## **This Changes My Family and My Life Forever** Sally Ember

Intrigued by multiple timelines, aliens, psi skills, romance and planetary change? Clara and the alien "Band" are back in Volume II of "The Spanners Series." The Many Worlds Collective makes its presence officially known in 2012 to Dr. Clara Ackerman Branon, their chosen first liaison, in Volume I, "This Changes Everything." We pick up her story in Volume II, "This Changes My Family and My Life Forever." As Chief Communicator, Clara leads the way for interspecies communication on- and off-planet via the "fish," which brings an end to Earth's disparate governments and nations. Fighting these changes are the Psi-Defiers, led by one of the oldest friends of the Chief of the Psi-Warriors, its reluctant leader, Rabbi Moran Ackerman, one of Clara's nephews. At the newly created psi Excellent Skills Program school on The Campus, an ever-expanding, multi-species community and training camp, Clara, Moran, Esperanza Enlaces (Espe, the Chief Media Contact), and Clara's on-again, off-again lover/friend, Epifanio Dang make their new homes."Snapshots" of Clara's life from age 9 through the Transition show how she develops to be Earth's first Chief Communicator. Stories from the younger Spanners about the first five years of The Transition fill Volume II. How would YOU do with the changes?

## **This Changes My Family and My Life Forever Details**

# From Reader Review This Changes My Family and My Life Forever for online ebook

## John Betts says

I enjoyed reading this following on from book 1, book 1 give the groundwork so you really get into book 2 quickly and understand what is going on from the very beginning, if I had more time to spare, this is a book I would have read cover to cover non stop.

---

## Peggy says

Clara Ackerman Branon is back, and earths transition continues.

I actually read Vol I and Vol II back to back, so for me it was like I'm reading one continuous book. I think though that one would need to read Vol I really to fully understand what is going to happen.

In this volume, we get introduced more to Clara's family (they are a large family!) who all get interviewed about how they experienced it all (when the news first broke, what changed for them, any difficulties, what are they planning for the future). One of the main narrator is Clara's nephew Moran, a Rabbi before transition, who will now become the Chief in the fight against those who resist and fight the transition. There is also more info about Clara, snippets about her life from young woman to past transition. We learn about her jobs, relationships with both man and woman and in communes, what does she listen to, read etc. Though I'm still confused about her relationship with her lover / not lover Epifanio - but hey, more volumes are to come.

One thing I like very much about the Spanners Series is the message that we can all live together in peace, learn from each other, be there for each other. All differences (religious, racial, gender, and even between species and inhabitants of other planets) are overcome. I mean, how cool would that be to be able to communicate with animals - and not in a jokey, Eddie Murphy Dr Dolittle kind of way, but accept them and their needs / interests as equal to humans. And those people who resist change (yes, there will always be those, even if it is clear that the change is for the better) will not be eliminated, but gently persuaded to recognise at what is best for them.

Another thing I really like is the cover artwork and I hope the author doesn't change the cover art throughout the series, that would be a shame. It's pretty and imaginative. Once you have read the first few chapters and read about the first encounter with 'The Band', have a look at the cover again and you will go 'ahhhh'.

I very much enjoyed this series and the somewhat unusual structure of the book with interviews and different narrators. It is blurring the lines between fiction and non-fiction. One of the great plus for me was that abbreviations or foreign language used (one of the main characters is Hispanic) are always explained in brackets straight away. Because of the non-fiction style, it does not halt the flow of the story at all, but is in fact very helpful. On the minus side, as there are several of Clara's relatives are interviewed, it can sometimes be a bit 'samey' at some stage. But the writing is easy to read, so it is not a big deal and I found myself skipping over a few pages.

A satisfying continuation from Volume I - let's see what's coming up in the next volume.

### **Aly says**

This book helps me to understand book 1 better. I enjoyed this book more. I got introduced to more of Clara's family in this book. There are many people in this family. I think you should check out this series. \* I received this book from the author in exchange for an honest review\*

### **Brenda says**

I found this to book to be a very imaginative and creative story. Ms. Ember's Jewish faith shines through her characters in this book. This is the first I have read from the series and I found the uses of telepathy within her characters and the plot interesting. I love to read sci-fi and fantasy and this is the real deal. Although I disagree with the cover art. As someone who has dabbled with Poser and Daz, those characters on the cover give me the willies. No offense!

I received this from the author to review.
