Drop Dead Red (A Trisha Carson Mystery) Glenda Carroll

What happened to Shari Grantner? One day the tall red-haired lawyer is running a successful open water swim clinic. Less than 24 hours later, her body washes up on a beach near San Francisco. Shari's sister reaches out to Trisha Carson, an amateur sleuth, asking for her help. No need to ask twice. Trisha jumps into the investigation and soon discovers that the seemingly strait-laced barrister had a sizzling secret life.

Trisha begins to untangle an ever-growing list of suspects. There is Shari's hot-headed younger brother who badgered her for money. Her good-looking boyfriend who the dead girl was about to dump. The mysterious man who shows up in compromising photographs. And the quiet unassuming sister who is now in charge of the family's well-endowed trust.

As Trisha inches closer to the culprit and the motive, the trail circles back to a familiar location... where the killer is waiting.

Drop Dead Red takes place in the exciting San Francisco Bay area, from the quiet tree-lined neighborhoods of Marin County, to fan favorite AT&T Park, home of the San Francisco Giants to the handsome state parks with their swimmable lakes in the East Bay.

Nancy White says

Really good read!!!

Robin says

A good mystery. The descriptions were great - I could really picture swimming in the open water and the cold of it. Now I want to read to her previous book.
