### **Anna Craig - Surrendered To The Pack (Wicked Wolf Shifters #1)**

*This is a CLIFFHANGER short novella that is part of a serial. This is NOT a full-length book.*

Cassandra Wakefield's life is about to change. College student and regular girl, she also comes from an isolated mountain town that for centuries has been under the thrall of a very wicked pack of wolf shifters. If the insatiably hungry shifters don't get their annual female sacrifice, all hell will break loose on the town. This year, Cassie lost the draw. She's about to face down a magnificent pack of sexy alpha men. Despite her nervousness, she's undeniably intrigued... and deeply aroused. ***Steely-eyed yet magnetic alpha Trevor, outrageously hot, flirtatious Mac, and drop-dead gorgeous Finn, who has headlined her most secret fantasies for years now, await her.***

Pack Alpha Trevor Reginald doesn't do three things: drama, hysterics, or emotions. Pack dynamics are for drama, town surrenders tend to get annoyingly hysterical, and emotions - well, emotions are useless things for which Trevor reserves no time. He's here with his packmates for one reason only: to take the surrender's virginity and thus ensure his pack's continued healthy existence. But bringing the lovely Cassandra into the Wicked Mountain Wolf Pack stirs something in Trevor he hasn't felt in years. ***Something he will fight tooth and claw to resist before it overwhelms his reason and his very way of life...***

Because Cassie and all the wolf shifters are in for a huge surprise - ***one that Cassie might not survive after she is surrendered to the pack.***

### **Wicked Wolf Shifters Serial - Part 1 (Sexy Shifter Smut)**

***To the reader:*** *This story contains hot sex with all the dirty details, naughty language, characters who say "oh, hell yeah" to the fun times, the potential edges of shifter violence, and yes, a cliffhanger. If that isn't your thing, this story probably won't be either. But if all that sounds great, this short piece of Sexy Shifter Smut is for you!*

### **Christa Kelley - A Bear In Need (The Marked #1)**

Bear shifter Brandon Mitchell is cursed. Destined to lose the woman he claims as his mate, he's lived the life of an arrogant, cocky playboy to keep from getting his heart broken. But deep down, Brandon wants what he can never have: ***A family of his own, with a few cubs and a curvy goddess of a woman to keep him in line.***

***He never thought he'd find her in a feisty witch from his past, and now he'll stop at nothing to break his curse and claim her as his mate.***

There's just one problem: The woman he wants - the woman he's doomed to lose - ***is the only witch who can help him, and if he wants to protect her, he'll have to find a way to resist her first.***

Liz Malone just can't catch a break. After promising to secure her grandmother's spellbook, she's back in her old hometown and faced with confronting the dark, powerful figure who still holds sway over her life.

***If that wasn't bad enough, she gets drawn in by the charm and confidence of her old high school crush.***

She never wanted to go back to Star Lake, and yet here she is, setting aside her own problems to help Brandon break a curse so he can take a mate. *A mate she just knows isn't her.*

*How could it be when the only thing between them, after all this time, is a one-night-stand?*

**Content Warning:** *Explicit love scenes and smokin' hot werebears. Adult only bear shifter romance!*

I was given this set of books to read, in exchange for an honest review. It was a great bunch of books. I think that I only had one that I felt needed a little more of a story line, less sex. But overall it was awesome. It's really worth the money to buy and read this set of books. I do love me some shifter books.

## **Cindy Caron says**

I was given a copy of this boxed set in exchange for my honest review. I have reviewed each story individually. I hope you enjoy it as much as I did.

**Alphas Divided Pt 1 of 3 – J.M. Klaire**

Wow! What a great start to a series. What do teenage girls do on their 18th birthday? They find trouble! What they don't know is what is waiting for them! OMG this is an awesome story. I love the plot so far. The author has certainly thought this one out and found a way to apply it to "paper" so to speak. My only complaint is that it is only part 1 of 3. Can't wait to read the rest.

**A Slice of Honeybear Pie – Eva Wilder & Jacqueline Sweet**

Another great short story, and it's so sweet, it's dripping like honey! (pun intended) I truly enjoyed this story. I could see potential for a follow up. Perhaps even Michael and Mina's sister. Nothing like you friendly neighbourhood werebear to save the day. When Mina finds herself in deep trouble, she doesn't know what to do. All she knows is that she has to find someone she can trust with her life. Then, along comes Matt. You need to read this one. I'm sure you won't regret it. It is a standalone!

