Dalton Fury

Tier One Wild Dalton Fury

***New York Times* bestselling author and former Delta Force commander Dalton Fury (*Black Site* and *Kill Bin Laden*) is back with an explosive new thriller.**

Former disgraced Delta Force commander Kolt "Racer" Raynor has earned his way back into The Unit after redeeming himself during an explosive operation at a black site in Pakistan. But he is about to face his deadliest challenge yet.

The most wanted man in the world, American al Qaeda commander Daoud al Amriki, and his handpicked team of terrorist operatives, have acquired stores of Russian-built, shoulder-fired surface-to-air missiles (SAM's) from ex-Libyan spies in Cairo. Their mission: infiltrate the United States and take down American aircraft. The country's best are tasked with stopping them. But when a SEAL Team Six mission to take down al Amriki goes wrong, Major Raynor and his Delta Force team find themselves front and center as Amriki and his terrorists work their way closer to America. And time is running out.

Dramatic and revealing, *Tier One Wild* takes listeners on an international thrill ride from the black ops nerve center of JSOC to the bloody streets of Cairo in a story only a former Delta Force commander could tell.

Randy Daugherty says

Kolt "Racer" Raynor former excommunicated Delta Force commander has earned his way back into the fold. Having completed a very dangerous and off the grid op in Pakistan Kolt has earned the right to enter the group again. His initiation back into Delta included a 30 day trial, one that had changed since Kolt was last in the saddle. Though suffering the extreme training, Kolt was advised that many did not think his reentering was such a great boon for Delta and many had not forgotten the mission that has ended up with Kolt almost dead and his men dead or captured.

"Racer's" luck seems to hold getting one mission after the other, each showing him to be the expert under fire that he always has been. Now Kolt has been handed one of the most explosive missions to date. Daoud al-Amriki the American born al-Qaeda commander, one of the top most wanted terrorist in the world. Daoud and his hand-picked group of operatives have purchased 60 shoulder-fired Russian-made SAMs from ex-Libyan patriots have a mission in mind. Their mission to cripple first the economy and then to cut the head off of Government, the country in question, the USA.

This was an excellent read and page-turner from the beginning. We are once again reunited with Kolt "Racer" Raynor the headstrong brash Delta Force Commander. In "Kolt" Dalton Fury has created a very memorable character and we look forward to more from Dalton Fury and "Kolt Raynor" and Delta Force.

Dave says

3+

MsEleanorMae says

This was excellent!

Jeff Kempling says

I really enjoy the novel, but hate the fact that he keeps jumping back and forth with the main characters' names. IE: first, call-sign, last, Kolt "Racer" Raynor. "As the attacker lunged forward to plunge the knife into the back of Raynor's calf, Kolt kicked the thug's left knee with all his strength, locking it straight and throwing the man off balance."

Mike (the Paladin) says

Okay I thought about this and think I have to go 5 stars here. I say that because as I finished this one the first

thing I did was check to see if the "next" was out.

It's not by the way.

So, Kolt "Racer" Raynor joins the ranks of exceptional action heroes. I liked the first book about this character but found it a bit more strained and "been there" as the Major had lost men and crawled into a bottle only to be called back.

Here we stay with the character who finally got established and built an interesting story of a terrorist threat that could happen. The final climax stretches a little to include our protagonists but not too much for it to stay an excellent book.

We don't get a "nothing but action book here by the way. Not that this would necessarily have been a problem. I've read many "break out of the gate at a run and never slow down" books and they can be good. Here we take our time. We open with an action sequence and then fade into a sort of "spy thriller" type story that again leads into a fast moving climactic close.

It also ends in a "sort of" cliffhanger...you'll see what I mean.

If you like Vince Flynn, Brad Thor, Tom Clancy, Mark Greany etc. this may be what you're looking for. An involving and exciting read, recommended. Enjoy.

Shannon Wise says

I liked this book, but that ending was bullshit. I can't say anymore because it will give it away.

Colt Raynor is back and trying to prevent a terrorist attack on U.S. soil. He and his unit are trying to track down stolen SAMs (surface-to-air) missiles and the American Taliban who wants to use them on U.S. soil.

The book was well-written and a roller coaster ride. But. The ending pissed me off. I think that's why I didn't give it five stars. But if you like action novels and thrillers, this is a good one.

Alan says

Excellent! I will read his other books.

Clyn says

This second book in the series provided a solid installment in my newest favorite special forces book series. The main character in this series is unique in that he goes through successes and failures that get him kicked out, reinstated, and then recruited to other black ops services. I continue to get the real world vibe that I appreciated from the first book. There is enough detail to establish the author's bonafides, but not so much to be overwhelming or snooty. The plot stems from real world issues and involves difficult decisions, where the right decision is not obvious, and is questioned by others. He continually has to fight off his own demons and detractors, but demonstrates the confidence and skills that have made him valued and favorites by some, and envied and disliked by others. Great books.

Steve says

A good shoot 'em up...not a bad read. A little short on plot and narrative, but still fun to read. I will go back and read the first one. I think there were only three in the series, so I'll check them out.

Cheryl says

This was sorta the sequel of Black Site with the same characters dealing with David The American and it plodded along literally until the last 2 pages when it reached in and grabbed my heart with his last breath.

Dan says

Just finished Fury's second part in the series, (although his high body count leaves you thinking anyone can get taken out) and when you get to last page your gut loosens up. It's been a long time since an author makes you feel the blood splatter! Bravo and can't wait for the next one!

Am Gill says

Well, this certainly was a significant improvement over the first book. Multiple locations, a larger cast and some fascinating insight into Delta structures and procedures made for a great listen. Highly recommended

Pierre Tassé says

Exciting and riveting...If there is "one" distraction is that Dalton uses the name "Major Kolt 'Racer' Raynor" but uses it throughout the book and sometimes in the same paragraph. Example, he'll say, the major did this and Kolt did that but Racer was on call. We know who he is so why didn't Dalton just keep it clean and call Kolt Racer in the unit and Kolt in civy street. We are good attentive readers and would be able to follow this security method.

Otherwise, this book needs to be read only after book #1. But it is a fun book to read.

Bill Wright says

Loved it.

Dan Hiner says

I agree with another reader....they should just use one name for racer. lol!
