Arianna "Mouth" is pregnant and struggling with becoming Shane's soon to be wife as well as give up her need to kill everyone who is a danger to those she loves. Shane is wishing Mouth would focus on planning their wedding and their baby but he knows she needs closure with the man who killed her mom.

This is the end of a series and I enjoyed it but at times it seemed to be a yo yo of the same argument. Had hilarious moments and I enjoyed seeing where these two would go with their lives.

Twist on the Alpha Male protecting his female

Love how evenly matched these two are, especially in this, the end of this story series. I have loved Mouth (Arianna) since the minute she started giving Shane crap. Can't say I saw the twist involving he drew th of her mother coming. Loved how Shane will do whatever it takes to protect her but she in turn does what he can't because of his promise to their child. Or fact match (made in mafia heaven!!!) Another HEA.

It was ok

It was just ok. I started getting really bored though. Ari is q little crazy and badass but because she stresses Shane out she kinda comes across more normal than him lol. The series was just ok, I prolly won't read it again tho

Mrs Silver does it again!

Once again I have been pulled into the special world of Mrs Silver's imagination. Mouth and her Mob boy had me alternately laughing and swooning over their special love and how they expressed it. I'm sorry to see the story end, but I'm sure that we haven't seen the last of the family Spitfire!

So everybody decides it is time to go after Shane, Arianna and the rest of his family, and Arianna is NOT

having it! Great plot, fabulous characters and good writing, smoking hot sex scenes, and a BUNCH of drama. Good story Jordan Silver!

Just Loved It!!!!???

I loved this series from the first book to this latest one and I gotta say, there should be more books written like this one. It is so damn difficult to finally find a series where its the female lead that is the possessive and protected one. Where SHE is the one that kills off anyone that threatens those she protects and loves. I had to read the series again from the start to see what Mouth is up too again. It was soooo worth reading the last book to see her and her dad to finally get the revenge they've been waiting on for so long on the one who took away her mom and his wife. My favourite series by far this year.

Very sad to say this is the last book to the series. Had me laughing, plus routing on Shane and Arianns throughout every book. In this last book Shane has finally taken in the reins and move them to the compound which is surrounded by his family's houses. Which With all women together drive Shane even more crazy. Lol With Arianna being pregnant she seems to be tying to be domesticated but shane knows his vixens way. He don't trust the three old men around her, they seem to not help with keeping Arianna out of her assassin ways. More trouble they all are. (If possible) Shane wants to go legit and help his wife dealing with horrible death of her mom. Love every moment of their love for each other. Complete perfection last of this books series. I'm going to go back to the beginning and reread this whole series again. I cannot get enough of the characters. Definitely deserves Five stars. JORDAN SILVERMAN is phenomenal writer

Great conclusion to this series!

I really enjoyed this book. I'm surprised Ms. Jordan hadn't finished it before now. I'm especially impressed that she was able to just pick up the story and write it so that the tone and the writing for all 4 books seemed seamless and this last book didn't FEEL like it was written years altered though it was.

So I haven't read the author for some time because the recent releases aren't my taste, but when I saw that the conclusion to one of my favorites- The Spitfire series- was out I couldn't stop myself!

This is basically an updated on Shane and Mouth- and how have their wedding and HEA.

Maybe it's because it was over 2 years since I read the previous books- I didn't love it as I did them.

Most of the book was Mouth going on her antics, and Shane cursing and trying to stop her and then having sex with her while making mob references.

All I can say is I'm happy the series is finally having an end.

And I did like the crazy ass epilogue.

Safe with half stars for the end

2.75/5

The final chapter in the Spitfire series.

First I must say the editing in this book is better but there are still missing and misspelled words. Now I really wanted to love this book but it fell a little flat for me. I felt there was more talking and planning than actual action. I mean we still get a sexy moments but that seemed to be all that it was, just sex moments, talking and boom everything was fixed. I'm not even sure what happened with the Triad, that problem and the other family leaders just seemed to go away with no backlash. I found myself skipping over pages especially when Shane just kept repeating the same thing about Arianna and how he loved her and wanted to pop her in the mouth.

I did the epilogue into their future with family.

OMG

It was amazing. The ending to this series was great but sad, because I didn't want it to end. I love Mouth. And Shane is the best. I hope we can get a book about the kids. A must read.
