"...Molly Pitcher kept firing the cannon. The smoke stung her eyes. The smell of gunpowder burned her nose. Musket shot and cannonballs were whistling past her left and right..."

Find out what happened to Molly. Find out about the War of Jenkins' Ear, the Indian Prophecy and Elizabeth Key, as a grandfather tells his grandchildren the story of how our country came to be.

Get to know the Founding Fathers as real people. Learn how 200 years of nation-building gave birth to the U.S. Constitution and the Bill of Rights.

Here is a new way to pass along to your children and grandchildren the story of America's beginning. It is the first in the Grandfather Series - books that bring our heritage to life.

\*\*I received a free copy of this book through Goodreads First Reads.

Thank you, Mr. Bugaeff! "Pilgrims to Patriots, A Grandfather Tells the Story" is proof that history can be exciting and fun for all ages. This book shares important factual, interesting and informative stories from our nation's founding that are even more relevant in today's times. Written in the format of a grandfather sharing stories with the grandkids makes the book flow easily and keeps the interest of the reader. I think this is a great book and can't wait for more to follow.

A well written book of a grandfather telling his grandchildren the story of our founding fathers and the building of a great nation.

He goes into detail of the events leading up to the Constitution, Bill of Rights and beyond covering events like the Mayflower Compact, Articles of Confederation, The Stamp Act, the First and Second Continental Congresses, Townsend Act, Mt Vernon Conference, Annapolis Convention and the Constitutional Convention. He also covers the French Indian War, the War of Jenkins Ear and the Revolutionary Wars. This book also tells the fabulous history of the "Super Six" of the fifty five delegates of the Constitution. It goes into great detail on the lives of Benjamin Franklin, George Washington, John Adams, Thomas Jefferson, James Madison and Alexander Hamilton.

This is a history book that all ages will enjoy with a little twist of humor.

There are many ways to tell the early history of America (some of them work better than others). In this book, a grandfather tells the story to his grandchildren.

Over the course of a year, "Gomps" tells his grandchildren, nine-year-old Carter and eleven-year-old Hannah, the story of America. He starts with the voyage of the Mayflower and the Jamestown Settlement. The early settlements barely survived, but when they became established, nobility from all over Europe wanted a piece of the New World. In the 1630's, Connecticut was the first colony to have a written constitution, called "The Fundamental Orders."

The reader will learn about Molly Pitcher, the War of Jenkins' Ear, the Indian Prophecy, the day the British shot themselves in the foot, the Sons of Liberty and the Hundred-Year Lawsuit. The reader will also meet the Super Six, which included Thomas Jefferson, John Adams and Benjamin Franklin. Gomps also explains how, during the Revolutionary War, General George Washington got little or no financial help from the Continental Congress.

Start with "excellent" and go on from there; that's how good this book really is. The chapters are only a few pages long, and the stories are told in a much more entertaining way than the average school textbook. For any young person, or any adult, who wants to learn more about early American history, this is the place to start.
