This story is not for the faint of heart.

In fact, that twist ending left me so off guard that I stared at the page for ten minutes before it fully registered in my mind that the story was over. *Wow.* I did not see that coming.

Jesse, a stranded teenager on the highway is convinced by this Cop to ride with him to his childhood home

where he'll go to visit his family. Maybe there, he thinks, he'll be able to borrow a phone. As they pull up to the house, which is located far off the road in the middle of nowhere, something starts to seem amiss.

Little does he know what horrors await him...

(view spoiler)

This story doesn't pull any punches. There is crossdressing, violence and rape. And a lot of mind fuckery. Read at your own risk.

Kat says

Eh?! So this was basically the best *worst* Christmas present I ever got.

I'm laughing, but I'm not really laughing? Can you laugh and be traumatized at the same time?

Curiosity definitely killed this cat. :(

Maya says

Did I read this in a public place (the bus)? YES

Was I shocked? YASSS

Was I scared? Yes, both for having someone read over my back and because of the story!

What did I learn? To NEVER EVER try to hitchhike a car.

This story really did trigger some fears from the way it was written. The characters were all insane in a horrible evil way. The events were THAT scary because there was NO HOPE, NOT EVEN A GLIMPSE OF IT. There was not ONE good thing about anything. Everything was dark and dangerous. This reminds me that sometimes no matter how we look at it, there are some very dark twisted evil people and events and things around, and sometimes looking for good is just pointless as it is not everywhere.

Can't rate this book. Have to reflect on it more.

I never reviewed a book before but here it goes... After reading some reviews, I couldn't wait longer to read this, so I decided to buy this on G|P ebook store, since they recently made it available. I'm happy I got this as a PDF format. The novel is really short and took me less than an hour to read. I was expecting a little more, it didn't really leave me with a suspense of what the fuck just happened. Don't get me wrong I love Kichiku Neko' and TogaQ's work, I just wish they could have let us inside Jesse's mind. IDK... But anyways, I'm so happy because a package from GP is on its way to me! Can't wait to have ITW in my hands!!!

Toofan says

A dark tale , told from a psychopath's point of view.

Islam Nashrif says

Da fuck did I just read? Fuck. It's has the I-spit-on-your-Grave scenario but BLesque. Shit I feel so bad for the Idol guy :(SO sad.

Amabelle (bico_belle) says

it was really short and a bit twisted like something you see in a lot of horror films. i'm having mixed feelings about the ending though..

Onyx says

Wait, no, that did *not* just happen...

Yes. Yes it did. Holy fuck.

Yeah, you know what I'm talking about. And you know I loved it.

Bananas says

What to say about this book? The family in it reminds me of the one in Texas Chainsaw Massacre, especially the creepy old dad. The two brothers are the heart of the story - and I want more. The sex is disturbing. The story is sad, sick, and delicious. Also, it makes me wary of policemen.

Basically, nothing you wouldn't expect from this wonderfully twisted artist/author duo. Enjoy.
