A Cowboy without a Name

The only thing Brand Duggan's outlaw kin ever gave him was an undeserved reputation. Once he's through breaking horses, he'll leave Eden Valley. Staying means risk—and heartache. And he has no business falling for a refined English miss like Sybil Bannerman.

The rugged cowboy who rescues her from a stampede is just the kind of man Sybil Bannerman's editor wants her to write about. Yet she has no idea how big a secret Brand Duggan carries, until her life is threatened. Despite the evidence against him, Sybil can't walk away—for the man who lassoed her heart is the one she'll love forever....

Seriously can't get over how much I love this series. Each one just has elements I fall for, in the lovely setting in Canada at Eden Valley Ranch. I loved the outlaw theme to this one. I enjoyed watching the love story unfold, and the changes both hero and heroine had to make and the realistic growth. It was great!

Another amazing story by Linda Ford. She does it time after time! In this story she has created a character who is running from his family and his name. Brand Duggan is the son of an outlaw who tends to find him wherever he goes. Brand can usually stay ahead of his father and half brother, but this makes life very lonely for him.

Sybil Bannerman has come to Canada with several of her friends from England. She has convinced an editor to publish some of her stories under a mans name since women writers aren't really acceptable. She meets Brand and suddenly her mind takes off on a story about a cowboy without a last name.

This is an excellent story with a nice mix of romance, adventure, and just plain life! You'll enjoy this story if you like those things.

Harlequin Books says

"This fifth book in the Cowboys of Eden Valley series has a hero suffering for the sins of his father. With many familiar faces, this is a great Western romance and a story of redemption". (RT Book Reviews, rated 4 stars)

My Review: Winning over the Wrangler

4 STARS

I have enjoyed reading the Cowboys of Eden Valley. Sad to say it has been hit and miss on some of the books, but would like to read the whole series. It is a glance at taming Canada's wild west.

The plot is simple with lots of layers to it. Sybil Bannerman came over from England with a few friends to stay at a ranch. She is watching a horse being broke when an accident happens and she stays right in the way of horses. Brand is on a horse and he saves her. Everybody is grateful she was not hurt.

Sybil starts taking dinner to Brand where he is camped alone with his dog. He plans to tame the horses than leave. He is always on the run. Sybil writes articles and she thinks Brand would make a great article. No one knows his last name and where he is from. Sybil also makes friends with his dog. No one has done that. They start talking about God and belief in him.

There is plenty of drama, danger, forgiveness and accept that God will be there for anyone. Some scriptures and prayer is a natural part of the story.

The setting is the make believe Eden Valley CANADA 1882's On a big ranch.

The characters are believable. I like them. Brand wants to stay but he knows the longer he stays the more danger he is putting everyone. He tames horses than moves on before he is found.

Sybil wants to be safe but she risked a lot to come to Canada west from England. Her parents are dead. She wants to be a writer under her own name.

This is a clean read. I would love to visit Eden Valley again especially in a book.

I was given this ebook to read and asked in return to give honest review of it by Netgalley and Harlequin.

Brand Duggan has been on the run since he was twelve. His father and brother lead the infamous Duggan gang, robbing banks and sometimes leaving dead bodies in their wake. When Brand takes a job at Eden Valley Ranch he plans to stay for a few days breaking horses, and move on again before his family can find him. What he doesn't count on is meeting Sybil Bannerman. After saving her from a stampede he can't seem to get her out of his mind. He wants to stay and get to know her, but anyone who gets close to Brand would be in danger.

I loved the setting in Eden Valley. Winning the Wrangler was one of those books that made me long to live in a simpler era out on a ranch. And then I thought about things like indoor plumbing...

I loved what a great hero Linda Ford wrote in Brand. He was a loner, but only because he was trying to protect those around him. He was always willing to take the time to help others (children, young cowboys), and yet he was tough too. I enjoyed watching Sybil break through his shell and teach him that he was more than his last name.

The romance was sweet, and there was a bit of suspense to the story. As Brand kept waiting for the Duggan gang to show up, so did I.

This was my first book by Linda Ford, and there are other books in the Cowboys of Eden series, I didn't feel confused for having missed them. So don't be afraid to read this book alone or out of order. Although I am

now intrigued about reading the rest and seeing how the other couples got together.

I would definitely recommend this to fans of Christian romance, particularly westerns. I'd also recommend *Stealing the Preacher* by Karen Witemeyer as another Christian romance involving outlaws.
