### **Babs says**

Life in the Barleybridge Series marches on. Kate in school, Dan and Rose married with child, Rhodi and Megan on the verge in spite of her father, and Joy and Duncan at odds. The Practice is busy as ever with the animals taking center stage at times.

No graphic or 'fowl' language. A light read.

This is a lovely series of books, all about the vets at the Barleybridge Vet practice. Each book - this is the third in the series, focuses on the different characters in the practice and you become more and more involved in their lives. Loved this story and now I can't wait to begin book number four.

First, don't let the title cause you to think this is some type of racy novel. It does have love in it, even a bedding down, but it doesn't go into details. Second, this book is third in a series. I would recommend for anyone interested to get the 3 books so far in the series from the library and read them one after another. I had forgotten some of the details about the characters' lives because it had been months since I'd read the last one. Third, just because I gave this novel 3 stars doesn't mean I am not enthusiastic about this series. I would read a 4th novel in this series if it came out. What is this novel about? As the Goodreads review says, it is about a veterinary practice and the stories of some of the animals and the vets, their families, and some

clients. It is a good device to tell several stories at once. Also, I got it from the library on Friday and finished it late Saturday night. Towards the end, I couldn't put it down. Yes, there are some dramatic scenes in this book.

### **Amanda says**

Light, comfy, quaint read. Enjoyable when you need to escape. Particularly good if you're an animal lover although this one had less focus on the animals and more on the people of Barleybridge.

### **Linda says**

This doesn't feel like the end of the Barleybridge saga, but unfortunately I think it is. Start at the beginning of the series, and enjoy this sweet mild story of life in small town England.

Rebecca Shaw's books are nice comfy reads. This series is set at a Vet's practice and follows the various members of staff and their family along with the clients. I have read and enjoyed her other series aswell.
