Dark Star says

Great story. Thought I had it all figured out and then it got me towards the end.

Everybody in this book got on my nerves. I was enjoying it up until around page 150, then I just had to start skipping pages.

Diane Large says

This was my first Patricia MacDonald book and I stayed up until 3:00am to finish it. It was a murder mystery with many twists and turns. I will read more of her books.

Rita says

I love Patricia MacDonald. She's fun to read.

Fast-moving book. Britt's sister, Greta, is killed in a fire. They were estranged for years, ridiculously, so it's even more ridiculous that Britt moves in with Greta's husband and child and then begins thinking that the husband must have done it and seeing herself as her niece's protector. Too quickly making him out to be evil and then too weirdly deciding that Greta's widow is the only man for her--albeit a year later.

I enjoyed this novel by Patricia MacDonald. It is a pretty good thriller with a lot of unknowns in it until the second half of the book. I sort of had the villain pegged, but not entirely....:) In this story, a younger sister, Britt, travels from Boston to Vermont, because she got the terrible news that her older sister, Greta had died in a massive housefire. The two sisters had been estranged for several years and after all that happens in this

book, Britt knows that people should communicate their feelings to each other because you just never know if and when you will see them again. That is a lesson all of us should follow.....

really good, read it in one day!

a mans wife was killed in a house fire, the neighbor went in and rescued the daughter. the wifes sister hadnt spoken to her in years and felt really bad. she went there and met her niece. she ended up doing more work than the police trying to solve the case, they thought her sister was murdered and it turned out to be the crazy lady next door. she also killed her first husband and the couple that gave her a baby for adoption. she tried to kill the aunt but she made it out of the snow ok and ended up moving there

I really wanna give this book 2 1/2 stars

I was not a fan of this book at all. It was really really really slow to me at first then it picked up and was all over the place. There were a lot of characters too.

Carla Johnson-Hicks says

I really enjoyed this book. It was a fast moving thriller that had me thinking one way, then another.

Britt and her sister Greta are estanged. Britt gets a phone call from her brother-in-law that Greta was killed in a house fire and she heads off to Vermont to see if she can help with her niece. Once she gets there, she finds out that the fire was intentionally set and that both Greta and Zoe had been drugged. Britt, being a television producer, begins to dig to find out what really happened. I swung from the television reporter, to the neice, to the husband, to the neighbour, the unwed mother and back and forth with my suspicions. The ending was another twist to the story. This book will keep you riveted.

Robyn says

Despite the fact that I found the protagonist to be a bit of a humorless, obnoxious asshole (can you be a "bit of" an obnoxious asshole? Is that like being a "little bit" pregnant?), I enjoyed the book. Kind of.

Julie says

Another good book by Patricia MacDonald. I would have rated it four stars but I guessed early on who the villain was. So down one star for lack of surprise!

Joumana says

I loved the suspense all over, very well written as always with Patricia Mac Donald. I didn't have a clue about the murderer but i was disappointed by the overall end.. was predictable.

A good reading though :))

Papalodge says

A meddling auntie wants to nail her obnoxious brother-in-law. Too bad her sister died in the guestroom - but bad stuff happens. Snowmobiles are noisy but are toned way down in this tale. If it weren't for caring a neighbor Zoe wouldn't amount to much more than a lump of ashes There you have it - go for it. Enjoy New England.

Cynthia says

Just love this author. Great suspense thriller.
