Another brilliant addition to this series. I just can't read enough of the 'Others' books, either Seattle or Edenton. The characters are all so well developed and charismatic. Although each book is its own story the characters pop up and weave through them all so you get to revisit.

This is a thoroughly enjoyable book and I couldn't put it down. I can't easily pick a favourite as each book in the series highlights characters that are instantly 'favourites'. The same goes for this book, I loved Kellan as he was so different to what he could have become and his relationship with Zoe was lovely. His enjoyment of her in harpy form was a highlight.

A great read and I'm grateful for being gifted this as an ARC in exchange for an honest review.

What a great couple...Kellan and Zoe.... both to be loathed for their heritage ,ending up mated and with good friends all around.

Due to a curse on Harpies , this match seems ill fated, but after self sacrifice on both parts there is a light at the end of the tunnel so to speak.

This is a good paced book and a great addition to The Others of Seattle series!

After reading all of Brandy's books....love them...I have to say that this one is at the top of the list as one of my favs. It is full of action and suspense. There are some intense sex scenes. There are all different kinds para-norm characters in this book...mages, dragons and demons... Oh My! If you're looking for a story to take you away to a new world then this the book I highly recommend it.

Old curses, twisted bad guys and just crazies. This one keeps you guessing from start to a very satisfying finish. Can't wait for the next one.

Omg talk about tense. I am so very happy I got to read this. Thank you Brandy L Rivers for the ARC. So it's been awhile since I read the last book so had to read the last book again ( to many books not enough memory hahaha). I love Zoe and Kellan's story, it was intense and exciting to read. It is a must read. I love my "other's" series, both of them. Keep up the great work.

Storm Wrath is the sixth installment in the Others of Seattle series by Brandy L Rivers. Kellan Storm is a Storm Master who has been used by his mother for the last time. He is determined to find happiness and prove that he is not like his mother, Saressa. After escaping a horrible relationship, Zoe Boreas has finally found happiness with Kellan. Unfortunately, for them before they can have their happily ever after, they must end a curse that has plagued Zoe's people.

Once again Brandy L Rivers capture's her reader's attention from beginning to end. The world that she has created in the Others of Seattle series is magical. What I like about this series is the characters from the previous books make cameos and contribute to the plot without taking the storyline from the hero and the heroine. This installment left me wondering about other characters and their story. I am looking forward to the next book!

My Thoughts:

She has done it again. Each novel in this world is more addicting then it predecessor. Zoe and Kellan's story was EPIC. I can't even find the worlds. It knocked me on my back and left me on my toes for what comes next. Brandy never disappoints.

Each novel si this series leaves you wishing you could stay there forever. I love getting to jump back in like I never left. Even more so? I love the fact that you never know if you are going to hate a character for the remainder of the series. She is up there in her talent to have you consider what you feel about particular characters that we have previously hated. It is wonderful.

This book was non stop. I couldn't get enough. I feel like at this point with how many book in we are, I don't want to give anything away. It isn't fair that you don't get to LOVE it as much. So just a lot of WOW and Bang with this one. Epic.

The Blurb:

A storm is coming to wipe out an ancient vendetta.

One look and Kellan Storm was captivated by Zoe. He found his mate, but an ancient curse stands in their way.

After a long and bitter relationship, Zoe Boreas never expected to find love. Kellan swept in like a storm and claimed her heart. Neither of them realize how deep the curse on her people runs.

I received a copy of the book from the author for an honest review.

Again Brandy never disappoints. She has a way of taking a character that I'm not sure about and turning them into someone I really like. This is exactly what she did with Kellan. Given who his parents were I just wasn't sure if I would like him or if he could be different from his parents. Boy did Brandy prove me wrong in a big way. Zoe is strong willed and determined. She did what she had to to make sure she kept Kellan safe. But no matter what Zoe decided Kellan was determined to find her and keep her.

The twist and turns this took were great and I never saw them coming. I felt what they were feeling, hurt when they hurt, was happy when they were happy. Their connection was off the charts and watching their bond grow was amazing. Seeing his mother get what was coming to her was great too. My favorite scenes were the water scenes and how Kellan was attracted to all aspects of Zoe. Brandy always does an amazing job the fight scenes makes you feel like you are right there in the thick of things. Then when disaster strikes you feel every part of that. I even found myself crying with them.

The ending was great I cannot wait for more Brandy L. Rivers does such an amazing job with this series and the Others of Edenton series I don't think I'll ever want these series to end.

I think this is my favorite Others of Seattle book. I love Kellan & Zoe! Kellan could have been so different considering who his parents are/were. Instead, he is exactly the kind of Other that Zoe needs. Someone to love her & remind her that she is worthy of being loved. And I absolutely love the spin Brandy L Rivers puts on Harpies. Great addition to the series!!!

Ever since Brandy L Rivers popped my Paranormal Romance cherry, I've been a huge fan of hers. With each book that she releases, my level of stalking increases. No joke.

Brandy L Rivers is the queen of the Paranormal Romance genre!

Both of her PNR series, Others of Edenton and this one, Others of Seattle, are a MUST READ. While most of the books can be read as standalone novels, I would highly suggest you read them all in order, starting with book #0.5 in the Others of Edenton series. There are SO MANY uh-ma-zing characters that you can't help but fall in love with. I am curious to see a family tree, of sorts, with ALL the characters in BOTH series and how they all connect!! It would be a HUGE diagram for sure!! :)

One thing about Ms. Rivers that I truly admire is her ability to make readers love even the not-so-loveable characters! They might in some books be those characters we all love to hate or are unsure of, but then....then, they get their stories. Another thing I really love about these books is how easy it is for me to get lost in this paranormal world. I'm always fully captivated by everything and connect with all the characters from the very beginning!

Storm Wrath was a fantastic addition to the Others of Seattle series. I LOVED KELLAN AND ZOE!! I was rooting for them from page one and I'm happy with how it all wrapped up! From curses to awful parents, this book was full of page-turning paranormal events! Now, like I mentioned above, I would suggest you read this series in order. Just trust me on this. Your connection to the series as a whole will be even deeper. I am seriously planning on taking a month to read ALL the books (re-read most of them) in order. Just the thought of this makes me all kinds of excited!! FIVE STARS!