**The Bear Heiress – Desirae Grove**

Wow! Now this one is steamy! If you love triads, especially with 2 extremely hot werebears and their luscious, curvy queen, then this is definitely a story for you. New and fresh, the plot is extremely different from anything you have read before. Quirky, yet cute, from innocent to naughty, this well written tale is a keeper. Well done!

**Purrfect Chaos – Terra Wolf and Misha Carver**

Prrrrr! Panthers and witches, what a purrfect match, because everyone knows that witches love black cats! The only problem, this witch doesn't know that she belongs to the black cat! And he doesn't know that she's the enemy.

Awesome plot that is quirky and different from all else, mixing billionaire CEO's, shifters and witches. Loved it. Be prepared...it is a cliffhanger!

**Quest of the Alpha – Claire Ryann**

Grrrr! Another cliffhanger, but damn, is it hot! Curvy Tara is on vacation, and she has decided to leave her boring life as a "frumpy office clerk" and go on a two week hiking expedition up on the mountain, just herself and nature. Lane is trying to find his mate, he knows she has to be out there somewhere. He decides he needs a bit of solitude in the forest. Will they hook up? What are the chances that they are fated to be together forever? Great story that will have you on the edge of your seat. Love it, but now I need part 2.

**Alphas Unleashed: Part One – Cora Wolf**

Oh my! This is a great start to what promises to be an even better ending. Loved the fact that there is a lone she-wolf that has finally found a male that she feels she can trust. After living on the streets and on the run most of her life, and facing death at the hands of the vampire hunters, she is rescued by two hunking, bulky werewolves. Now all she has to do is choose...or does she? Be prepared to be left hanging! Looking forward to part 2.

**Bear Back Mountain – Artemis Wolffe and Wednesday Raven**

A little off the wall, but a great short story with a totally different twist, This author certainly has a vivid imagination and knows how to put it to good use, Really enjoyed this quirky tale.

Once an Alpha – Callie McKenna

Wow! Now this is a story you could really sink your teeth into. A standalone, quite a bit longer than the rest so far, and packed full of suspense and romance with a good helping of hot sex thrown in for good measure. The author has taken a tragedy and turned it into tale that could have you wondering what really goes on in the woods. This is the type of story that folklore is created from, taken from the deep dark imagination of a very creative author and applied in such a way that you simply don't want to put it down until you are finished. And even then, you are seeking more, not because you were left hanging, but because it is just that good. Callie has given us characters that have definition, full of strength, yet not afraid to show weakness and love. David and Myla have history, and when both FBI agents are thrown together for a sensitive case involving the disappearance of numerous hikers in the mountains around Bakewell Springs, all hell breaks loose, both in the bedroom and out.

A great story you won't want to miss.

Surrendered to the Pack – Anna Craig

This is part one of ? therefore, be prepared to be left hanging. But don't be too stressed out, as it is an awesome read and hopefully the beginning of an even better finish. I loved the plot. The author has taken the old "sacrifice" rules to a new level, using a human virgin to appease a werewolf packs hunger and instead, offer their protection to a town, as long as the "surrender" is given to the pack every year. I won't give you the hot and steamy details, as you will have to read them yourself. I am sure though, that it won't disappoint.

A Bear in Need – Christa Kelley

An excellent finale to an awesome boxed set! This story is also a standalone full length book with a plot that will curl your toes with excitement. Liz is back in town to settle up her grandmother's estate with the explicit need to find her spellbook for safekeeping, as per grandma's request. It has to be kept out of the hands of those who practice black magic. Since it looks like she'll be in town longer than anticipated, she wanders to the bar for a drink to wile away the evening. In walks her highschool crush and as soon as he sets eyes on her, he knows he has to have her. Brandon just can't quite pin down why. Once the excitement starts, it doesn't let up. What happens when you mix good magic with black magic? Throw in a bear shifter into the pot, along with a witch hunter and a couple of pissed off brothers, and you've set the stage for one hell of a ride. Loved the story, loved the characters and definitely looking forward to more reading from this author!

## **iliana G says**

I was given an ARC of this bundle to read and review.

There are some really awesome stories in here and some not so awesome but truthfully a bundle worth reading

Alphas Divided-J.M klair 5 stars

I was given an ARC by the author for an honest review.

wow what an interesting story and when it started getting really good it ended!!!!

Fast paced with interesting characters, humour and hot Alpha males.

