LEGO Ninjago: Character Encyclopedia

Claire Sipi

LEGO Ninjago: Character Encyclopedia Claire Sipi

This book is a comprehensive guide to every LEGO Ninjago minifigure, vehicle, and location released to date. Divided into chapters for each series, the first part of the book examines the 2011 Ninja and their locations, weapons, and dragons. Next discovered are the Ninja's enemies, the evil Skeleton Army, and their vehicles. The second part of the book covers the 2012 sets, introducing the newest Ninja minifigures and locations, and their Serpentine enemies. Ninja Files in this section relate to the most recent set that the minifigure has appeared in, although he or she may have featured in more than one set. The final part of the book has a comprehensive list of all the Ninjago minifigures and sets for all fact-loving LEGO fans!

AP says

Like most DK books, it has beautiful photos, illustrations. The accompanying green Ninjago minifigure is also great.

Toby says

It is cool because it tells you all about the world of ninjago and their vehicles and characters.

Angela says

I won't rate this because it's not really my thing, but it is my son's very favourite book at the moment and he would give it 5+++ stars. He is a very active boy, doesn't normally like to sit down for too long, but this book can hold his attention for quite some time.

Mary Helene says

This book has really scary snakes who are green and they steal blood.

Remi C. Williams says

I have just read the book and it is amazing. My little girl Faith keeps on telling me how amazing it is so I got her the book and I read it a bit myself.

Balters' 3rd Grade Class says

L.J. 5 stars

Reese Ledgerwood says

I love this book because I love ninja go my favorite part is the Lego set of the ice dragon

Christopher says

Awesome book filled with fun facts and minifigs!

Shiloh Peacemaker says

I bought this just for fun and thought it would help with my ninja novel that I am trying to write. It was fun playing with the little green ninja that came with it.

Jasmine Filley says

Awesome
Its just awesome

Kelii says

It gave a lot of information about Ninjago. I did not know that there was a clown skeloton. I also did not know that the Sithe Of Quakes was made up in three different lego pieces whoever is reading this and you're a Lego fan you should read the character encyclopedia of Ninjago.

Zane ZX says

I got this as a present from my parents this December 2012.

I like it because it has everything in Ninjago.

Andrew Bulthaupt says

Note: I received a copy of this book from LEGO and DK prior to the official publishing date for the purposes of a review.

The Ninjago Character Encyclopedia is certainly a comprehensive volume. Its 176 pages covers all of the Ninjago characters and their variants, a majority of the sets, and the weapons they use to fight.

It's a beautiful book - full color with crisp, detailed pictures of the minifigures and sets. They definitely pop off the page and act as a great reference for collectors.

The text is equally in-depth. While the writing is definitely targeted at a younger audience, it's still informative and occasionally funny. For fans and collectors, there's a lot of neat little tidbits. Not being a

huge fan of Ninjago, I learned a lot about the storyline that I wasn't aware of previously. I would almost consider myself an expert after reading this.

The book also comes with an exclusive Green Ninja ZK minifigure, which adds to its collectibility (and also makes it a good deal thicker as a side effect).

For LEGO collectors and hardcore Ninjago fans, I would definitely recommend this book. It could also be a good way for younger kids who aren't big on reading to get interested in it if they like the LEGO Ninjago toy line. Aside from that though, it's not breaking any ground or providing an interesting narrative experience.

Andrew says

This book will be great!!!! I know it.

Marlee says

My rating of 4 stars is based on the fact that my 9 year old loves this book and would probably give it 5 stars. I would only have given it 3. This book is quite thorough. For children who love Lego and Ninjago it's great. And it comes with an exclusive minifigure as well.
