Endgame.

Protect my queen.

I NEED THIS BOOK. What happens to Tino? What happens to Brianna? Is there going to be war? I'm not surprised Tino gets 2 books.

SO unfair!!!! We've been so loyal to you, been patiently waiting for the book. Screw the release date, but if you've lost interest and do not wish to finish or continue the series it's only fair that you tell us. Communicate with us, you're only human and its understandable people lose interest but we're wasting our energy on something that may never happen and thats not fair on us.

APRIL 26 2016

I NEEEEEEED!!!! PLEASE ASAP SOON. MY HEART BROKE FOR TINO I JUST CAN YOU PLEASE NOT MAKE US WAIT ALL OUR LIFE

Danielle says

Is this ever coming out?

Kratika Saxena says

well it's been quite long since the enforcer has been released and I wish kele moon gives a release date already. Readers are dying to know what's gonna happen in the next installment and if Tino is getting a happy ending with Brianna. This book is already delayed. It sucks not to know when this book is gonna be out. I am waiting, waiting and waiting

sigh

also want to know about Nova's story

Kristy says

Any idea when this is coming out??

Lisa says

So....am I going to be old and senile by the time this comes out?

Eva (Romance2Review.com) says

is this book ever going to come? seriously....it's become a ridiculous wait on this one

S. Popi says

I had a full post I wanted to post here, to express how I feel about what Kele Moon is doing with her books and with the people who read her all work, who have been there and waited patiently.

But I'm not gonna do that and instead I'm gonna say this:

It's not fair!!!

I feel cheated and I'm sad to say this, but it's not wright how you treat the people who read all your work and who counted down your release dates.

I'm NOT posting this as an attack, or to make you feel bad, Kele Moon.

I'm only saying what I feel, and I have that right for buying ALL your books and reading them.

Cris says

I wish they'd come out with a release date for this already. I've been putting off reading The Enforcer pending its release. Eek.

Wendy'sThoughts says

Ok, I admit it... I am not proud of the way I am coveting this book....and I haven't even read The Enforcer yet...

What can I say...to want so bad this series... I am willing to lay bare how much I love Kele Moon and her genius in creating these men and families...

I fear there is no 12 step program...