The plot was intriguing and it had the anxiety building.

can't wait to read more.

A slice by honeybare Pie- Eva Wilder & Jacqueline Sweet 5 stars

Fast paced, funny and with lots of action this story made me feel sweet and it made me fall in love with the main characters.

It's the first time i read something from this author and i have to say she will be going into my to be read list!!!!

Can't wait to read more!!!!

The Bear Heiress-Desirae Grove -1 star

This story was not my cup of tea.

It starts and it is confusing trying to understand why the queen and her mates are talking naked and other people are below caressing themselves.

Afet that its a constant sex scene with few pauses for some talking and more sex.

Sometimes the sex borders to abuse and mistreatment and there is an almost rape scene that if you have issues with rapes it might trigger you so don't read it.

The plot if it was not so drowned in sex and cum it would be more intresting cause it would have room to develop.

I really didn't like this story.

Purrfect Chaos-Terra Wolf & Misha Carver -3 stars

This one is a nice story that seems very promising.

Its well written with an intresting plot but leaves much to the imagination and sometimes you need to guess things.

Quest of the Alpha-Claire Ryann 3 stars

Another good story in this bundle!

Not so fast paced but really detailed and with lots of emotions.

I can say it was an ok story that that parts it picked my interest.

Alphas Unleashed-Cora Wolf-5 stars

wow!!!

I sooo loved this story!

really got so hooked that i didn't know when the end came...of course with a cliff hanger damn it!

Fast paced with lots of action and soooo intresting story that i simply couldn't stop till i reached the end.

Its surely is one series i will get into!!!!

a must read!

Bear Back Mountain-Artemis Wolffe & Wednesday Raven 3 stars

it reminded me something of the movie "Junior" .

ok it was fast paced and well written though from start till the end i had a trouble understanding who was who for some weird reason.

the sex scenes were hot.

Still i don't know....not my cup of tea ...not because its an m/m story...but because of how confusing and lucking i found it.

It could have been better if it had room to evolve and have more details and i think the feeling of lucking would be gone.

Once an Alpha -Kallie McKenna-5 stars

Fast paced,mystery filled and action packed story that promises to keep you on your chairs!!!

I really loved the story though at times i found it dragging and a bit too long still it was amazing!!!

Really well written with smart,funny and witty characters and a plot that thickens and hooks you up.

Really liked it and i can't wait to read more.

Surrendered to the Pack - Anna Craig - 5 stars

ohhhh ohhhhh sooooo hot and intresting!!!!

i really loved this story except the fact it was all sex sex sex.

I know sex can't be bad (ooohhh and it wasn't!!!!hot as hell) its just that we got little info on what is going on!

still an awesome story!!!!

Bear in Need-Christa Kelley- 5 stars

I was given an ARC by the author for an honest review.

I have to say i enjoyed this book greatly.

In the first book of the series we meet Brandon and Lizzie.

He is a bear shifter cursed to never be able to have his mate.

She is a witch links to an evil witch and the mate of Brandon.

Her life is in danger and his is cursed can they make it together and work things out?

A funny filled with action ,quick paced story that will keep your interest and make you want to learn more about this family

Well written with very intresting characters this series looks reaaally promising!!!!

Can't wait to read more!!!!

This short stories were very interesting and hot. All were different and what a nice surprise I found the first book of one short story from Red Hot Candy. Love this anthologies where you find lot of good stories, authors that I had not known before and surprises for my book collection. And for the price this anthology is a really bargain. Go for it. Received the ARC for an honest review

A Slice of Honeybear Pie by Eva Wilder & Jacqueline Sweet

While fleeing from her ex-boyfriend Harker Mina trashed her car at Bearfield. She had discovered his fraudulent businesses and had proofs about it and now he wanted to kill her. She was taken to the police station because she asked for a lawyer to deal with the accident. They got her Matt, a werebear lawyer who immediately get caught with her. She was his mate and he was going to do everything to help her get rid of Harker. This story was hot, with suspense and an interesting strong female character who knew her way with sweets. Good for the werebear and company. Seems that we are going to have the chance to read about the wedding and that will be very interesting with this female, the werebear brothers and the town in attendance because is supposed that the shifters are kept secret. Like the development of this stories and how they fit with one another. Nice the recipe for the pie.

