the fact that her best friend Jonah is now ignoring her to be with the "popular kids". Despite the terrible way Jonah has treated her, Blister still tries to help find him when he is falsely accused of shoplifting and runs away. From here on out,

I won't say anything so i don't spoil the book.

Simple sweet book.

It is about a girl named Blister who is fed up of all the men in her life. The books has barely any got any ups and downs. The ending also was not satisfying and fantastic. Everything happens too quickly without any situational fun.

Judging from the cover I was expecting some teen dating book, about a girl who likes to tease all the silly boys. Not this heartwarming tale about friendship, loyalty, and growing up!

Blister is a 13 year old girl dealing with the problems about her broken family, new school, new house and everything just got harder when his geek bestfiend, who had been avoiding her eversince they went to the new school, got lost because he was accused of robbing electrical equipments in a shop. But the truth is, Jacob Cutter and his wild friends were the one who put those gadgets in his backpack while he was daydreaming.

Lessons: Well, aside from not stealing at electrical stores, the deeper lesson that this light story can teach us is that all of us girls reach that moment when we are not yet women and we also know that we're not children or girls anymore. At this point we get confused of who we are or how we want others to see us. This is a very hard stage because we tend to forget to loose our innocence about things and all we think about is fame and lust. Blister is like all the other girls who wanted a first kiss but not a boyfriend. The story teaches us to take our time about this "things" because when the right time comes, we can then do whatever we want. Shreve expressed this lesson through this story in a very interesting and wholesome way which is the most impressive thing about this book.

uhm. this is the lightest book i ever read. so far. but it's okay for an 11 year old.

Kiss Me Tomorrow was a very good book. It went by super fast even though it was 220 pages. It kept me interested and curious about what would happen next. I didn't want to stop reading this book!

Kiss me Tomorrow is about a 13 year old girl, Alyssa "Blister" Reed. She is starting junior high and had a lot of things going on in her life. Her mother had a new boyfriend, Frank Holt, who Blister turned out to like very much. Blister's best friend, Jonah Morrison, started to try and hang out with the no-good popular kids. He started ditching her for them. One day, a "cool kid" Jakob Cutter, robbed an electronic store and put it into Jonah's backpack. A lot of things happened in this story, and in the end, everything turned out alright.

I would definitely recommend this book to any girls ages 12 and up. It's a really easy read and very enjoyable and relatable book. Don't miss out on this one!

### **Christine says**

This book is about the friendship between these two teens named Jonah and Blister. Jonah and Blister has been bestfriends since elementary school. Blister have always been there for Jonah whenever he needed support. When they start going to Junior High, their friendship changes. Jonah starts hanging out with cool crowd leaving Blister alone. When Jonah gets in trouble, he calls Blister to the rescue.

In this book, Blister thought that her friendship between Jonah was getting worse. She felt that Jonah had left her for the cool crowd. I can connect to this book with a text to self connection because if I was Blister I would had felt the same way as her, upset and alone. I think many people in this world had a friendship conflict before.

I rate this book 4 stars because the friendship between Jonah and Blister was nicely written. It was descriptive. The plot and the setting matches the conflict in this book. I recommend this book to teens who likes books with the genre friendship.

### **Patrick says**

The story focuses upon the confusing emotions of a young girl dealing with her own puberty while trying to shift through the old and new relationships of her divorced parents. The strength of the material is the emotional roller coaster of the main character. She shifts from loneliness to anger to confusion as her mother begins to date again following the divorce of her parents. The stresses are everywhere: mom has a new beau, moving to new part of town, living with her mom's new boyfriend and the pressures of junior high. The story begins with the first day of junior high. The material also touches upon the pitfalls of trying to wedge your way into making new friends.

Daisy G delivers almost all of the good lines in the piece and enlivens an otherwise dreary backdrop. Often Daisy is used to reveal history and other information to the reader. Surprisingly, the adults are prominent characters in the story, much more so than a typical YA novel. The text constantly uses full names ensuring a lack of confusion during interaction. However, the technique is tedious, especially due to the third person narrator. The use of pronouns is frowned upon in this text.

p.78 Like reading her first chapter books when she was a little and realizing that a story without pictures belonged only to her.