The Bear Heiress by Desirae Grove

Lindy was eager and afraid to join the Sister Clan festivities to choose a new trio to rule the town. She saw the mating frenzy and thought about herself being the one in the altar. When the new Queen was announced it was her the chosen but there was only one mate known after the Oracle declared what she saw: Blake. Lindy needed two to fulfill her role as Queen and the security of the Sister Clan. The search for the second one was difficult but her instincts told her which one was the second mate for her and Blake knew too. But there was another menace to her safety Gord, the book keeper, was lurking in the dark plotting to have Lindy for himself. This was a very descriptive and hot steamy story full of suspense, secrets and intrigue and steamy good sex. Kept me guessing about the outcome. First book I read from this author and I'm going to keep a close eye for others stories because this was good and I liked it a lot.

Purrfect Chaos by Terra Wolf and Misha Carver

(Purrfect Mate Book-1)

Thomas Puma was a shifter panther, the President and CEO of Calico Enterprises and he needed a vice president immediately because his just die from a heart attack. He was in the middle of crushing the competency Majestic Industries. But the owner of Majestic Industries was aware of the threats and has his own plan of infiltrate his daughter in Thomas' company. And Jacey had her own secrets and she was decided to use her powers to gain the battle between the two companies. This first part of Purrfect Mates was very amusing with hot narrations. Interesting plot and strong characters. Want to know how this two business partners are going to deal with their rivalry and sexual attraction.

Quest of the Alpha by Claire Ryann

(Sierra Moon Book 1)

She felt the attraction too but would she agree to be his mate? And he needed to turn her. It was a very difficult situation for Lane and he wasn't sure Tara will accept the wolf. Another first part of a series. Entertaining but have to wait for the others parts for the overcome.

Alpha's Unleashed: part 1 by Cora Wolf

Sara was hiding from the vampires and when got caught by two of them. When they were ready to dispose of her she was saved by two were wolves. Connor and Marcus took her to their home and told her they were to teach her to turn at will so she can protect herself. She had being raised by humans and little she knew about her wolf heritage so she was up to the new experiences. But her mating heat was near and she had feelings for Connor and he wanted her. Can she trust them or they will become a threat for her? This first part was interesting, has action, hot sex, characters with unresolved issues and hinted to more conflicts between the main characters in the next book. Liked the story and will follow to the next book.

Bear Back Mountain by Artemis Wolffe and Wednesday Raven

Hunter Reed was a shifter and had to marry and get an heir as his family traditions demanded. He was bi sexual but must attracted to males than women. He wanted a male companion for the rest of his life. He needed to get fit and went to a gym where he met Alexander Gray his trainee, his soul mate. Alexander

wanted a life companion too but he was insecure about Hunter's really intentions. But there was another character in the story who would be meddling in their lives. Interesting, amusing, hot and let me thinking about the unfairness of some situations. Good short story.

The S Files: Paranormal Investigation Agency Book-1 by Callie McKenna

Once an Alpha-The S Files

Mayla Peyton was a FBI agent and was promoted to the S Files Bureau with the guy who stood her up some years ago, agent David Lyndon. They swore that it was a misunderstanding because he tried to contact and to explain his reasons but she never answer his phone call neither his letter. She still felt attracted to him despite his behavior and he made the move. They were together as lovers trying to resolve why hikers were missing at Bakewell Springs and things were getting dangerous for them. This story was full of action, intrigue and suspense besides the sex. Remember me Dana Scully and Fox Mulder in the X-Files (without the sex of course). Enjoyed the plot and the interesting development. Ready for Agent Lyndon brother story.

Surrendered to the Pack by Anna Craig

Wicked wolf-1

Cassandra Wakefield was Wicked Mountain surrender this year. To keep the peace between Wicked Mountain humans and the pack wolves they have to give a virgin woman between eighteen and twenty to the pack to do with her as they wished. Not knowing clearly what was going to happen to here she went with the three males to their pack to be their property, their sex slave. But something strange was happening. Trevor, the alpha, was uncommonly attracted to Cassie. He was struggling and denying what was stirring him. When the time came for them to claim her everything changed in a second when Trevor roared to his pack mates. Liked Cassandra's character. She was not the shy victim for the sacrifice. Her character is strong, sassy and horny intended to enjoy the new experience like a wild college girl. Despite her lack of real experience she is in for the ride. Caught myself laughing at her comments. This was part one and we have to read part two to know what Trevor is going to do with Cassie. Very interesting story.

A Bear in Need by Christa Kelley

Brandon Mitchell, a bear shifter, met Liz Malone at the bar and his bear was drawn toward her. He was cursed and he was looking to lift the curse from him and his brothers. His curse didn't let him look out for a mate. He has only one night stands but with Liz he felt a need to make her his. Liz was a witch and Brandon was her teenage crush. She too felt the attraction and her magic was visible with their nearness. She had her own curse. She was hiding from Alana, another witch who had been her best friend. They had cast a bond when they were younger and Liz felt that Alana was tracking her. Worse, Alana was the witch who years ago, cursed the Mitchell brothers because she felt wronged by one of them. Fighting with the feelings for each other Liz and Brandon joined forces to fight the Witch Hunter who wanted Liz death. This was a very interesting story about shifters, a witch and magic surrounding all the plot. Good paced, with suspense, action and developed characters. Both main characters were strong and unselfish. Liked the chemistry and good sex scenes. This first book of The Marked series showed all the Mitchell brothers and I hope their stories will be next because this one was really good.

This is an amazing collection of stories by various authors. I was surprised by how good. I was given this copy for free in exchange for a honest review. Collection of steamy paranormal romance with sexy, alpha male were-shifter stories. Some of the stories are half stand-alones or half series starters. I would give 5 stars for the set.

I hope you will enjoy reading this box set. I know I did. This set is definitely a keeper. I highly recommend this set.

Alphas Divided Part 1 of 3 by J. M. Klair

For one year, two bored troublesome girls are sent to live with a shifter tribe to straighten them out. The story was refreshing but short. Can't wait for the other two parts to finish this novella.

A Slice Of Honeybear Pie by Jacqueline Sweet and Eva Wilder

I had a good time reading this novella about a town called Bearfield. Mina is on the run for her life from her boyfriend. The town lawyer, Matt gets her out of jail. Matt and Mina have chemistry. The novella was well worth reading.

The Bear Heiress by Desirae Grove

The story takes place in a shifter community where the future bear queen must consider two lovers. This story is well worth reading.

A Bear In Need by Christa Kelley

A well written story with no cliffhangers, and HEA. The original story was well paced, suspenseful, bear shifters, witches, secrets and danger, drama, spells, love and mates. The story had everything wrapped in it, and was not lacking. I highly recommend this story.

## **Lisa says**

This is a Great Anthology. The stories are well written and keep your interest. The only author I've read anything by before is Christa Kelley. So the majority of them are new to me. I did find a few stories that I will continue with to see how they end. I liked most of the characters. The men were strong, sexy hot and totally alpha males. The women were feisty, stubborn, strong, smart and capable females.

Alphas Divided by J. M. Klaire - 3 1/2 STARS

Interesting characters, the girls were a bit to immature for my taste. But over all the story wasn't bad.

A Slice Of Honeybear Pie by Jacqueline Sweet - 4 STARS

The story was good but really I feel it's been over told to death. It needed some more originality.

The Bear Heiress by Desirae Grove - 3 1/2 STARS

This story just was okay. It didn't really hold my interest very well. If it had been longer I probably would have not finished it.

Purrfect Chaos by Terra Wolf - 5 STARS

Loved this one. Witches and black cats. What more could you ask for. Great little story. I look forward to more of it.

Quest Of The Alpha by Claire Ryann - 4 STARS

Good story. Interesting characters.

Alphas Unleashed by Cora Wolf - 4 STARS

I really liked this story so I plan on getting the rest of it.

Bear Back Mountain by Artemis Wolffe - 4 STARS

I liked the guys. I don't normally read M/M books but this is a good story.

Once An Alpha by Callie McKenna - 4 STARS.....

Love the story and characters. I've already bought book 2

Surrendered To The Pack by Anna Craig - 4 STARS.....

Not my favorite story plot. But I did like the King. And the story was good.

A Bear In Need by Christa Kelley - 4 STARS.....

A Bear in Need is the first book in the Marked series by Christa Kelley. It tells the story of Brandon and Liz. Brandon is a Bear shifter that is cursed to lose his mate by his brother's ex who is a witch named Alana. He and his brothers are rangers and have the task of protecting a magical nexus called the Hollow. Liz Malone is a feisty witch who's back in her old hometown of Star Lake to get her dead grandmother's spell book and sell her house. As luck would have it she runs into Brandon who just happens to be her old high school crush and in need of her help to break the curse. To find out what happens next you will need to buy the book. You will be glad you did. It's a good book. The characters are strong, feisty and sexy. The story is well written full of action, a sexy hero and love. I look forward to the next one.
